

Appendix C. Units Log

Charalambos Paraskeva

Appendix C was compiled with the aim of providing a summary description of stratigraphic relations between the 1487 Units excavated at the Souskiou *Laona* settlement and cemetery complex in 1992 and between 2001 and 2011. The relations established are based principally on the written account and notes of Edgar Peltenburg, which has been further augmented, amended, clarified, and complemented on the basis of site sections and plans, trenches Harris matrixes and archival unit sheets in Cyprus and Edinburgh. As expected, during this process, certain errors, omissions and incompatibilities were noticed, and where possible corrected. The following table functions as a guide to the content and abbreviations used in Appendix C.

Column	Explanation
Unit	Unit number in sequential order. Duplicate units are indicated in notes in the Description column. The following units were not used during excavation: 59, 100, 238-300, 334, 340, 382, 476-477, 530, 825-826, 881-889, 958, 970, 1190-1192. The following units did not have a record sheet and were not located on site plans/sections or Harris matrixes, hence have been removed: 99, 799, 817.
PUG	Part of Unit Group, as designated by Charalambos Paraskeva (see Chap. 2).
PB/F	Part of Building or Feature, as designated by Edgar Peltenburg (see Chap. 6). It is noted that not all units grouped under feature or building numbers are labelled as such in Chap. 6, nor do the chapter descriptions of buildings/features include all numbers designated as belonging to them here.
PT	Part of Tomb, as designated by Lindy Crewe (see Chap. 8).
PO	Part of Other, namely a specific feature (e.g. pit, posthole, cut, etc.), but not of a building or tomb; used mostly for fills.
Class	Class code assigned to unit during excavation (see below).
Class Description	Class description based on class code assigned during excavation, correspondence as follows: <ol style="list-style-type: none"> 1 General 2 Surface (Unpaved) 3 Floor (Paved) 4 Basin 5 Building 6 Entrance 7 Hearth 8 Tomb 9 Posthole

Column	Explanation
	10 Pit
	11 Wall
	12 Plaster/Paving
	13 Stone Setting
	14 Looters' Spoil
	15 Channel/Groove
	16 Miscellaneous
	17 Fill
	18 Potspread
	19 Occupation Deposit
	20 Slopewash
	21 Cut
	22 Looters' Cut
	23 Capstone
	24 Capstone Cut
	25 Rock-cut Scoop
	26 Fireplace
	27 Foundation Trench/Cut
	28 Stakescape
Period	Relative dating of unit contents and/or context, as follows: <ol style="list-style-type: none"> I Middle Chalcolithic (3370-3330 /3330-3310 BC to 3100-3080 BC). I/II Middle Chalcolithic (3120-3090 BC to 2925-2880 BC). II Middle to Late Chalcolithic (2880-2850 BC to 2700-2675 BC). III Bronze Age. IV Iron Age (not attested at Souskiou <i>Laona</i>). V Late Classical-Early Byzantine. VI Medieval-Ottoman. Mod Modern.
Operation	Operation where the unit is located, as follows: <ol style="list-style-type: none"> A About 250m² excavation on flat shoulder between the E Ridge crest and Vathyrkakas stream at the 140m contour, max 90x35m. B About 100m² excavation at the 160m contour on crest of E Ridge and on N face. A/B Trial trenches on the slopes between A and B. C About 600 m² cemetery area and Period V occupation at the N end of E Ridge. D Trial trenches on the W Ridge (including the N face, W spur and S slope). E Trial trenches on saddle between E and W Ridges and slopes below Vathyrkakas River.
Trench	Trench within which the unit is located. For trench locations see Pl. 4.2 (settlement), and Pl. 32 (cemetery); OG = Off Grid, units that do not fall in the trench grid used at the cemetery.

Column	Explanation
Status	Relative metric for unit integrity based on its content in respect to the anticipated dating. For the abbreviations used see Table 2.6.
Description	Brief description of the units, focusing mostly on stratigraphic relations between units and/or their overarching unit groups. No abbreviations are used, save for the ones regarding chronological analysis and cardinal points, for which see page xvii.
Ordering	The Unit column holds both numerical and textual characters, hence sorting sequentially fails. This column can be used instead to sequentially sort the units, as it holds only numbers.
LATE	An indicator whether the unit contain post-Chalcolithic material.
First Excavated	Designation of the year the unit was excavated.

Table C.1: Explanation of column abbreviations and contents. Note that the question mark (?) character is used in all columns to denote uncertainty and/or unknowability.

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
0					1	General	I-II, III-Mod	A, A/B, B, D, E	All	C	Topsoil consisting mainly of wash deposits of varying depth throughout the site.	Yes	1992, 2005-2011
1					1	General	I	E	1a-d	M	General below 0.	No	1992
2					1	General	I-II	A	1/2	C	General below 0, over surface 22 of BU13.	Yes	1992
3					1	General	I?	A	2	C	General below 2, to the N and outside of wall 7 of building 13. Also, partly high fill of the interior of building 13, over fills 5 and 451.	Yes	1992
4					10	Pit	I-II?	E	1a-d	S	Pit cut into bedrock from general 1.	No	1992
5	BU13	13		13	17	Fill	I	A	1/2	C	Fill of building 13 under general 2, accumulated against the interior of wall 7.	Yes	1992
6					2	Surface (Unpaved)	I	E	1a-d	C	Maybe unpaved surface below general 1.	Yes	1992
7	BU13	13			11	Wall	I	A	1/2	S	Wall of building 13, short arc, partly slumped to the interior, mainly one course, below topsoil 80. Note: The foundation trench for wall 7 was not provided a separate number due to difficulties in defining its limits, but see fills 657, 684.	No	1992
8					1	General	I or II	A	2	?	Arbitrary sounding W of wall 7.	No	1992
9	FE9				11	Wall	I?, V-Mod	A	2/14/26	C	Extensive likely post-Chalcolithic wall defining the S limit of the Lower Terrace at the lip of the steep gorge slope, partly above BU1178 and BU1169, and adjacent to several features of the Lower Terrace.	Yes	1992
10	FE9				20	Slopewash	I?, V	A	2	C	Slopewash above wall 9 and slopewash 594, likely equivalent to slopewash 529 in trench 17, below topsoil 0.	Yes	1992
11	BU13	13			3	Floor (Paved)	I	A	1/2	S	Small intact floor area in the W half of building 13 against wall 7, below fill 5.	No	1992
12				4	17	Fill	I-II	E	1a-d	S	Fill of pit 4, below surface 6.	No	1992
13	BU13	13			5	Building	I	A	1/2	S	NW arc of curvilinear structure over FE808 features, partly below FE488 features, broadly contemporary with BU604.	No	1992
14					11	Wall	?	A/B	10	S	Drystone E-W terrace wall with a maximum height of 1m, composed of irregular small stones on larger basal course, crowned by large boulders, retaining the slopewash deposits of trench 10, such as topsoils 52/668 and slopewash 676, over slopewash 74.	No	1992
15					20	Slopewash	I-II?, V	A	4	C	Slopewash beneath topsoil 0, over fill 30 of FE30 and slopewash deposits 18 and 32, contemporary with general 39.	Yes	2005
16					20	Slopewash	I?	A	4	C	General hillwash close to topsoil 0, includes erosion materials from BU69 and BU604, over slopewash deposits 17-18 and general 31, cut by pit 75 of FE30, mixed with slopewash 29.	No	2005
17					20	Slopewash	I?, V	A	4	C	Wash at the NE corner, below slopewash deposits 16 and 29, over wall 488 of FE488.	Yes	2005
18					20	Slopewash	I?	A	4	C	Wash at the bottom section of trench 4, below slopewash deposits 15 and 16, over slopewash 32, cut by pit 75 of FE30.	No	2005
19	TR3/9				20	Slopewash	V?	A	3/9	C	Mid-grey hillwash deposit, equivalent to topsoil 0, over slopewash 23 and 24.	Yes	2005
20	BU34	34			1	General	II	B	5	C	Light grey-brown silty sand, over occupation deposits 33 and 45. Note: This relationship is for 2005, as in 2006-2007, unit 20 was also used for deposits over and beside BU648.	Yes	2005

