| | UNIQUE_ID | REF_NO | POINT_NO | EASTING | NORTHING | MAOD | LINETYPE | OBJECT_TYPE | ATTRIBUTE 2 |
|--------------------------|---|---|--|---------------------------|----------------------------|--|---|--|--|
| Column type: | Unique Access created reference number | wessex codelist defined attribute label column. Label attached to the data to identify the type of surveyed data in conjunction with the LINETYPE data. | Survey point number column | Easting Coordinate Column | Northing Coordinate Column | Height in meters above Ordnance Datum Column | Line type code column created from survey codelist wessex Survey layer label data used in conjunction with REF_NO and ATTRIBUTE column data to identify the type of surveyed data | Survey object type data column | User created attribute label data column. Label attached to the data to identify the type of surveyed data in conjunction with the LINETYPE data See codelist key sheet. |
| | | | | | | | | | |
| Column data description: | Created by Access to attach a unique identifier to individual database entries within the dataset . | User created during survey from wessex codelist and user direct entry. Contains: Site specific survey labels, see additional descriptions in the wessex codelist key. | Sequential point numbers created by the survey equipment. Allocated to each point surveyed in order of survey. | Easting Coordinate data | Northing Coordinate data | Meters Above Ordnance Datum data | Line type code user created from wessex survey codelist. Denotes type of survey line created during survey. See wessex codelist key sheet for description. | Category of survey data attributed to each survey point number. L: Line data A: Area data U: Unknown line data | Depending on linetype, either codelist derived survey labels or direct -entry user defined attribute data. Primarily used for additional description or feature type labels. |

| Code | Survey Description | Attribute Label Codes | REF_NO column label data additional description | Abbreviation (when used) |
|-----------|---|---|--|-----------------------------|
| ARCHAEOL | Archaeological feature. Surveyed extents of archaeological features located during excavation. Labelled with a wessex codelist or a user defined label. See Attribute Label Codes column for details. | Pre-ex: Feature surveyed prior to excavation. Ditch: On site interpretation ditch feature. Pit: On site interpretation pit feature. Gully: On site interpretation gully feature. Post-Hole: On site interpretation post-hole feature. Other: Any other archaeological feature identified on site, labelled with a user defined label. | | AY |
| AREA | Surveyed area layer. Labels a specific area of survey. Usually the excavated site extents but also project specific site sub-divisions or targeted areas of intervention/interest. | Strip: Area of site stripped of topsoil/subsoil by machine excavation. Usually delimits site. Layer: Area delimiting the extent of an interpreted archaeological layer. Spread: Used to survey the extents of a deposited spread of archaeological material. Other: Any other area surveyed on site, labelled with a user defined label. | Area label. Descriptive or number in format. Numbered and labelled with attribute label. See Attribute Label Codes column for details. | AR |
| BACKSIGHT | Surveyor created backsight station used as part of the surveying process. | | Site surveying label: Numbered with the prefix: BS-STN | BS-STN |

| Code | Survey Description | Attribute Label Codes | REF_NO column label data additional description | Abbreviation (when used) |
|----------|--|--|--|--------------------------|
| CIRCLE 2 | Surveyed circle using Centre then Edge points, usually used for circular features, for example postholes. Usually labelled with the specific context 'cut' number. NB: 'Cut' refers to the extent of an archaeological feature created in the past by human excavation. Circle 3 used for 3 outer points. | Pit: On site interpretation pit feature. Post-Hole: On site interpretation post-hole feature. Stakehole: On site interpretation s-hole feature Other: Any other archaeological feature identified on site. | Labelled with attribute labels indicating the specific archaeological feature cut context number. | C2/C3 |
| CONTEXT | Context & Centre Point surveyed point usually at the base of an archaeological feature's cut to level in m above Ordnance Datum. Identifies archaeological features by their project unique context cut number. | | Context number label: Numbers prefixed with CP . | CP |
| DISTURB | Disturbance, usually modern that has impacted on the natural that underlies the subsoil and in many cases the visible archaeology. Labelled with attribute label denoting type of disturbance. See Attribute Label Codes column for details. | Land Drain: Modern agricultural land drains identified on site. Other: Any other disturbance identified on site, labelled with a user defined label. | | DB |
| DP | Drawing/Planning point used to create hand drawn permatrace plans. | | Drawing point Label: Labels numbers used for planned graphical drawing points. Numbers prefixed with DP . | DP |
| FENCE | Fence. Used when surveying Modern Fence locations. | | | FN |

| Code | Survey Description | Attribute Label Codes | REF_NO column label data additional description | Abbreviation (when used) |
|------------|---|--|---|--------------------------|
| GEOLOGY | A noticeable change in geology visible on excavation. | | User defined label. | GL |
| GEOREF | GeoReference point surveyed as part of the creation of a digital photo geo-referenced image of a particular archaeological feature. | | GeoRef Label: Labels Geo-referencing points used for post-excavation photo geo-referencing. Numbers prefixed with GR . | GR |
| GRID PEG | Site Local Grid Peg surveying point (Eastings and Northings coordinate point) used to construct a site local grid with other grid peg points. | | Site surveying label: Grid Peg coordinate point (label refers to the SW corner of a site local grid square). | GP |
| HEDGE | Hedge. Used when surveying a hedge location. | | | HD |
| HUBONE | A survey layer with attribute labels for the different parts of skeleton surveyed. Used for dis-articulated, scattered or incomplete human skeletal remains excavated and recorded on site. See Attribute Label Codes column for further details. | Skeleton bones used as attribute code labels: Cranium, Mandible, Sternum, Spine, Rib, Sacrum, Pelvis, Humerus, Ulna, Radius, Hand, Tibia, Femur, Fibula, Foot. Additional labels identify the side of the skeleton: Left, Right, Top, Base, Not Applicable. wessex codelist defined. | Human Bone Label: Identifies project specific numbers attributed to on site Human remains. Numbers prefixed with Skeleton_ | HU |
| INHUMATION | Inhumation. Used for human burials. A survey layer with attribute labels denoting type of burial practice e.g Cremation or Grave or other Inhumation burial. The grave or archaeological feature the skeleton was excavated from will have a separate context number. See Attribute Label Codes column for further details. | Types of Inhumation burial and related surveyed data used as attribute code labels: Cremation pre-ex. Urned Cremation, Un-urned cremation, Grave Cut, Grave Monument, Grave Stone, Grave Plot, Coffin, wessex codelist defined. Other; User defined. | | IH |

