

SOIL MAP OF UKRAINE

Soddy podzolic soils on ancient-alluvial aqueous-glacial deposits/sediments and moraine

1 Soddy-weakly podzolized sandy and clay-sandy

2 Soddy-medium podzolized sandy loam

Soddy podzolized soils gleyed (gleyic and gley) on ancient-alluvial aqueous-glacial deposits/sediments and moraine

3 Soddy weakly podzolized sandy and clay-sandy

4 Soddy medium podzolized sandy loam

5 Soddy medium and strongly podzolized superficially gleyed (Carpathian submontane region)

Podzolized soils (nontruncated and truncated) mainly on loess and clays

6 Light grey and grey podzolized

7 Dark grey podzolized

8 Podzolized chernozems

Regradated soils (nontruncated and truncated) mainly on loess

9 Dark grey regradated

10 Regradated chernozems

Typical chernozems (nontruncated and truncated) on loess

11 Typical chernozems meagre and weakly humic

12 Typical chernozem medium humic

Ordinary chernozems (nontruncated and truncated) on loess

13 Ordinary chernozems meagre and medium humic thick,

a) the same mycelial-calcareous

14 Ordinary chernozems medium humic

15 Ordinary chernozems meagre humic,

a) the same mycelial-calcareous

16 Ordinary chernozems meagre humic shallow, a) the same mycelial-calcareous

Southern chernozems (nontruncated and truncated) on loess

17 Southern chernozems meagre humic and weakly humic,

a) the same mycelial-calcareous

Chernozems on fine clays

18 Chernozems mainly alkaline on fine/heavy clays

18a Chernozems on fine clays

Chernozems and soddy soils rock debris on compact rocks eluvium

19 Chernozems and soddy rock debris soils on compact noncalcareous rocks eluvium (sandstone and shale)

20 Chernozems and soddy calcareous soils on calcareous rocks eluvium (marl, chalk, limestones(F10))

Chernozems residual alkaline on loess

21 Typical chernozems residual alkaline

22 Southern chernozems residual alkaline

Meadow-chernozemic soils mainly on loesses

23 Meadow-chernozemic

24 Meadow-chernozemic superficially alkaline

25 Meadow-chernozemic deep alkaline

Chestnut soils on loess

26 Dark chestnut residual alkaline

27 Dark chestnut alkaline

28 Chestnut alkaline

Meadow soils on deluvial and aluvial deposits

29 Meadow

30 Meadow alkaline

Bog soils on aluvial, deluvial and aqueous-glacial deposits

31 Meadow-boggy and bog

32 Peat-boggy soils and low moor soils

Solonetz

33 Solonetz mainly solonchakous

Solodized soils

34 Meadow-chernozemic and soddy solodized gley soils and solods

Soddy soils

35 Soddy mainly gleyed sand, clay-sand and sandy loam soils in a complex with weakly humic sands

35a Soddy sand and clay-sand mainly nongleyed soils in a complex with weakly humic sands and chernozemic sand soils here and there with a heavy relief

36 Soddy podzolized loamy soils and their gleyed kinds Brown-podzolic soils mainly on deluvium deposits

37 Brown-podzolic soils and their superficially gleyed kinds Brown mountain-forest soils on compact rocks eluvium-deluvium

38 Brown mountain-forest rock debris and soddy-brown soils in a complex with their gleyed kinds Soddy brown and mountain-meadow soils

39 Soddy brown and mountain-meadow soils

Cinnamonic soils on rocks eluvium-deluvium

40 Cinnamonic mountain rock debris soils

Soils associations and complexes

6+7+8 Soils associations

28+33 Solonetz in a complex

Soils gleization

Gleyed soils ( gley soils and gleyic soils )