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
21					1	General	Pre-II	B	5/6/7	Na?	Layer of compacted cobbles, over generals 26 and 92, below pit 495 to the N of BU34. Note: The same natural deposit was also found in the 2006-2007 excavation seasons below general 20, but on the exterior of BU34.	No	2005
22	BU13?				2/19	Surface (Unpaved)/Occupation Deposit	I	A	1/2	S	Exterior unpaved surface and/or occupation deposit below potspread 487, to the N and W of building 13, under general 2 and slopewash 686, partly over surface 79 in trench 4.	No	2005
23	TR3/9				20	Slopewash	V	A	3/9	C	Mid-grey hillwash deposit, over wall 35, under topsoil 19 and slopewash 24.	Yes	2005
24	TR3/9				20	Slopewash	V	A	3/9	C	Slopewash below topsoil 19 and above slopewash deposits 23 and 25.	Yes	2005
25	TR3/9				20	Slopewash	V	A	3/9	M	Compact slopewash below slopewash 24 and walls 50 and 35.	Yes	2005
26					1	General	Pre-II	B	7	Na	Fine gravel deposit, under general 21 to the N of BU34, and over general 90.	No	2005
27	TR34				20	Slopewash	I-II or V	E	34	C	Slopewash below 0, over slopewash 37.	Yes	2005
28	BU34	34			11	Wall	II	B	5/6/7	S	N arc of wall in foundation cut 44, surviving 2-3 courses, mainly tabular stones placed with trimmed faces on the interior and pebbled interstices, abuts most interior units of BU34, over plastery natural 790, within and partly below wall collapse 38, and just below topsoil 0.	No	2005
29					20	Slopewash	I?, V	A	4	C	Slopewash over slopewash 17 and general 31, mixed with slopewash 16, cut by pit 75 of FE30.	Yes	2005
30	FE30			75	13	Stone Setting	I	A	4	S	Stone setting, likely related to and filling pit 75, c.30cm above and to the SW of the presumed entrances for BU69 and/or BU604, below slopewash 15.	No	2005
31					1	General	I	A	4	C?	General layer under slopewash deposits 16 and 31, maybe BU69 was cut into it, but associations are not definite.	No	2005
32					20	Slopewash	I, V	A	4	C	Subsoil in the S of trench 4, below slopewash deposits 15 and 18, cut by pit 75 of FE30.	Yes	2005
33	BU34	34.2			1	General	II	B	5/6/7	C	Occupation deposit on floor 66 and its associated features, somewhat higher than occupation deposit 45, but still mixed with it and wall collapse material 38.	Yes	2005
34	BU34	34			5	Building	II	B	5/6/7	S	Northern half of a curvilinear structure, the most westerly of two partially surviving, contiguous structures in Op. B, contemporary with BU648.	No	2005
35	TR3/9				11	Wall	V	A	3	S	Linear disturbed wall, 1.5m E-W length, single inner course of transverse blocks, likely equivalent with all 50; below slopewash 23 and above slopewash 25.	Yes	2005
36	BU34	34.2		71	18	Potspread	II	B	5/7	S	Pot spread on floor 66 and over fill 72 and pit 71, below wall tumble 38 and occupation deposits 33 and 45.	No	2005
37	TR34				20	Slopewash	I-II?	E	34	C	Whitish gravelly/limestone layer, beneath slopewash 27, over slopewash deposits 46 and 47.	No	2005
38	BU34	34			1	General	II	B	5/6/7	S?	Layer of rubble from and at the interior of wall 28, representing likely wall collapse, over floor 66 and its associated features and mixed with occupation deposits 33 and 45.	No	2005
39					1	General	I, V	A	4	C	General equivalent to topsoil 0, contemporary with slopewash 15.	Yes	2005
40					20	Slopewash	I, II?, V	A	4	C	Slopewash and stones below general 39.	Yes	2005

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
41		69			1	General	I, II?, V	A	8	C	Topsoil over slopewash deposits 53 and 55 of BU69, over slopewash 77, equivalent to topsoil 0.	Yes	2005
42	BU69	69			16	Miscellaneous	I	A	8	S	Linear cache against the W side of the interior of building 69 on floor 82, below occupation deposits 81, 470 and 473.	No	2005
43					1	General	Pre-II	B	5/7	Na	Compact layer of conglomerate stone W of BU34, over general 504 and below generals 90 and 92.	No	2005
44	BU34	34			27	Foundation Trench/Cut	II	B	5/6/7	S	Foundation cut for wall 28, over and slighthed by pit 732, likely contemporary with pit 495, over general 21.	No	2005
45	BU34	34.2			1	General	II	B	5/6/7	S?	Occupation deposit on floor 66 and its associated features, affected by root action in the S of the building, mixed with material from occupation deposit 33 and wall tumble 38.	No	2005
46	TR34				20	Slopewash	I-II?	E	34	M?	Stoney slopewash, beneath slopewash 37, abutting slopewash 46.	No	2005
47	TR34				20	Slopewash	I-II?	E	34	M?	Stone tumble, beneath slopewash 37, abutting slopewash 46.	No	2005
48	TR34				20	Slopewash	I-II	E	34	M?	Gravelly, perhaps natural layer, beneath slopewash 47, over soil deposit 48.	No	2005
49					5	Building	VI-Mod	B		S	Drystone, rectilinear pen/shooting butt, 40m S of Op. B in trench 7.	Yes	2005
50	TR3/9				11	Wall	?	A	9	M	Trace of E-W wall, likely equivalent with wall 35, above slopewash 25 and stone spread 51.	No	2005
51	TR3/9				16	Miscellaneous	?	A	9	M	Stone spread to the N of and likely below wall 50, maybe remnants of another wall.	No	2005
52					20	Slopewash	II?, V	A/B	10	C	Slopewash equivalent to topsoil 0 and slopewash 668, over slopewash 676, likely retained by boulders 14.	Yes	2005
53	BU69			69	20	Slopewash	I?	A	8	M	Subsoil wash inside building 69, over fills 64 and 76, equivalent to slopewash 55, below topsoil 41.	No	2005
54	BU69	69		65	16	Miscellaneous	I	A	8	S	Stone tool cache against E wall of building 69 in cut 65, below occupation deposits 81, 470 and 473.	No	2005
55	BU69	69		69	20	Slopewash	I	A	8	M	Subsoil wash inside building 69, over fills 64 and 76, equivalent to slopewash 53, below topsoil 41.	No	2005
56	BU69	69			11	Wall	I	A	8	S	N arc of a wall surviving for a maximum of 4 courses of irrregular blocks with a flat basal course, partly overlying bench 667 of BU604 and partly fill 579 of its basal cut 547; contemporary with and over stony bands 68, 78 and 534, abutting floor 82 and BU69 associated interior features and fills (see units 64, 76, 81, 470, 473, 485 for details), below slopewash deposits 53 and 55.	No	2005
57	BU34	34.1		495	17	Fill	II	B	6	S	Ashy fill of pit 495, below floor 87 and floor packing 88.	No	2005
58	TR34				1	General	I	E	34	C	Brown soil deposit beneath slopewash 48, over slopewash 70. Note: The unit was investigated in the S part of the trench only.	Yes	2005
60	FE60	60			11	Wall	I-I/II?	A/B	10	S	Drystone E-W terrace wall, surviving at a maximum height of 3 courses, formed with uniform blocks placed transversely, below wall tumble 693, crumble deposit 710 and slopewash 61; cutting through and truncating wall 698 of FE698, over slopewash deposits 74/83, and foundation trench 764, likely adjacent to most slopewash and general deposits in trench 10 above FE698.	No	2005
61					20	Slopewash	I?, V	A/B	10	C	Compact slopewash beneath slopewash 676, partly over wall 60 of FE60.	Yes	2005
62	BU604	604		63	17	Fill	I	A	8	C	Fill of foundation trench 63, below packing deposits 566 and 832, and rubble fill 856, likely below or equivalent to fill 891.	Yes	2005

