			10 1/4 x 5 1/8 x 2 3/8		Bonding material				
C Description and comments Brick wall projects westward from 53. finished edge on north side. extends at least 3.00m from wall 53. The wall is disturbed and underlies gas main. It is covered in a gritty textured clay soil beneath brown clay (=1) in which the gas main is laid. A stiffer brown clay occurs to the west where it is more disturbed. Only limited exposure possible. Highest surviving part is c 1.75m below pavement surface.
