

| | | |
|----------------|---------------------|--|
| | | Note other abbreviations (eg. BT, HTC, Li) are measurements after Von den Driesch, A., 1976. <i>A Guide to the Measurement of Animal Bones from Archaeological Sites</i> . Peabody Museum Bulletins, Harvard University. |
| Type | Abbreviation | Definition |
| Species | B | <i>Bos</i> (Bovine) Cattle |
| | Oc | sheep/goat |
| | S/Sus | pig |
| | Eq | (<i>Equus</i>) Horse |
| | Ans tibiotarsus | Anas Platyrhynchos (duck) bone |
| | Aves | <i>Aves</i> Bird |
| | Caf | <i>Canis familiaris</i> (dog) |
| | DomFowl | Domesticated Fowl |
| | Fec | <i>Felis catus</i> (cat) |
| | <i>Cervus</i> | Deer |
| | Oc | <i>Ovicaprid</i> Sheep/goat |
| | <i>Pieces</i> | Fish |
| Element | sk | skull |
| | hc | horn core |
| | mand | mandible |
| | max | maxilla |
| | inc | incisor |
| | dp4 | deciduous 4th premolar |
| | p4 | 4th premolar |
| | m1 | 1st molar |
| | m2 | 2nd molar |
| | m3 | 3rd molar |
| | CauVert | Caudial vertebrae |
| | Cora | Coracoid |
| | cmc | carpometacarpus |
| | cvert | cervical vertebra |
| | dcC=D | Refers to tooth ware. Formula is tooth ware phase = mandible wear phase. |
| | jbC-C | Refers to tooth ware. Formula is tooth ware phase = mandible wear phase. |
| | tvert | thoracic vertebra |
| | lvert | lumbar vertebra |
| | vert | vertebrae |
| | scap | scapula |
| | hum | humerus |
| | rad | radius |
| | ul | ulna |
| | mc | metacarpal |
| | sac | sacrum |
| | pat | patella |
| | pel | pelvis |
| | fem | femur |

| Type | Abbreviation | Definition |
|--------------------------|--------------|--|
| | tib | tibia |
| | mt | metatarsal |
| | mp | metapodial |
| | Mtps | Metapodials |
| | Tmt | Tarsometatarsus |
| | tt | tibiotarsus |
| | ast | astragalus |
| | cal | calcaneus |
| | phal | phalanx |
| | phal 1 | 1st phalanx |
| | phal 3 | 3rd phalanx |
| | lb | long bone |
| | Lb shaft | long bone shaft |
| | os | bone |
| Position | L | left |
| | rad | right |
| | U | upper |
| | dist | distal |
| | prox | proximal |
| | Lm | Lower middle |
| | Epiphysis | The end part of a long bone |
| Epiphyseal fusion | UF | unfused |
| | F | fused |
| Misc | frag | fragment |
| | pres | preservation |
| | cond | condition |
| | unid | unidentifiable |
| | Indet | Indeterminate |
| | sh | shaft |
| | comp | complete |
| | art | articulation |
| | Re | remnant |
| | spavin | sign of oseoarthritis/ final phase of degenerative joint disease |
| | mni | Minimum Number of Individuals |
| | Ad | Adult |