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
63	BU604	604		27	Foundation Trench/Cut	I	A	8	S		Northern foundation trench for wall 540 of building 604, partly cutting slopewash 503 and natural below it, situated below packing deposits 566 and 832, and rubble fill 856.	No	2005
64	BU69	69		69	17	Fill	I	A	8	C	Silt filling building 69, features flat lying sherds that may indicate it still contains in part occupation deposit material, likely equivalent to fill 64, over occupation deposits 81, 470 and 473, below slopewash deposits 53 and 55.	Yes	2005
65	BU69	69		21	Cut	I?	A	8	?		Cut into floor 82 for cache 54, below occupation deposits 81, 470 and 473.	No	2005
66	BU34	34.2		3	Floor (Paved)	II	B	5/6/7	S		Compact white floor, throughout(?) the building, over occupation deposit 86, below occupation deposits 33 and 45, and below mixed wall collapse material 38, associated with several features (see units 36, 71, 73 and 492 for details).	No	2005
67	BU34	34.2	36	17	Fill	II	B	5/7	S		Possible fill of one or more pots in potspread 36, below wall tumble 38 and occupation deposits 33 and 45.	No	2005
68	BU69	69		16	Miscellaneous	I	A	8	C		Stoney band against the exterior of wall 56, equivalent to stoney bands 78 and 534, all suggesting the limits of its foundation trench 547, over surface patch 502, and below slopewash deposits 53 and 55.	No	2005
69	BU69	69		5	Building	I	A	8	S		Large part of curvilinear structure built into the derelict shell of BU604 in the Upper Terrace, broadly contemporary with FE488, and below FE505 and FE30.	No	2005
70	TR34			20	Slopewash	I-II	E	34	M		Ashy layer on the N and on slopewash 489, beneath slopewash 58.	No	2005
71	BU34	34.2		10	Pit	II	B	5/7	S		Pit cut in floor 66, at the same general area as pit 84 further down, hence either re-cut or coincidence, below wall tumble 38 and occupation deposits 33 and 45.	No	2005
72	BU34	34.2	71	17	Fill	II	B	5/6/7	S		Fill of pit 71, below potspread 36.	No	2005
73	BU34	34.2		18	Potspread	II	B	6	S		Pot spread on floor 66 at the E side of the building, below wall tumble 38 and occupation deposits 33 and 45.	No	2005
74				20	Slopewash	I?, V	A/B	10	C		Compact slopewash to the S of the base of wall 60 of FE60, and above stone wall 14 at the base of the trench, likely partly contemporary with topsoils 52 and 668.	Yes	2005
75	FE30			10	Pit	I	A	4	S		Cut of pit from topsoil 0, also cutting units 16, 18, 29 and 32.	No	2005
76	BU69	69		69	17	Fill	I	A	8	S	Silt layer at the W section of building 69, likely equivalent to fill 64, over occupation deposits 81, 470 and 473, below slopewash deposits 53 and 55.	No	2005
77				20	Slopewash	I?	A	8	M		General layer at the E side of trench 8, over natural, below general 41.	No	2005
78	BU69	69		16	Miscellaneous	I	A	8	C		Stoney band against the exterior of wall 56, equivalent to stoney bands 68 and 534, all suggesting the limits of its foundation trench 547, likely over and perhaps slighting wall 540 and/or foundation trench 63 of BU604, and below slopewash deposits 53 and 55.	No	2005
79				2	Surface (Unpaved)	I	A	4	C		Redeposited material below general 471, likely natural, partly over deposit 22 in trench 2.	No	2005
80				1	General	I?	A	2	C		Topsoil in the trench 2 baulk, equivalent to topsoil 0, over wall 7 and slopewash deposits 450-451 of BU13.	Yes	2005

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
81	BU69	69		69	19	Occupation Deposit	I	A	8	S	Occupation deposit with tumbled wall stones on floor 82, equivalent to occupation deposits 470 and 473, likely mixed with wall tumble 485, below fills 64 and 76.	No	2005
82	BU69	69			12	Plaster/Paving	I	A	8	C	Multiply plastered floor of building 69, over packing material 522, associated with numerous features (see units 42, 54, 65, 464-468, 486, 514-515, 520, 525-527, 532 for details), below occupation deposits 81, 470, and 473, as well as below wall tumble 485.	Yes	2005
83					20	Slopewash	I, V	A/B	10	M	Compact silt on bedrock below wall 60.	Yes	2005
84	BU34	34.1			10	Pit	II	B	5/7	S	Pit cut into floor 87 and the S edge of depression 494, below later pit 71, sealed by potspread 97 and occupation deposit 86.	No	2005
85	BU34	34.1		84	17	Fill	II	B	5/7	S	Fill of pit 84, below occupation deposit 86 and potspread 97.	No	2005
86	BU34	34.1			19	Occupation Deposit	II	B	5/6/7	S	Occupation deposit on floor 87, sealing all features associated with it, below floor 66.	No	2005
87	BU34	34.1			3	Floor (Paved)	II	B	5/6/7	C	Floor laid on packing 88 covering most of the surviving structure, below occupation deposit 86, and associated with several features (see units 84, 95, 97, 492, 493, 494, 507, 574, 576, 592, 616, 632, 639, 649, 650, 652, 783, 785, 788, 789, 801 for details).	Yes	2005
88	BU34	34			1/2/3	General/Surface (Unpaved)/Floor (Paved)	II	B	5/6/7	S	Pebbles and silt floor packing for floor 87, over fills 57 and 731 and over general 21, below floor 87 and its features.	No	2005
89	BU34	34		44	17	Fill	II	B	5/6/7	S	Fill of foundation cut 44, over and slighthed by pit 732, likely contemporary with pit 495, over general 21, below wall 28.	No	2005
90					1	General	Pre-II	B	5/7	Na	Lower level of natural cobbles W of BU34, below general 26 and over general 43.	No	2005
91					1	General	Pre-II	B	5/6/7	C	Lowest level of rooted cobbles/gravel mainly E of BU34, below general 93.	No	2005
92					1	General	Pre-II	B	5/6/7	C/Na	Layer of compact small gravel and silt on the exterior of BU34, below general 21 and over general 43.	No	2005
93					1	General	Pre-II	B	5/6/7	C/Na	Loose gravel layer located to the S of wall 28 of BU34, over general 91 and below general 94.	No	2005
94					1	General	Pre-II	B	5/7	Na	Lower ridge of conglomerate stone W of BU34, over general 93 and below general 504.	No	2005
95	BU34	34.1			10	Pit	II	B	6	S	Pit cut into floor 87, containing mortar SL1187, below occupation deposit 86.	No	2005
96	BU34	34.1		95	17	Fill	II	B	6	S	Fill of pit 95, below occupation deposit 86.	No	2005

446					16	Miscellaneous	I or I/II	C	F10	S	Shallow pit cut into bedrock 350, filled by topsoil 308.	No	2001-2005

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
447					16	Miscellaneous	?	C	F8-9/G8-9	S	Worked/flattened open tombless area of 350.	No	2001-2005
448					16	Miscellaneous	?	C	F8-9/G8-9	Na	Open tombless area of 350.	No	2001-2005
449					25	Rock-cut Scoop	I or I/II	C	E9	S	Shallow pit cut into bedrock 350.	No	2001-2005
450					16	Miscellaneous	I or I/II	C	F7	S	Shallow cut in bedrock 350. Note: Unit number was reused for a general deposit at Op. A, see below.	No	2001-2005
450	BU13?				1	General	I	A	1/2	S?	Below general 80, against wall 7 of building 13, likely contemporary with surface 22 and miscellaneous 501. Note: Unit number was reused for a shallow cut at Op. C, see above.	No	2005
451	BU13?				1	General	I	A	1/2	C	Below general 80, against wall 7 of building 13 on the interior, slightly higher than fill 5.	Yes	2005
452					20	Slopewash	I or II	A	12	C	Mid grey slopewash, below topsoil 0, over surfaces 453 and 456, and over general 478, equivalent to slopewash 454 and 460.	No	2005
453					2	Surface (Unpaved)	I	A	12	M	Compact stony external surface, over soil deposit 479 and several FE653 features (see units 480, 481, 482, 483, 499, 500, 509, 510, 690, 695, 696, 697 for details), below slopewash 452.	No	2005
454					20	Slopewash	I	A	11	C	Greyish slopewash, beneath topsoil 0, equivalent to slopewash 460 and 452.	No	2005
455	FE653	455			2	Surface (Unpaved)	I	A	12	M	Compact external surface below stony surface 453, likely equivalent to surface 461.	No	2005
456					2	Surface (Unpaved)	I or II, V	A	12	C?	Compact external surface over surface 453, below general 478 and surface 662, cut by pit 681.	Yes	2005
457					20	Slopewash	I-II	A	11	C	Compact grey/white wash, similar in consistency to 455, but eroded, below slopewash 454 and 460, over slopewash 474.	No	2005
458					10	Pit	?	A	11	M	Pit cut into slopewash 454 and 460, possibly natural.	No	2005
459				458	17	Fill	I	A	11	C	Fill of pit 458, below slopewash 454 and 460.	Yes	2005
460					20	Slopewash	I/II?	A	11	C	Brown slopewash deposit on S end of trench, below topsoil 0, equivalent to slopewash 454 and 452.	No	2005
461	FE653	653			2	Surface (Unpaved)	I	A	12	S	Hard, compact, grey surface, partly on bedrock, partly below surface 455 and stony surface 453, likely equivalent to surface 455, over stony area 671, sealing most features of FE629 below.	No	2005
462					20	Slopewash	I-II	A	11	M	Compact stone/sherd deposit within slopewash 457.	No	2005
463	BU34	34.2		20	16	Miscellaneous	II	B	6	?	Cache of ground stone tools found within general 20 during baulk removal.	No	2005
464	BU69	69			16	Miscellaneous	I	A	8	S	Cache of stone tools on floor against N wall 56 on floor 82, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2005
465	BU69	69			16	Miscellaneous	I	A	8	S	Cache of stone tools on floor against N wall 56, on floor 82 W of cache 464, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2005
466	BU69	69			16	Miscellaneous	I	A	8	S	Cache of stone tools on floor against N wall 56, on floor 82 W of 465, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2005
467	BU69	69			16	Miscellaneous	I	A	8	S	Dispersed group of stone tools on N part of floor 82, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2005
468	BU69	69			7	Hearth	I	A	8	S	Badly damaged hearth, just off centre on floor 82, below occupation deposits 81, 470 and 473.	No	2005

