

APPENDIX III

POTTERY INDEX: POTTERY CODES

The key below lists the fabric types of the pottery from Phase III of the excavations at Harts Hospital. The following pages in this appendix list the numbers of sherds from each context and the date range for each fabric type. Bone and glass have been excluded from this report as they are still undergoing analysis. A complete report will, however, be included in the forthcoming publication of the Harts Hospital project, bringing together information from all of the phases of excavation.

<u>POTTERY FABRIC CODE</u>	<u>DESCRIPTION</u>
BORD	Border Ware
BORDG	Border Ware, green glazed
BORDY	Border Ware, yellow glazed
