

Version date 17/10/17

**Basingstoke, Plot W, Basing View: (A.2017.91). (BAPPLWEV)**

**Assessment of the clay tobacco pipe**

*by John Cotter*

A single piece of clay pipe was recovered. Given the small size of the assemblage a separate catalogue has not been constructed and instead the pipe is simply described and spot-dated below. No further work is recommended.

**Context (604) Spot-date: Late 17th to early 18th century**

Description: 1 piece (3g): Stem fragment of 'chunky' early type. Stem bore diameter of 2.9mm. Abraded condition.