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
469	BU69	69		12	Plaster/Paving	I	A	8	S		Yellow/white render on wall 56, abutting floor 82 and its associated features, below occupation deposits 81, 470 and 473.	No	2005
470	BU69	69	69	19	Occupation Deposit	I	A	8	S		Upper fill of the W side of building 69, equivalent to occupation deposits 81 and 473, likely mixed with wall tumble 485, below fills 64 and 76.	No	2005
471	BU13?			1/20	General/Slopewash	I?	A	4	M		General and hillwash material in the S area of trench 4, likely contemporary with surface 22, fill 657 and surface 79, below slopewash 32.	No	2005
472	BU13	13	13	17	Fill	I	A	1/2	M		Lower fill inside building 13, mainly found in the baulk, below fill 5, equivalent to fill 746, above fill 709.	No	2005
473	BU69	69	69	19	Occupation Deposit	I	A	8	S		Fill between occupation deposit 470 and wall tumble 485, also equivalent to occupation deposit 81, likely mixed with wall tumble 485, below fills 64 and 76.	No	2005
474				20	Slopewash	I-I/II	A	11	M		Brown soft deposit beneath slopewash 457 and over surface 518.	No	2005
475	TR13			20	Slopewash	I or V?	A	13	C		Subsoil layer over 491, below topsoil 0.	Yes	2005
478				1	General	?	A	12	M		Brown soft deposit beneath slopewash deposits 452 and 663, and over surfaces 456 and 662/678.	No	2005
479	FE653?	455		16	Miscellaneous	I	A	12/22	M		Soil deposit in surface 461, maybe surface make up, partly below deposit 664.	No	2005
480	FE653?	455		9	Posthole	I	A	12	S		Posthole cut into 455, below surface 453, likely contemporary with and outside of FE653.	No	2005
481	FE653?	455	480	17	Fill	I	A	12	S		Soft brown fill of posthole 480, below surface 453.	No	2005
482	FE653?	455		9	Posthole	I	A	12	S		Posthole cut into 455, below surface 453, likely contemporary with and outside of FE653.	No	2005
483	FE653?	455	482	17	Fill	I	A	12	S		Soft brown, angular stones fill of posthole 482, below surface 453.	No	2005
484	FE653?			28	Stakescape	I	A	12	S		Stakescape cut into surface 453, below surface 456, likely contemporary with and outside of FE653.	No	2005
485	BU69	69	69	16/19	Miscellaneous/Occupation Deposit	I	A	8	S		Wall 56 collapse material on the interior at the NW of floor 82, likely mixed with and partly over occupation deposits 81, 470, and 473, below slopewash deposits 53 and 55. Also, it seals cache 486.	No	2005
486	BU69	69		16/19	Miscellaneous/Occupation Deposit	I	A	8	S		Occupation deposit containing stone tools cache, sealed by collapse 485 in the NW of building 69 on floor 82.	No	2005
487	BU13?			18	Potspread	I	A	1/2	S		Potspread over surface 22, both possibly contemporary or earlier than building 13.	No	2005
488	FE488	488		11	Wall	I or V?	A	4/23	M		Stone wall built diagonally across Op. A, with partly intact single course facing stones, over cut 831 and slopewash 689, below wall tumble 625 and abutting and below slopewash deposits 17, 512, 624 and 688. As a feature it is situated partly below BU800, partly above FE880, tentatively borders FE830, and is broadly contemporary with BU69.	Yes	2005
489	TR34			20	Slopewash	I-II?	E	34	M?		Stone wash, beneath slopewash 70.	No	2005
490	TR34			11	Wall	I-II?	E	34	S		E-W potentially terrace wall on topsoil 0, surviving for a max of 2 courses high, consisting of weathered slabs, 50-90 cm wide.	No	2005
491	TR13			20	Slopewash	I or V?	A	13	C		Slopewash layer below slopewash 475, over wall 497.	Yes	2005

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
492	BU34	34		12	Plaster/Paving		II	B	6	S	Compact white lime deposit (probably degraded wall plaster) against the interior of wall 28, abutting both floors 87 and 66 and any associated deposits, below wall tumble 38 and occupation deposits 33 and 45.	No	2005
493	BU34	34.1		18	Potspread		II	B	6	S	Potspread beside mortar SL1187 on floor 87, below occupation deposit 86.	No	2005
494	BU34	34.1		19	Occupation Deposit		II	B	6	S	Dark ashy deposit in a depression, where floor 87 is difficult to trace, it may include floor packing 88 material, below occupation deposit 86 and multiply associated with features 84, 97, 507, 632, 639, 789 for which see unit numbers for details.	No	2005
495	BU34	34.1		10	Pit		II	B	6	S	Pit cutting natural deposits below floor 87 and floor packing 88, likely contemporary with foundation trench 44, over general 21.	No	2005

500	FE653?	455		499	17	Fill	I	A	12	S	Soft light brown fill of posthole 499, below surface 453.	No	2005
501	BU13?			16	Miscellaneous		I	A	1/2	M?	Plaster and stones against building 13 in the baulk, partly contemporary with surface 22 and slopewash 457.	No	2005
502	BU69?			2	Surface (Unpaved)		I	A	8	S	Small external, eroded patch roughly contemporary with BU69, as it underlies stony band 68, and seems to overlie BU604 deposits.	No	2005
503				16	Miscellaneous		I?	A	8/23	M/Na	Slopewash on natural, mainly soil with few sherds, cut by foundation trench 63 of BU604, hence below BU604 deposits. It also is partly below slopewash 686 of FE488.	No	2005
504				1	General		Pre-II	B	7	Na	Natural deposit of loose gravels, over general 94 and below general 43.	No	2005
505	FE505			567	16	Miscellaneous	I	A	11	M	Stone spread over ash spread 564 and in pit 567, deposits found in an area close to BU604 and possibly BU69, but also partly over and close to FE653/FE629.	No	2006
506				20	Slopewash		I?, V	A	14	C	Slopewash beneath topsoil 0, over slopewash 512 and surface 517, partly mixed with slopewash deposits 558/559 to the W.	Yes	2006
507	BU34	34.1		494	4	Basin	II	B	5/7	S	White lined oval plaster basin within depression 494, below occupation deposit 86.	No	2006
508	BU34	34.1		507	17	Fill	II	B	5/7	S	Fill of basin 507, below occupation deposit 86.	No	2006
509	FE653?	455		28	Stakescape		I	A	12	S	Stakescape cut into 455, below surface 453, likely contemporary with and outside of FE653.	No	2006
510	FE653?	455		509	17	Fill	I	A	12	S	Fill of stakescape 509, below surface 453.	No	2006
511	FE9			20	Slopewash		I-II?, V	A	2/17	C	Slopewash including beach gravels on the E side of wall 9, equivalent to general 544 and slopewash 546, over general 548 and slopewash 605.	Yes	2006
512				20	Slopewash		I?, V	A	14	C	Stoney wash layer, below slopewash deposits 506, 558 and 559, likely equivalent with slopewash 624, and over slopewash deposits 513 and 781 of FE767, wall tumble 625 and wall 488 of FE488, and general 623.	Yes	2006

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
513				20	Slopewash		I, V	A	14	C	Extensive slopewash under slopewash deposits 512 and 517 and general 623, partly truncating slopewash deposits 628-a of Pre-BU838 and 628-b, over wall 9 of FE9, partly over wall 627 and surface 521.	Yes	2006
514	BU69	69		514	21/17 Cut/Fill		I	A	8	S	Depression with ashy deposit and bone beside hearth 468, cut into floor 82, below occupation deposits 81, 470 and 473. Note: Cut and fill have not been provided with separate numbers.	No	2006
515	BU69	69		515, 527?	21/17 Cut/Fill		I	A	8	S	Ashy depression in floor 82 beside hearth 468, maybe partly filling posthole 527, below occupation deposits 81, 470 and 473. Note: Cut and fill have not been provided with separate numbers.	No	2006
516	FE653?	653?		16	Miscellaneous		I	A	12	S	Area of burning on surface 461.	No	2006
517				2	Surface (Unpaved)		V	A	14	C	Level external area of little stones and pebbles, perhaps natural, over slopewash 513 and general 623, below slopewash 506.	Yes	2006
518				2	Surface (Unpaved)		I	A	11	M	Possible grey, friable, eroded external surface below slopewash 474, over slopewash 519, bedrock crumble 549 and stone spread 505, also cut by pit 567 of FE505.	No	2006
519				20	Slopewash		I	A	11	M	Surface layer S of and below surface 518, maybe eroded from it, likely contemporary with surface 461, partly below crumbled bedrock 549.	No	2006
520	BU69	69		16	Miscellaneous		I	A	8	S	Cache of stone tools cut from floor 82 and into wall tumble 528 of BU604, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2006
521	FE9			2/16	Surface (Unpaved)/Miscellaneous		I-II?, V	A	14	C	Stoney slopewash over slopewash 628-b, between wall 9 and wall 627 of BU796, partly over over wall 9, above slopewash 531, part of a set with 531 and 543/545 at the base of slopewash 513, cut by foundation trench 919 of BU920, when unit extended in that direction.	Yes	2006
522	BU69	69		16	Miscellaneous		I	A	8	M	Floor packing for floor 82, over wall tumble 528 of BU604.	No	2006
523	TR15			13	Stone Setting		?	B	15	M	Intact stone setting in natural gravels below topsoil 0 in trench 15, c.16m W of BU34.	No	2006
524	BU796	796		1/16	General/Miscellaneous		I	A	14	M	Fill of possible mud wall collapse on floors 618/1041, under slopewash 628-a of Pre-BU838.	No	2006
525	BU69	69		13	Stone Setting		I	A	8	S	Stone setting for basin/re-used quern SL1274 cut into floor 82 and wall tumble 528 of BU604, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2006
526	BU69	69		10	Pit		I	A	8	S	Pit for stone setting 525, cut in floor 82, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2006
527	BU69	69		9?	Posthole?		I	A	8	S	Disturbed posthole cut in floor 82, partly filled by 515, below occupation deposits 81, 470 and 473.	No	2006
528	BU604	604		604	17 Fill		I	A	8	S	Wall tumble fill of building 604 features, over occupation fill 644, 645, 669, and immediately below floor packing 522 of BU69.	No	2006
529	FE9			20	Slopewash		I?, V	A	17	C	Layer on the top of wall 9, likely equivalent to slopewash 10, over slopewash deposits 511, 546 and 998, and general 544, partly over fill 552, below topsoil 0.	Yes	2006
531	FE9			20	Slopewash		I?	A	14	M	Brown soil under slopewash 521, , between wall 9 and wall 627 of BU796, over wall collapse material 524, part of a set with 521 and 543/545 at the base of slopewash 513.	Yes	2006

