St. Mary's Well, Newcastle upon Tyne:	
plans and sections	290-296
base-stone	297
finds	299

Medieval gold ring found at Hart, Co. Durham	315
Gold ring found in Cambridge	316

## ACKNOWLEDGEMENTS

THE THANKS of the Society are due to the Department of the Environment for grants towards the cost of publication in this volume of the reports on excavations at Tyne-mouth, Throckley and Wallhouses and to the short sequel to the report published last year of excavation at West House, Coxhoe.

Publication of the substantial report on excavation of the 17th-century bastion in Newcastle has been made possible by generous support from the County of Tyne and Wear, from the City of Newcastle upon Tyne and from the Department of the Environment. Further the City of Newcastle has made a grant for the publication of the report on St. Mary's Well, Jesmond.

Newcastle University has made grants towards the cost of publication of the report on the excavation at Standrop Rigg and to part of the report on a new approach to church archaeology, the publication of another section of which has been assisted by a grant from the Durham University Publications Board.

The Society extends to all these bodies its warm thanks for their support.

For his part the Editor records his debt and thanks to Professor R. N. Bailey for his assistance in general and for the compilation of the index in particular.

## EDITORIAL NOTE

For the guidance of authors the following regulations have been made:

1. All papers submitted for consideration must be clearly typed, double-spaced on quarto (or A4) pages, with all references filled in ready for printing, subject only to correction of printer's errors.
2. These papers, if accepted, must be in the hands of the Editor at Albany House, West Blandford Street, Newcastle upon Tyne, NE1 4HZ, by the second Tuesday in January each year, otherwise they cannot be included in that year's volume.
3. If more papers are accepted than can be printed in any one year, the Editor will decide as to which shall have priority.
4. Authors receive twenty-five free copies of their papers. More copies can be had at cost price if ordered at proof stage.
5. Line illustrations will normally be reproduced in the text as *figures*. Line drawings should be no larger than 85 × 60 cm and preferably of such a proportion as will reduce to a finished size within the limits of 140 × 185 mm.
6. Owing to the process now adopted for printing *A.A.* the lines of illustrations should be drawn more firmly than formerly and stipples should be relatively coarse.
7. Authors are reminded that alterations at proof stage are prohibitively expensive, so the text as submitted should be final.