| Code | Survey Description | Attribute Label Codes | REF_NO column label data additional description | Abbreviation (when used) |
|----------------|--|-----------------------|--|--------------------------|
| LEVEL | Level Point. Used to record the height above Ordnance Datum in meters of a specific point on site. | | Level point Label: Numbered with the addition of a prefix LVL . | LVL |
| OBJECT | Small Find point. Identifies objects (artefacts) found in excavation recorded in the site Object register by their project unique object number. | | Object number label: Used to record the spatial location of small finds. Numbers prefixed with SF . | SF |
| OPEN LINE | Open Line. Used to survey specific features or delineate areas for site specific reasons that don't fit elsewhere in the codelist. | | Labelled with user defined attribute label. | OL |
| PATH | Path. Used when surveying a modern pathway. | | | PA |
| POINT | Point. Used to survey and label individual points for site specific reasons that don't fit elsewhere in the codelist. | | Labelled with user defined attribute label. | PT |
| RIDGE & FURROW | Ridge & Furrow. Used when surveying evidence of Ridge and Furrow ploughing with attributes to label the ridge and the furrow seperately. | | Labelled with full code: RIDGE & FURROW . | RF |
| ROAD | Road. Used when surveying the extents of a road. | | | RD |
| SAMPLE | Enviro Sample point. Used to record the spatial location of environmental samples recorded in the site Environmental Sample Index. | | Sample number label: Identifies environmental samples taken during excavation by their project unique sample number. Numbers prefixed with ES . | ES |

| Code | Survey Description | Attribute Label Codes | REF_NO column label data additional description | Abbreviation (when used) |
|-----------------|---|---|---|-----------------------------|
| SECTLINE | Section Line drawing points. Spatially locates points used to create hand drawn permatrace section drawings. | | Section drawing Label: Identifies graphical section drawing numbers. Numbers prefixed with SL . | SL |
| SLOPE BASE | Base of Slope. Surveyed line indicating the base of a topographic slope. | | Labelled with full code SLOPE BASE . | SLB |
| SLOPE TOP | Top of Slope. Surveyed line indicating the top of a topographic slope. | | Labelled with full code SLOPE TOP . | SLT |
| SLOT | Surveyed line delimiting the extent of an excavation made into an archaeological feature for recording and finds retrieval (termed as an Archaeological Intervention) made by an Archaeologist on site. | | Slot label: User created attribute label indicating the cut context number of the archaeological feature. Often used without a label to record the excavated area during investigation on site. | SO |
| SOFT BREAK LINE | Soft Break Line. Surveyed line indicating a break of a topographic slope. Records marked changes in the topography of a slope midslope. | | Labelled with full code SOFT BREAK LINE | SBL |
| STATION | Site surveying station point. Locates a site surveying station point. | | Labelled with the prefix STN . | STN |
| STRIP | Edge of Strip. Used prior to 2014 for labelling the edge of an archaeological excavation area. | | | SP |
| STRUCTURE | Surveyed Structure. Surveyed lines indicating structures and their constituent material located during excavation on site. | Types and construction material of structure label codes used: Standing, Brick, Concrete, Stone, Fire-Brick, Timber, Metal wessex codelist defined. | Labelled by type of structure, with an attribute label. | |

| Code | Survey Description | Attribute Label Codes | REF_NO column label data additional description | Abbreviation (when used) |
|---------------|---|---|---|--------------------------|
| TEST PIT BASE | Base of Test Pit. Used prior to 2014 for the base survey of an archaeological test pit. | | Numbered and labelled with the prefix TPB. | TPB |
| TEST PIT TOP | Top of Test Pit. Used prior to 2014 for the top survey of an archaeological test pit. | | Numbered and labelled with the prefix TPT. | TPT |
| TBM | Local BenchMark surveying point. (Temporary Bench Mark) | | Numbered and labelled with the prefix TBM. | BM |
| TREETHROW | A feature which has been identified as a natural Tree Throw. Evidence of a former tree. | | Labelled with full code: TREETHROW. | TW |
| TRENCH BASE | Base of Trench. A surveyed line defining the base of an excavated trench. Excavated by a machine watched by an archaeologist. | | Trench number label: Labels the Trench Top and Trench Base survey data with the project Trench number and the prefix: BASE TR. | TRB |
| TRENCH TOP | Top of Trench. A surveyed line defining the base of an excavated trench. Excavated by a machine watched by an archaeologist. | | Trench number label: Labels the Trench Top and Trench Base survey data with the project Trench number and the prefix TOP TR | TRT |
| UTILITY | Utility (Buried Services) layer. Surveyed lines indicating the presence or suspected location of modern buried services. | | Labelled by type of service with a user defined attribute label. | UT |
| WALL | Wall. Surveyed lines indicating walls located during excavation on site | Types of wall construction used as attribute labels: Brick, Concrete, Stone, Fire-Brick, Timber. wessex codelist defined. | Labelled with an attribute label. See Attribute Label Codes column for details. | WA |