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
532	BU69	69		10	Pit		I	A	8	S	Lined pit or depression in floor 82 beside hearth 468, below occupation deposits 81, 470 and 473.	No	2006
533	BU69	69		532	17	Fill	I	A	8	S	Fill of pit 532, below occupation deposits 81, 470 and 473, and below wall tumble 485.	No	2006
534	BU69	69		16	Miscellaneous		I	A	8	S	Primary stoney band against the exterior of wall 56, equivalent to stoney bands 68 and 78, all suggesting the limits of its foundation trench 547, likely over wall tumble 528 of BU604 and/or other deposits of the latter and below slopewash deposits 53 and 55.	No	2006
535	FE653	653		15	Channel/Groove		I, V?	A	12/22	S	Gully cut into surfaces 461 and 455, below stony surface 453.	Yes	2006
536	FE629	629		10	Pit		I	A	12	S	Pit cut into bedrock and partially fireplace 541, under surface 461.	No	2006
537	FE629	629		536	17	Fill	I	A	12	S	Fill of pit 536, under surface 461 and fireplace 541.	No	2006
538	FE653	653		535	17	Fill	I	A	12	S	Fill of gully 535, below surfaces 461 and 455.	No	2006
539	FE629	629		2	Surface (Unpaved)		I	A	12	C	Unpaved surface inside and over depression 629, above fill 561 and partly over slopewash 624, below fireplace 541, partially fills the upper part of pit 560.	Yes	2006
540	BU604	604		11	Wall		I	A	8	S	Short N arc of a wall surviving at a maximum of 2 courses, above intermitent packing and wash deposits 566, 832 and 856, below wall tumble 890, later disturbed by BU69 features.	No	2006
541	FE629	629		26	Fireplace		I	A	12	S	Burnt area on bedrock below surfaces 461 and 455, partially cut by pit 536.	No	2006
542	FE9	9		1	General		I?	A	2	C	Collaspe of wall 9, likely below slopewash deposits 529 and 10.	No	2006
543	FE9			2	Surface (Unpaved)		?	A	17	C	Disturbed, compacted layer of stones and pebbles abutting the E face of wall 9, below slopewash 546, over slopewash 553, equivalent to surface 545, part of a set with 521 and 531 at the base of slopewash 513.	No	2006
544	FE9			1	General		?	A	17	C	Rubble abutting the E face of wall 9, equivalent to and between slopewash deposits 511 and 546, below slopewash 529.	No	2006
545	FE9			2	Surface (Unpaved)		?	A	14	M	Surface abutting the E face of wall 9, over slopewash 553, equivalent to surface 543, part of a set with 521 and 531 at the base of slopewash 513.	No	2006
546	FE9			20	Slopewash		I?, V	A	14	C	Slopewash against the E face of wall 9, below slopewash 529, equivalent to slopewash 511 and general 544, over surface 543.	Yes	2006
547	BU69	69		27	Foundation Trench/Cut		I	A	8	S	Basal cut for wall 56, likely overlying/cutting wall tumble 528 of BU604 and/or other deposits of the latter.	No	2006
548	FE9			1	General		V	A	17	M	Brown layer under slopewash deposits 511 and 553, partly beneath wall 9 and extending to its S, over slopewash 606.	Yes	2006
549				16	Miscellaneous		?	A	11	Na	Crumbled top of bedrock in NW of the trench, below surface 518, partly over slopewash 519.	No	2006
550	FE550	550		11	Wall		VI?	B	18/19	C	Disturbed linear boundary(?) wall of small stones over wall 602 of BU648, related to terrace cuts 704 and 757, with tumble 651, over topsoil 0.	Yes	2006
551	BU34	34.1		650	17	Fill	II	B	5/7	S	Ashy fill of pit 650, below occupation deposit 86.	No	2006
552				17	Fill		I?	A	2	?	Modern fill of old trench 2, abutting wall 9, over slopewash deposits 559 and 594, partly below slopewash 529 and partly below topsoil 0.	Yes	2006

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
553	FE9			20	Slopewash		?	A	17	C	Slopewash abutting the E face of wall 9, similar to slopewash deposits 511 and surface 543, below surface 543, over general 548 and slopewash 605.	No	2006
554				16	Miscellaneous		?	A	2	?	Snake nest from topsoil 80.	No	2006
555				554	17	Fill	I?	A	2	?	Fill of snake nest 554.	No	2006
556	FE629	629		560	17	Fill	I	A	12	S	Lower fill of pit 560, under surface 539.	No	2006
557	FE1166			20	Slopewash		I?	A	26?	?	Slopewash beside wall 9, containing general 595 and over surface 1166. Note: Unit erroneously ascribed to trench 12, but wall 9 is too far away for any association with trench 12. Also, unit appears only in Pl.7.1, abutting extensive deposit 1130/1135 of BU1149, namely lying to the E of BU1149 and to the W of wall 9, over surface 1166, hence their association.	No	2006
558				20	Slopewash		I, V	A	20/26	C	Slopewash below topsoil 0, over slopewash deposits 559 and 512, mixed with and/or abutting slopewash 506.	Yes	2006
559				20	Slopewash		I, V	A	20/26	C	Slopewash, below slopewash 558, over slopewash deposits 512 and 624, mixed with and/or abutting slopewash 506, partly over slopewash 626 of FE9.	Yes	2006
560	FE629	629		10	Pit		I	A	12	S	Pit cut into bedrock, under surface 461.	No	2006
561	FE629	629		16	Miscellaneous		I	A	12	S	General deposit under surface 539 and over pit 599.	No	2006
562	FE653?	653?		563	17	Fill	I	A	12	S	Fine brown-grey fill of posthole 563, below surface 461.	No	2006
563	FE653?	653?		9	Posthole		I	A	12	S	Posthole cut into bedrock, vertical sided, flat base, below surface 461 and likely associated with FE653.	No	2006
564	FE505	505?		567	16	Miscellaneous	I	A	11	M	Ash spread under stone spread 505, filling the base of pit 567.	No	2006
565	FE653	653		16	Miscellaneous		I	A	11	S	Stones and reddish soil arc that follow the edge of depression 629 and surface 539 of FE629 below.	No	2006
566	BU604?	604		20	Slopewash		I	A	8	?	Wash/packing for wall 540 in the W of trench 8, over foundation trench fills 62 and 891, below wall 540 and wall tumble 890. It is also partly over boulders in 852 and 900, and slopewash 901.	No	2006
567	FE505			10	Pit		I	A	11	S	Pit cut into bedrock from surface 518.	No	2006
568	FE653?	653?		568	17	Fill	I	A	12	S	Fine brown-grey fill of posthole 569, below surface 461.	No	2006
569	FE653?	653?		9	Posthole		I	A	12	S	Posthole cut into bedrock, vertical sided, flat base, below surface 461 and likely associated with FE653.	No	2006
570	FE653?	653?		570	17	Fill	I	A	12	S	Fine brown-grey fill of posthole 571, below surface 461.	No	2006
571	FE653?	653?		9	Posthole		I	A	12	S	Posthole cut into bedrock, slighted by gully 535, below surface 461 and likely associated with FE653.	No	2006
572	FE653	653		573	17	Fill	I	A	12	S	Fill of gully 573, below surfaces 461 and 455.	No	2006
573	FE653	653		15	Channel/Groove		I	A	12	S	Gully cut into bedrock and surfaces 461 and 455, below stony surface 453.	No	2006
574	BU34	34.1		616	13	Stone Setting	II	B	6	S	Stone packing for basin SL1279 at the edge of pit 616 in floor 87, below occupation deposit 86.	No	2006
575	BU34	34.1		574	17	Fill	II	B	6	S	Fill around stone packing 574, below occupation deposit 86.	No	2006
576	BU34	34.1		575, SL12 79	18	Potsread	II	B	6	S	Potsread within fill 575 and basin SL1279 of packing 574, below occupation deposit 86.	No	2006
577	FE629	629		578	17	Fill	I	A	11	S	Fine brown-grey fill of posthole 578, below surface 461 of FE653.	No	2006

