

Phases of work

Watching Brief on test pits and boreholes at Charterhouse Square – 03/12/12 – 18/12/12
Contexts [94]-[122], Trench sheet and Borehole Record sheet
Crossrail report C257-MLA-X-RGN-CRG03-50058v3

Watching Brief in area of Grout Shaft Charterhouse Square– 11/02/13 – 26/03/13
Contexts [123]-[201]
Crossrail interim report C257-MLA-X-RGN-M123-50003
Crossrail post excavation assessment C257-MLA-X-RGN-CRG03-50058v3

Watching Brief Moorgate Spur Grout Shafts – 27/02/13 – 27/03/13
Contexts [202]-[209]
Crossrail fieldwork report C257-MLA-X-RGN-CRG03-50046

Watching Brief Farringdon Road Utilities Diversion – 01/05/13
Context [210]
Crossrail interim report C257-MLA-T1-RGN-CRG03-50020
Crossrail post excavation assessment C257-MLA-T1-RGN-CRG03-50042

Targeted Watching Brief at 10 Hayne Street (Area A), Excavation at 8-9 Hayne Street (Area B) and General Watching Brief at 20-23 Long Lane/2 Lindsey Street (Area C) – 30/05/13 – 28/06/13
Contexts [212]-[319] and [351]-[353]
Crossrail interim report C257-MLA-T1-RGN-CRG03-50020
Crossrail post excavation assessment C257-MLA-T1-RGN-CRG03-50042

Tree Root Test Pits – 07/07/14
Contexts [1001]-[1008]
Summary of Charterhouse Square Tree Root Test Pits

Community Excavation Charterhouse Square – 10/07/14 – 28/07/14
Contexts [320]-[350]
Crossrail post excavation assessment C257-MLA-T1-RGN-CRG03-50042

Watching Brief on Boreholes in Charterhouse Square – 18/12/14 – 10/02/15
Contexts [501]-[509] and [521]-[537]
Crossrail fieldwork report C257-MLA-T1-RGN-CRG03-50075

Context Sheets

Context numbers start at [94] which follows on from the earlier work in the area under XSF10.

Context sheets for [323], [351], [352] and [353] are missing but these contexts are all recorded on the Index of Archaeological Association.

Contexts from the Moorgate Spur Grout Shafts, the Farringdon Road Utilities Diversion, the Tree Root Test Pits and the Charterhouse Square Borehole watching briefs were not included in the post-excavation phasing, and therefore, are not on the Index of Archaeological Association, but they are

recorded on the context register. Context sheet for [1008] is missing but is described in the summary report.

Matrices

The sub-group and group information exists in the Index of Archaeological Association and there are original sub-group/group matrices included except for the groups 47-63 for which the original matrix could not be located.

Plans and Sections

The small scale of the boreholes investigated in the Grout Shaft means that the sections cannot meaningfully be shown on the Site Plan. They are included on the respective site plans for BH1 and BH2 and recorded on the Plan Register.

Finds

The finds from the Community Dig have been boxed separately and the boxes given numbers prefixed with C. There is also a separate finds inventory for these boxes.

There are no Clay Tobacco Pipe recording sheets for contexts from 210-329 although data for these objects is included.

Reg finds numbers <50> <80> and <81> are VOID.

Reg stone <13> in a crate (in the west wing, shelf 14.6). Reg stone <66> has been discarded.

X-rays:

Only the following x-rays have been deposited:

X10527

X11749

The remainder of the x-rays have been checked but will remain with MOLA until the other sites that are included on the plates have been deposited:

X10742 (TEQ10)

X10743 (TEQ10)

X11205 (PAL15, LED13, SGG14, BJG10)

X11207 (LED13)

X11208 (SGG14, LED13)

X11209 (LED13, LMS13)

X-ray 7879 is Missing.

The Human Bone from the site is already deposited with the Museum of London.
