

Summary:

mineral preserved organic

Conservation NoteSite: context: accession number:
XSM10 [8236] <3067>**Site name:**

Crossrail - Broadgate

Period:

post medieval

Materials:

copper alloy

X-Ray Numbers:

X11301

Simple Name:

unidentified

Photo Pathway:

Not Found

Details/Comments/Sketch:

Traces of mineral preserved organics remain in the corrosion on the bottom of the fitting. These appear to be a fibre (?string/thin rope) that has been wrapped round and round, maybe to help the remain securely fixed in whatever it was place in.

Date:

2 August 2016

Conservator:

Liz Goodman