618	BU796	796		3	Floor (Paved)	I	A	14	S		Floor equivalent to floor 618, over occupation deposits 622/1090, under slopewash 628-a of Pre-BU838 and partly under slopewash 545, over FE9, which also lies under several layers of slopewash (521, 513) beneath slopewash 927 of Pre-BU920, associated with features 619, 1040 and 1044 (see units for details).	No	2006
619	BU796	796		10	Pit	I	A	14	S		Pit with cut from floors 618/1041, under slopewash 628-a of Pre-BU838.	No	2006
620	BU796	796	619	17	Fill	I	A	14	S		Fill of pit 619 with tool cache SL1493-1508, under slopewash 628-a of Pre-BU838.	No	2006
621	FE9			20	Slopewash	?	A	21	C		Layer of yellowish slopewash from the front of wall 9, below slopewash deposits 610-611.	No	2006
622	BU796	796		19	Occupation Deposit	I	A	14	S		Brownish occupation deposit under floor 618/1041, over primary floor 1079.	No	2006
623				1	General	?	A	14	C		Brown layer below slopewash deposits 512 and 624, mostly over surface 902 and wall 1188 of BU838, over slopewash 513, over and/or mixed with surface 517, over and potentially equivalent to slopewash 781 and partly over deposit 767 of BU767.	No	2006
624				20	Slopewash	I, V	A	20	M		Extensive slopewash below slopewash deposits 559, 506 and partly 854, equivalent to slopewash 727 in trench 23 and slopewash 512 in trench 14, over slopewash 768, degraded bedrock 950, wall tumble 625 and wall 488 of FE488, wall 830 of FE830, slopewash 623, and slopewash 781 over BU767.	Yes	2006
625	FE488			16	Miscellaneous	I or V?	A	20/23/2 6	M		Wall tumble above wall 488, partly over slopewash 686 and wall 830 of FE830, and over potential occupation deposit 679, below slopewash deposits 512 and 624.	Yes	2006

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
626	FE9			2	Surface (Unpaved)	I?	A	2	M?		External, brownish surface with flat-lying sherds and little stones cut by wall 9, potentially natural, below slopewash deposits 559 and 594.	No	2006
627	BU796	796		11	Wall	I	A	14	S		Dislodged W and N arc of wall, over fill 1088, abutting floors 1079 and 618/1041, fills 622/1090 and 618/1041, and wall tumble 514/766, as well as deposit 1083 of Pre-BU796; below slopewash 628-a of Pre-BU838, cuts through deposit 1087 of Pre-BU796, fill 1031 and floor 1032 of BU1015, fill 994 and floor 1111 of BU897, and partly fill 1130/1135 of BU1149, partly below slopewash 513.	No	2006
628-a	Pre-BU838			20	Slopewash	I	A	21	C		Slopewash with plaster inclusions, over slopewash 1057, equivalent to deposit 930, and multiply associated with units in BU796 (524, 618-620, 627, 766, 1040-1041, 1044), FE767 (767), BU897 (797, 896, 1103), BU1015 (798, 918, 931-932, 1016, 1031), BU895 (869-870, 944, 954), BU897 or BU1015 (911, 1017), BU838 (902, 942) for which see numbers in parentheses for details. Note: Unit 628 was excavated between 2006 and 2009 with material kept separate for each year. In 2006-2008 excavation focused on the upper strata of trench 20, while in 2009 the deeper layers of 628 in trenches 14, 20 and 26 were explored. The 2009 material, which is stratigraphically deeper was separated from the rest of the deposit and associated with Pre-BU838 as unit 628-a, while the upper W part of 628 was associated with FE628 as unit 628-b.	Yes	2006
628-b	FE628			20	Slopewash	I-II	A	21	C		Extensive slopewash deposit mostly over BU1015/BU897 (see 1103), and adjacent, but post-dating features outside and to the E of BU838, below surface 521, slopewash 781, and partly below slopewash deposits 513 and 767, see also 628-a. Note: Unit 628 was excavated between 2006 and 2009 with material kept separate for each year. In 2006-2008 excavation focused on the upper strata of trench 20, while in 2009 the deeper layers of 628 in trenches 14, 20 and 26 were explored. The 2009 material, which is stratigraphically deeper was separated from the rest of the deposit and associated with Pre-BU838 as unit 628-a, while the upper W part of 628 was associated with FE628 as unit 628-b.	Yes	2006
629	FE629	629		5?	Building?	I	A	11/12	S		Major curvilinear depression for timbered activity hollow below FE653.	No	2006
630	BU604	604.1		16	Miscellaneous	I	A	8	S		Cut for depression 675 in bedrock for all floors of BU604, it also forms the inner edge of bench 667, below floors 791 and 818.	No	2006
631	BU604	604.2	726	7	Hearth	I	A	8	S		Final hearth in the centre sequence of floor 654, made of white plaster, below occupation deposit 644.	No	2006
632	BU34	34.1	639	16	Miscellaneous	II	B	5/7	S		Stone tool cache in pit 639, below occupation deposit 86.	No	2006
633	FE629	629	634	17	Fill	I	A	11	S		Fine brown-yellow fill of posthole 634, below surface 461 of FE653.	No	2006
634	FE629	629	9		Posthole	I	A	11	S		Posthole cut into bedrock at the base of depression 629, below surface 461 of FE653.	No	2006
635	FE629	629	636	17	Fill	I	A	11	S		Fine brown-grey fill of posthole 636, below surface 461 of FE653.	No	2006
636	FE629	629	9		Posthole	I	A	11	S		Posthole cut into bedrock at the base of depression 629, below surface 461 of FE653.	No	2006
637	FE629	629	638	17	Fill	I	A	11	S		Fine brown-grey fill of posthole 638, below surface 461 of FE653.	No	2006

848	BU850	850			19	Occupation Deposit	II	D	27	S	Occupation deposit on floor 946, mixed with fill material 847, below wall tumble and slopewash 844.	No	2008
849	BU850			865	17	Fill	II	D	27	M	Fill of foundation trench 865, below wall 845.	No	2008
850	BU850	850			5	Building	II	D	27	S	Northern arc of curvilinear structure to the E of and broadly contemporary with BU915.	No	2008
851					20	Slopewash	I?	A	4/8	M	Homogeneous sterile yellow wash under boulder alignment 852 and above bedrock and slopewash 855.	No	2008
852					16	Miscellaneous	?	A	4/8/23	S	Boulder alignment underpinning the terrace for BU604 and BU69. It is unknown whether it is natural or man-modified, but partly lies beneath packing deposits 566, 832 and 856, and is over slopewash 851, while it is also considered contemporary with boulders 900 and slopewash 901.	No	2008
853	FE880		853		10/8	Pit/Tomb	I	A	23	S	Pit tomb cutting rock-cut scoop 857.	No	2008
854					20	Slopewash	I, V	A	23/26	M	Slopewash over trenches 23 and 26, below slopewash 559, over slopewash 624.	Yes	2008
855					20	Slopewash	?	A	4/8	M	Pebble wash below slopewash 851, just above bedrock.	No	2008
856	BU604	604			16	Miscellaneous	I	A	8	S	Rubble foundation for wall 540, over foundation trench fills 62 and 891, below wall 540 and wall tumble 890. It is also partly over boulders in 852 and 900, and slopewash 901.	No	2008
857	FE880		853		25	Rock-cut Sccop	I?	A	23	S	Rock-cut scoop in the FE880 group with yellowish paving surrounding burnt stones 929, cut by tomb 853, over deposit 894.	No	2008
858	FE880		853		17	Fill	I	A	23	M	Ash over burial in tomb 853, below fill 839.	No	2008
859	FE880			879	17	Fill	I	A	26	M	Ash in rock-cut scoop 879 of the FE880 group.	No	2008
860	BU895?				18	Potsread	I	A	23/26	S	Potsread inside and next to the projecting upper part of the disused wall 896 of BU897 at the level of walls 868 and 1188 of BU895 and BU838 respectively, but closer to wall 868.	No	2008
861					20	Slopewash	I?	D	27	C	Slopewash north of BU915, likely over sterile deposit 904, behind collapsed wall 903, and below slopewash deposits 843 and 840.	No	2008
862	FE767?				20	Slopewash	I, V	A	14	C	Arbitrary layer below slopewash deposits 670/806, likely over slopewash 1043 of FE1043.	Yes	2008

