

Survey & Levels Data

XSP10

Survey Data

The locations of boreholes, trenches and areas of excavation were recorded either by MOLA Geomatics or by the Principal Contractor's surveyors using Crossrail London Survey Grid control stations. This information was subsequently transferred onto the Ordnance Survey Grid.

Levels Data

All levels were recorded relative to height Above Tunnel Datum (m ATD) where Tunnel Datum which is 100m less than the Ordnance Survey levels (i.e. 1m OD = 101m ATD). This data was also recorded relative to Ordnance Datum.