Superficially gleyed soils

Soil mechanical composition

Sand and clay-sand soils

Sandy loam soils

Light loamy soils

medium loamy soils

Clay loamy soils

Clay soils

Rock debris soils

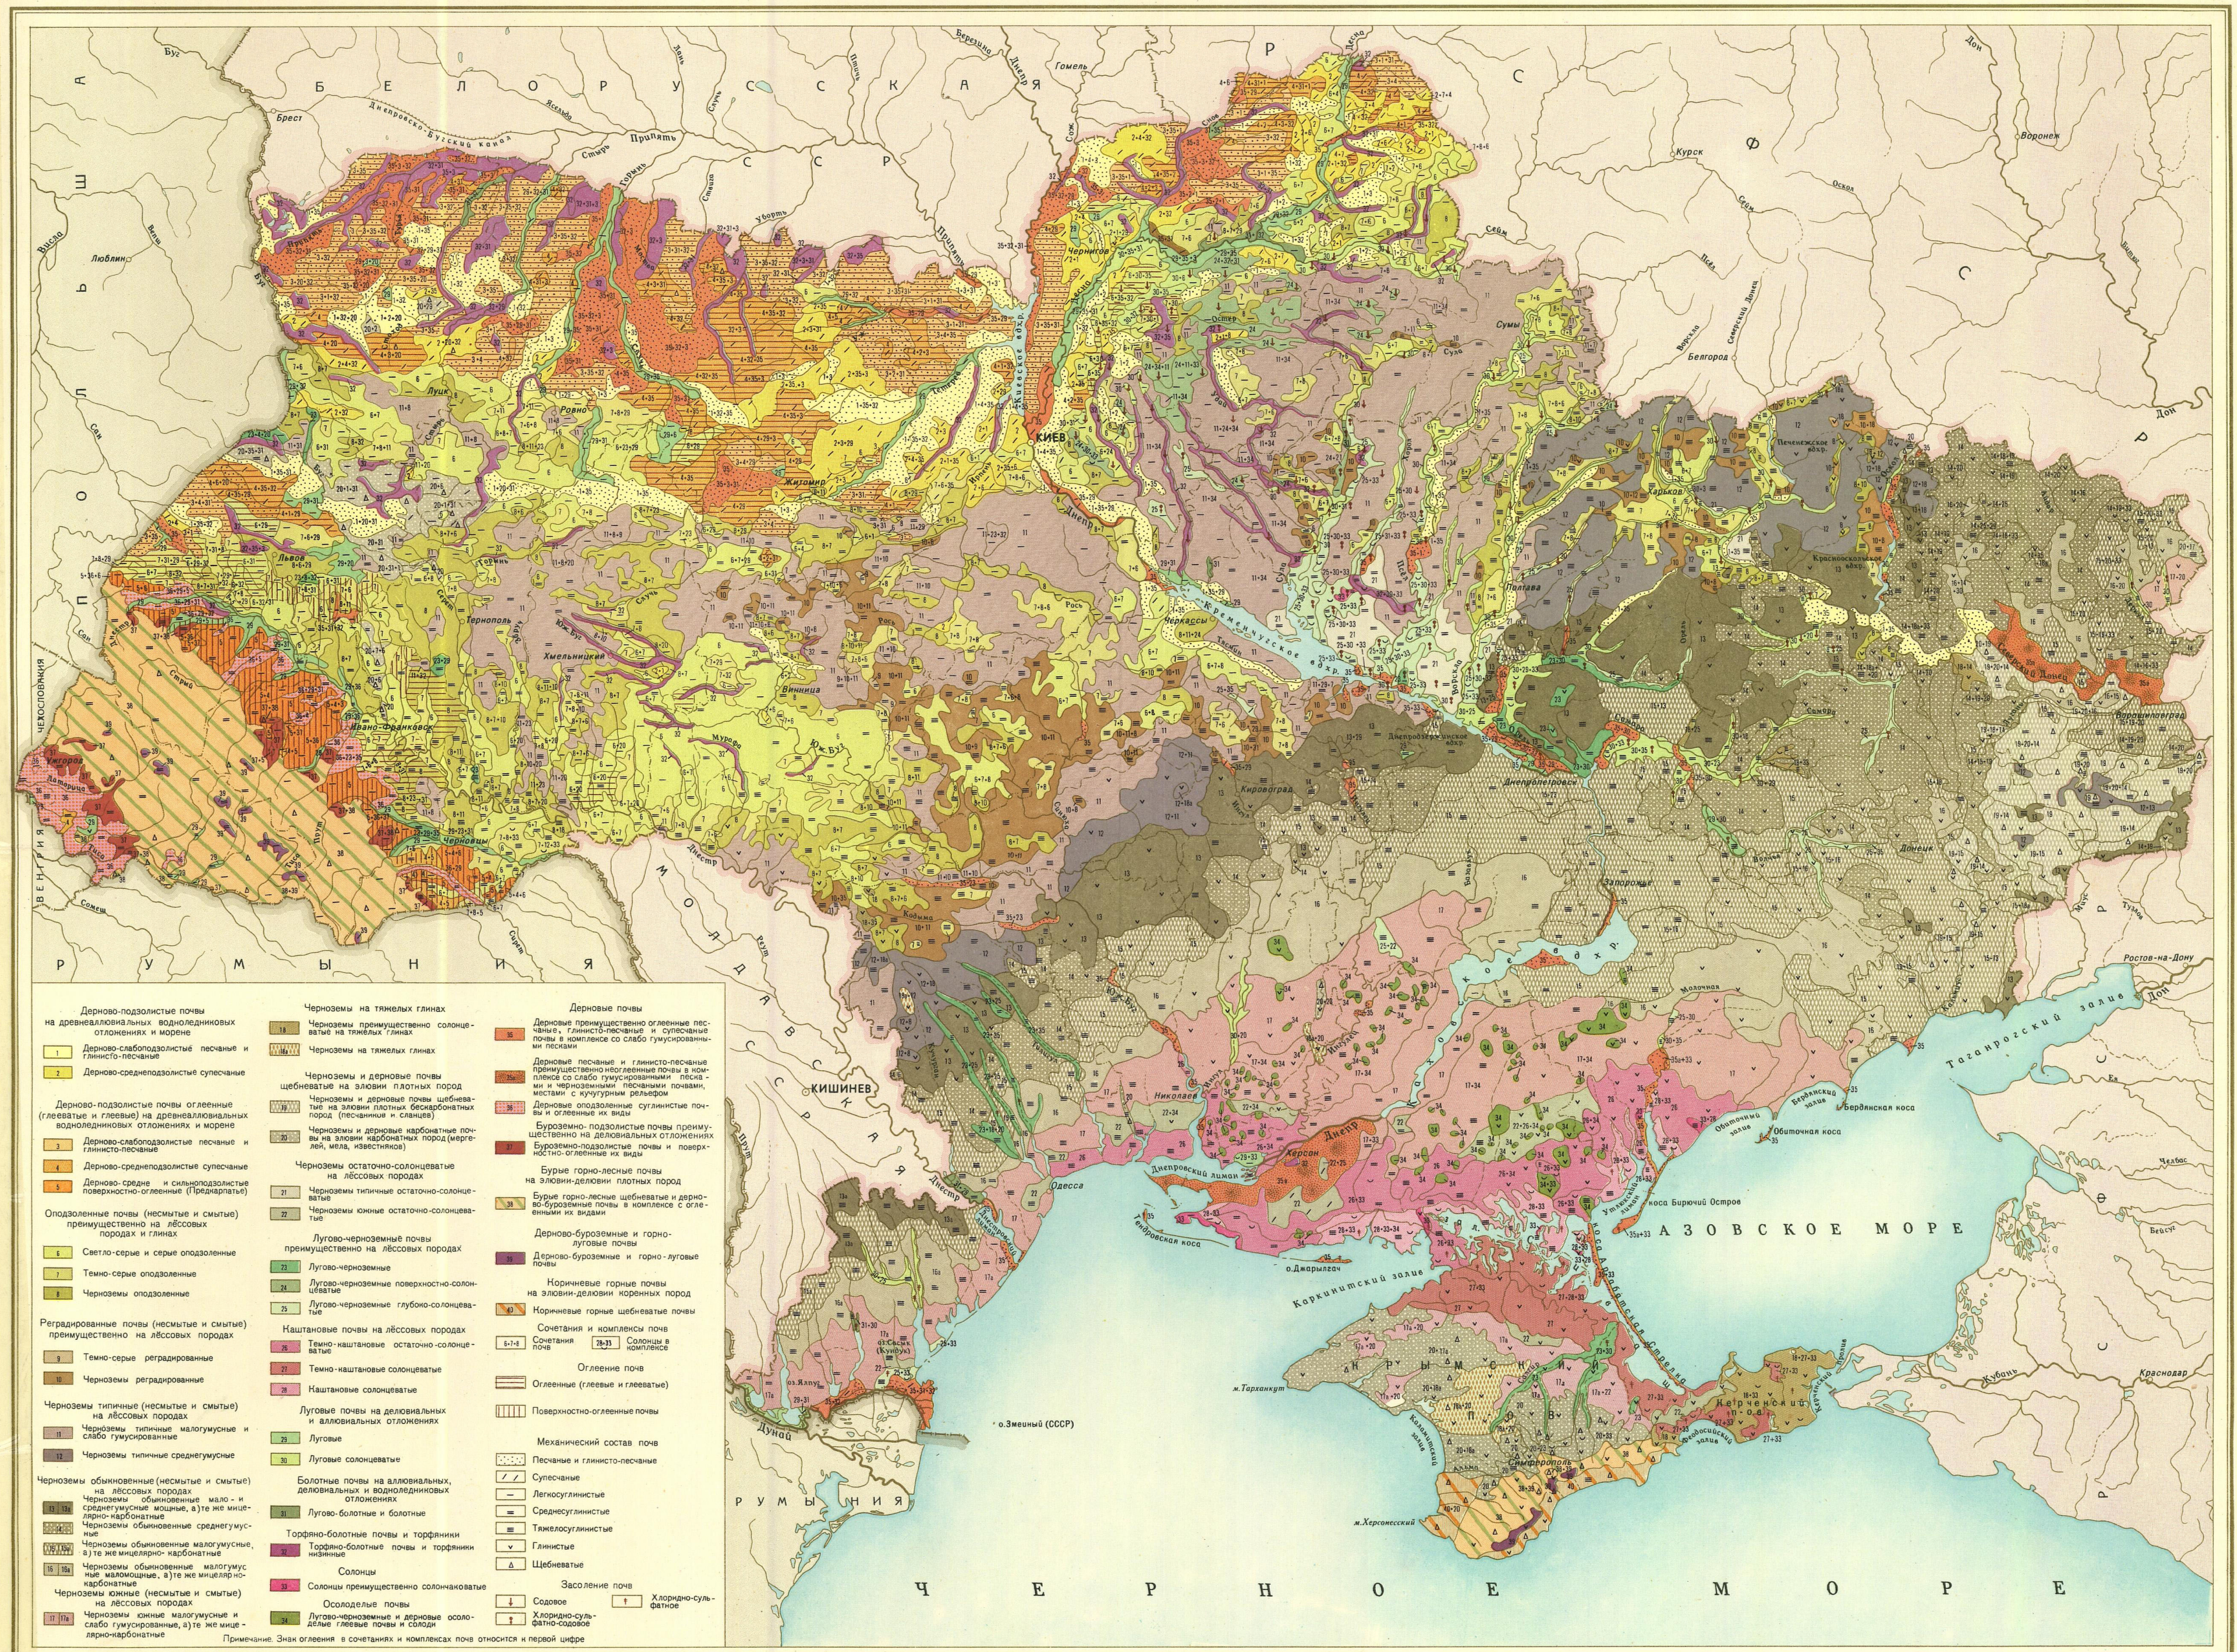

Soils salinization

Sodium carbonate salinization

Chloride-sulfate salinization

Chloride-sulfate-soda salinization

ПОЧВЕННАЯ КАРТА УКРАИНСКОЙ ССР

Главное управление геодезии и картографии при Совете Министров СССР  
Москва 1977

Масштаб 1:2 500 000

Карта составлена и подготовлена к печати фабрикой №2 ГУГК в 1969 г. по материалам, разработанным Украинским научно-исследовательским институтом почвоведения и агрохимии им. А.Н. Соколовского и Советом по изучению производственных сил УССР АН УССР под редакцией Н.К. Курдюнского  
Редактор А.В. Воронина Технический редактор В.Г. Богданович

Подписана к печати 26.VII.77. Т-13975  
Формат бумажный 49,0x62,0. Лист 1. Усл. печ. л. 0,54  
Тираж 1000 экз. Зак. 1303 Цена 22 коп.
