2. Local government divisions and names. The index uses the historical ('traditional') counties and boroughs (i.e. large towns) of Great Britain, within the boundaries they had about 1960. 'Newcastle', 'Berwick' and 'Stockton' mean 'Newcastle upon Tyne', 'Berwick-upon-Tweed' and 'Stockton-on-Tees'.

3. Many headings (mostly objects and materials, e.g. Pottery, Leather, etc.) are subdivided into the following chronological periods:

1: Prehistoric (Preh)	
2: Roman period (Rm)	(see note 4, below)
3: Anglo-Saxon period (AS)	(c. 1500–1100)
4: Medieval (Med)	(c. 1100–1500)
5: PM (PM)	(c. 1500 onwards)
6: Uncertain date	

4. Under the headings for most materials (e.g. iron, lead, etc.) there is a subheading for Roman period finds. Most of the entries under this subheading are for finds from Roman (i.e. not native) sites or contexts.
