

I AM AN ARCHAEOLOGIST

July 24, 2015 flashback Community Archaeology, Explore Posts, Public Archaeology Archaeology, Video

We want to celebrate this **#dayofarch** sharing with all of you the *English subtitled* version of our **video** spot, **I am an archaeologist**, whose Spanish version has more than 8.000 visits. In the **first anniversary** of its publication, we have decided to **share it** worldwide in an international language.

Based on [Archaeomanifesto's](#) idea '*I encouraged others to follow my path*' we have looked for that special moment, timeless and universal, in which a boy **discovers** one of the diverse facets of **Archaeology**.

We'd like to dedicate this video to all those archaeologists who enjoy their profession. It is created to **acknowledge our work**, "underground and underwater, in the suffocating heat or with scarce resources..."; especially to reveal the role of **Archaeology** as a scientific labour, based on a complex **research** method, but a real **vocation** full of **passion**, however. [Get to know us better](#).

'*I am an archaeologist*' was recorded at [The Santa Cruz Library](#), the historical library of the University of Valladolid with an international prestige (Valladolid, Spain).

Enjoy it!