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
863	BU850	850		12	Plaster/Paving		II	D	27	S	Smooth, whitish render on wall 845, minimum four layers surviving, over floor 946, abutting occupation deposit 848 and fill 847, covered by wall tumble and slopewash 844.	No	2008
864	BU915	915		915	17	Fill	II	D	27	M	Stony fill over occupation deposit 913, mixed with wall tumble 912, below slopewash deposits 840, 843 and 904.	No	2008
865	BU850	850		27	Foundation Trench/Cut		II	D	27	S	Foundation trench cut into bedrock 949 for wall 845.	No	2008
866	TR28	28	866	10/8?	Pit/Tomb?		I-I/II?	D	9.5 E of 28	S	Pit cut at the cliff edge, potential empty tomb, 9.5m E of SE corner of trench 28, visible from topsoil 0.	No	2008
867	TR28	28	867	10/8?	Pit/Tomb?		I-I/II?	D	28	S	Pit cut at cliff edge with possible capstone cut, maybe an empty tomb, visible from topsoil 0.	No	2008
868	BU895	895		11	Wall		I	A	26	S	Part of the W arc of a wall with the basal course only, over fill 945, lower, but not below wall 896 of BU897 that was protruding from the surface, likely re-used in wall 1188 of BU838 above.	No	2008
869	BU895	895		2	Surface (Unpaved)		I	A	26	S	Fragmented grey and friable floor surface, inside wall 868, over slopewash 628- a of Pre-BU838, cut by foundation trench 943 of BU838.	No	2008
870	BU895?	895?		2	Surface (Unpaved)		I	A	23/26	C	Possible grey surface adjacent to the exterior of wall 868, over slopewash 628- a of Pre-BU838 and possible surface 898, cut by foundation trench 943 of BU838.	Yes	2008
871	FE880			872	17	Fill	I	A	26	M	Ash in rock-cut scoop 872 of the FE880 group.	No	2008
872	FE880			25	Rock-cut Sccop		I	A	26	M	Rock-cut scoop in the FE880 group.	No	2008
873	FE830			20	Slopewash		I?	A	23	M?	Slopewash arcing around wall 830, suggesting a no longer surviving continuation of the latter, likely contemporary with wall 830, over surface 899, close to and likely contemporary with deposit 894 of FE880.	No	2008
874	FE880			25	Rock-cut Sccop		I	A	23	S	Rock-cut scoop in the FE880 group.	No	2008
875	FE880			876	17	Fill	I	A	23	S	Ash in rock-cut scoop 876 of the FE880 group.	No	2008
876	FE880			25	Rock-cut Sccop		I	A	23	S	Rock-cut scoop in the FE880 group.	No	2008
877	FE880			878	17	Fill	I	A	23	S	Ash in rock-cut scoop 878 of the FE880 group.	No	2008
878	FE880			25	Rock-cut Sccop		I	A	23	S	Rock-cut scoop in the FE880 group.	No	2008
879	FE880			25	Rock-cut Sccop		I	A	26	M	Rock-cut scoop in the FE880 group, below bedrock deposit 950.	No	2008
880	FE880			19	Occupation Deposit		I	A	23/26	M	Group number for rock-cut scoops usually associated with ash, most of them below slopewash 686 of FE488, some below deposit 950, hence FE880 is below FE488, and by extension considered broadly contemporary with FE830 and BU897.	No	2008
890	BU604	604		16	Miscellaneous		I	A	8	M	Rock tumble of wall 540 on the NW exterior of building 604, over wall 540 and packing/wash deposits 566, 832 and 856.	No	2008
891	BU604	604		63	17	Fill	I	A	8	M	Yellowish wash/fill of foundation trench 63, below packing deposits 566 and 832, and rubble fill 856, likely over or equivalent to fill 62.	No	2008
892	BU604	604		13	Stone Setting		I	A	8	S	Stone tool cache on bench 667, adjacent to wall 540, below wall tumble material 528.	No	2008
893	FE830			2	Surface (Unpaved)		I?	A	23	?	Firm yellow-white external surface W and below of wall 830, likely contemporary with or slightly post-dating fill 905.	No	2008
894	FE880		853	16	Miscellaneous		I	A	23	M	Deposit built up on bedrock at the base of rock-cut scoop 857, below fill 839, near tomb 853.	No	2008

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
895	BU895	895		5	Building		I	A	26	S	Small fragment of curvilinear structure in the Lower Terrace with complex biography, above Pre-BU838 and BU1015, lower than wall 896 of BU897 that was protruding from ground and stood higher than wall 868, but over and concentrically within the shell of BU897; and below BU838 that may have re-used material from this building.	No	2008
896	BU897	897 and 1015		11	Wall		I	A	20/23	S	W and N arc of a relatively narrow wall (mostly at c.30 cm wide), surviving up to 80cm high, over and abutting fill 1093, cutting and partly over midden 1038 of FE1073-Upper, which also undercuts the wall and is found in the interior of BU897; abutting on the interior floors 797/1111, occupation deposit and/or fills 1107, 994, 1054, and 1116, abutting on the exterior fills 1017, 1050 and 1108 of BU897 or BU1015, partly abutting and below slopewash 628-a of Pre-BU838, below deposits 767 of FE767 and 870 of BU895. Also, the wall was partly reused in BU1015.	No	2008
897	BU897	897		5	Building		I	A	23	S	About half of a curvilinear structure in the Lower Terrace with a highly complex life history, over FE1043, FE1102, FE1073-Upper and BU1149, below BU1015, Pre-BU838, BU838, Pre-BU796, BU796 and BU985, sharing some units with BU1015.	No	2008
898				16	Miscellaneous		I	A	23	C	Possible surface below surface 870 of BU895 and stone tumble 959, outside BU897.	No	2008
899	FE830			2	Surface (Unpaved)		I	A	23	M	Similar to surface 893, below tumble on the opposite side of wall 830, likely contemporary with or slightly post-dating fill 905.	No	2008
900				852	16	Miscellaneous	?	A	4	M	Stones S of boulder alignment 852, probably representing stones that slipped away from it; contemporary with slopewash 901.	No	2008
901	BU800?			20	Slopewash		I	A	4	M	Brown slopewash deposit south of 900 stones, overlying soil deposit 833 and fill 747. It is considered equivalent with slopewash 708 in trench 20, hence the association with BU800, which is, however, highly uncertain.	No	2008
902	BU838	838		2	Surface (Unpaved)		I	A	12 or 20?	?	Possible coarse, brownish internal surface with some fill, over slopewash 628-a of Pre-BU838, partly below slopewash deposits 767 and 781 of FE767 and mostly below slopewash 623.	No	2008
903				16	Miscellaneous		I?, V?	D	27	C?	Collapsed walling and natural N of and above BU915 and BU984, beside and partly under slopewash 840.	Yes	2008
904				16	Miscellaneous		I?, V?	D	27	C?	Yellowish, almost sterile surrounding and below collapsed wall 903 and over walls 914 and 983, and fills 864/912 and 978 of BU915 and BU984 respectively.	Yes	2008
905	FE830			906	17	Fill	I?	A	23	C	Fill largely abutting wall 830, but also filling the W part of trench cut 906, partially below slopewash 686 and partially abutting slopewash deposits 806/670 that underlie BU767.	Yes	2008
906	FE830			21	Cut		?	A	23	?	Cut of trench for wall 830 with infill behind wall slippage, below wall 830, abuts fill 905 and slopewash 686, partly over thick slopewash deposits 806/670 that underlie BU767, albeit the latter association is more tenuous.	No	2008
907	FE808	808		808	17	Fill	I	A	2	S	Grey fill below 709 and adjacent to fill 993 in pit 808, but may also go beyond its eroded east side.	No	2008

