

K271

Figure 11. Three-quarter view of hilt-collar K271 (left); Photomicrograph of the undulating beaded wire, also referred to as concertinaed by Fern, framed by two beaded wires and of the two-ply twisted wire ropes of beaded and plain wires at the top (25x, field of view ca. 7mm).

a	Thick beaded wire				Thin beaded wire			
	Bead diameter (µm)	Average (µm)	Bead length (µm)	Average (µm)	Bead diameter (µm)	Average (µm)	Bead length (µm)	Average (µm)
Three-strand band	579-611	602	375-431	407	335-367	345	235-381	261
Undulating beaded wire					336-402	368	217-292	245
Beaded wires as panel borders					367-406	383	199-267	232
					405-444	429	196-273	241
Beaded wire loop	475-522	501	259-348	299				
Two-ply twisted beaded wire rope	356-410	383	283-303	292				

b	Plain wire	
	Wire diameter (µm)	Average (µm)
Two-ply twisted wire ropes	266-312	282
	278-310	294
