

INTO THE BRONZE AGE, COMMERCIAL EXCAVATIONS AT LLANFAETHLU ANGLESEY

July 29, 2016 Catherine Rees Bronze Age, Commercial Archaeology, Excavation, Finds, Mesolithic, Neolithic, Prehistory, UK Anglesey, Bronze Age, Burnt mound, Chert tools, Early Bronze Age, Early Neolithic, flint tools, Late Neolithic, Mesolithic, Neolithic, Neolithic Houses, Neolithic Settlement, North Wales, Prehistoric North Wales, prehistoric pottery, Prehistory, Stones axes, Wales

Since 2014 C.R Archaeology have been the principle archaeologist at the new school development at Llanfaethlu Anglesey on behalf of Anglesey council. A desk based assessment, geophysics and trenching uncovered a large amount of late #Neolithic pit and a possibly #Neolithic house. Further evaluation in 2015 led to the discovery of three #Neolithic houses, the [largest Neolithic settlement in Wales](#).

As of June 2016 C.R Archaeology have been carrying out a watching brief on behalf the construction company. To the south of the #Neolithic settlement this watching brief uncovered a large group of early #Bronzeage pits and a classic #Bronzeage feature in #Wales a Burnt mound.

A break in construction this week has given the opportunity to start processing the large amount of pottery and stone artifacts.