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
908	BU920	920			11	Wall	I/II	A	26	S	N arc of wall surviving at a maximum of 5-6 courses, consisting of well packed large stones with flat interior facers and extensive mud mortar, over packing 996, partly over occupation deposit 1061 and ledge 1113 of BU1169, abuts on the exterior fill 1128 with potspread 1129, fill 1084 and slopewash 910, the latter also covering the wall; and on the interior abuts BU920 floors, features, occupation deposits and fills (see individual BU920 units for details).	No	2008
909	BU920	920		920	17	Fill	I/II	A	26	S	Possible inwash, roof or occupation deposit, since flat-lying sherds are noted, mixed with and over fill 989, over fill 990, below fills 961 and 965.	No	2008
910				20/26		Slopewash/Fireplace	I, V	A	26	C	Extensive slopewash abutting and over wall 908 of BU920, perhaps an upper fill of foundation trench 919 of BU920, over fill 1128 and potspread 1129, over fills 961 and 965 of BU920, and below topsoil 0. Note: The unit was not included in BU920, as it represents accumulations of material in the empty space behind wall 908 and foundation cut 919 that do not date the context.	Yes	2008
911	BU897 or BU1015	897 or 1015		SL1808	17	Fill	I	A	20	S	Fill inside mortar SL1808, surrounded by rubble 931 of BU1015 in porch/alcove with wall 1016, above the entrance 1103 space, likely below slopewash 628-a of Pre-BU838, impossible to assign to either BU897 or BU1015.	No	2008
912	BU915	915		915	17	Fill	II	D	27	M	Wall tumble of wall 914, mixed with stony fill 864, over occupation deposit 913, below slopewash deposits 840, 843 and 904.	No	2008
913	BU915	915		915	19	Occupation Deposit	II	D	27	C	Occupation deposit and initial collapse material of BU915, covering floors 924/935 and their features, below stony fill 864 and wall tumble 912.	Yes	2008
914	BU915	915			11	Wall	II	D	27	S	N arc of a wall surviving at maximum to 5 courses, where the amount of tumble suggests a possible stone wall, while the variable masonry stretches suggests that it was possibly built in segments. The wall rested on wall 845 of BU850 and wall 983 of BU984, lies over fill 916, abuts floors 924 and 935, as well as occupation deposit 913, stony fill 864 and wall tumble 912, below slopewash 904.	No	2008
915	BU915	915			5	Building	II	D	27	S	Northern arc of a curvilinear structure, between BU850 and BU984, either broadly contemporary with both or slightly later.	No	2008
916	BU915	915		917	17	Fill	II	D	27	M	Fill of foundation cut 917, below and behind wall 914.	No	2008
917	BU915	915			27	Foundation Trench/Cut	II	D	27	S	Foundation trench cut into bedrock for wall 914.	No	2008
918	BU1015			932, 1103	17	Fill	I?	A	20	?	Fill to the E of stones 932/tumble 931, over entrance space 1103 and abutting wall 1016 of BU897, below slopewash 628-a of Pre-BU838.	No	2008
919	BU920	920			27	Foundation Trench/Cut	I/II	A	26	S	Foundation trench for wall 908, cut through slopewash deposits 927-928, 1001, 1072, and 1078 of Pre-BU920, abuts slopewash 910 and fill 1128 with potspread 1129, which filled the area between the foundation cut and the wall, below wall 908 and its packing 996.	No	2008
920	BU920	920			5	Building	I/II	A	26	S	Northern arc of curvilinear structure on the Lower Terrace, over Pre-BU920.	No	2008

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
921	BU995	995		11	Wall		I	D	29	S	N arc of wall, tilted to the S, surviving to a maximum of 4 courses with flat tabulars at its base, over fills 1004/1021, abutting floor 1025, occupation fill 980, and stony rubble 981, below slopewash 1019 and topsoil 0.	No	2008
922				11	Wall		?	D	33	?	Unexcavated 1.40 m long arc to the W of BU995, probably a building.	No	2008
923	BU915	915		7	Hearth		II	D	27	S	Off-centre, Irregular,damaged,grey-white plaster hearth on floors 924/935, over plaster matrix 934 and partly pit fill 936, below occupation deposit 913.	No	2008
924	BU915	915		3	Floor (Paved)		II	D	27	S	Hard, white paving directly on floor make up 935 and bedrock 926, mixed with and partially over floor material 935; floor associated with several features (see units 923, 934, 937 for details), and overlain by occupation deposit 913.	No	2008
925	BU915	915		16	Miscellaneous		II	D	27	S	Floor make up between floors 924/935 and bedrock 926.	No	2008
926	BU850/ BU915			16	Miscellaneous		II	D	27	Na	Flat white bedrock base for the primary floors 946 of BU850 and 924/935 of BU915, thus below both.	No	2008
927	Pre- BU920			20	Slopewash		I	A	23/26	M	Slopewash with hard flat surfaces/laminations projecting from sloped bedrock, W of and cut by foundation trench 919 of BU920, equivalent with slopewash 928 and contemporary with slopewash 1001.	No	2008
928	Pre- BU920			20	Slopewash		I	A	23/26	M	Slopewash with hard flat surfaces/laminations projecting from sloped bedrock, W of and cut by foundation trench 919 of BU920, equivalent with slopewash 928 and contemporary with slopewash 1001.	No	2008
929	FE880		853	16	Miscellaneous		I	A	23	S	Burned stones around tomb 853, within fill 858.	No	2008
930	Pre- BU838			16	Miscellaneous		I	A	23	M	Potentially upper fill material of BU897, but too high to be included in that building, hence considered equivalent to 628-a.	No	2008
931	BU1015			16	Miscellaneous		I	A	20	M	Stone tumble from re-used wall 896 of BU897 or deliberate abandonment tip of the aforementioned into the porch/alcove space formed in front of entrance space 1103 and wall 1016 of BU897, as well as partly over floor 1032 of BU1015, below slopewash 628-a of Pre-BU838, mixed with stones 932 and fill 918.	No	2008
932	BU1015			16	Miscellaneous		?	A	20	?	Evocative row of stones incorporated in tumble 931, either management of tumble material or attempt to construct some form of wall or maybe support for re-used wall 1016 of BU897, below slopewash 628-a of Pre-BU838, over entrance space 1103 and abutting wall 1016 of BU897, mixed with fill 918.	No	2008
933	BU850			865	17	Fill	II	D	27	?	Fill of foundation trench 865, equivalent to fill 849, but below and at the juncture of walls 845 of BU850 and 914 of BU915.	No	2008
934	BU915	915		12	Plaster/Paving		II	D	27	S	Plaster matrix below hearth 923 or potentially initial surface of BU915 contemporary with floor 935.	No	2008
935	BU915	915		3	Floor (Paved)		II	D	27	S	Initial charcoal-flecked white surface mixed with and partly below the multi-layered floor 924, over bedrock 926 and partly over floor make up material 925; floor associated with several features (see units 923, 934, 937 for details), and overlain by occupation deposit 913.	No	2008
936	BU915	915		937	17	Fill	II	D	27	M	Fill of pit 937, below hearth 923 and occupation deposit 913.	No	2008

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
937	BU915	915		10	Pit		II	D	27	S	Pit cutting through floors 924/935 and floor make up 925, and into bedrock 926 below BU915, partly cut below hearth 923, possibly antedating BU915, below occupation deposit 913.	No	2008
938	FE1073- Lower	1073		1095	Miscellaneous		I	A	20	M	Ash among the top stones of fireplace 1095 and its fill 1096, within fills 1024 and 1059 in pit 1073, below midden 1038 of FE1073-Upper.	No	2008
939	FE880			879	Stakescape		I	A	23/26	S	Stake-scape cut into rock-cut scoop 879 of the FE880 group.	No	2008
940	FE880			874	Stakescape		I	A	23	S	Stake-scape cut into rock-cut scoop 874 of the FE880 group.	No	2008
941	FE880			876	Stakescape		I	A	23	S	Stake-scape cut into rock-cut scoop 876 of the FE880 group.	No	2008
942	BU838	838		27	Foundation Trench/Cut		I	A	20/26	S	Foundation trench of wall 1188, cutting through surfaces 869-870 of BU895, partly cutting, but above slopewash 628-a of Pre-BU838.	No	2008
943	BU838	838		942	Fill		I	A	20/26	S	Fill of foundation trench 942, below wall 1188.	No	2008
944	BU895	895		27	Foundation Trench/Cut		I	A	26	S	Foundation trench for wall 868, cutting through slopewash 628-a of Pre-BU838.	No	2008
945	BU895	895		944	Fill		I	A	26	S	Fill of foundation trench 944 below wall 868.	No	2008
946	BU850	850		3	Floor (Paved)		II	D	27	S	Poorly preserved, hard, white plaster floor, directly on bedrock 926, cut by posthole 948, covered by occupation deposit 848 and fill 847.	No	2008
947	BU850			948	Fill		II	D	27	M	Brown, loose fill of posthole 948, below occupation deposit 848 and fill 847.	No	2008
948	BU850	850		9?	Posthole?		II	D	27	S	Possible posthole cut into floor 946 and bedrock 926, below occupation deposit 848 and fill 847.	No	2008
949	BU850	850		16	Miscellaneous		II	D	27	S	Likely man-modified tabular rock seam, serving as the area where BU850 was founded, thus underlies all BU850 features.	No	2008
950				16	Miscellaneous		?	A	26	M	Degraded bedrock deposit, below slopewash 624, over rock-cut scoop 879 of FE880 and partly over slopewash 781 of FE767.	No	2008
951	FE880			19	Occupation Deposit		I	A	23 or 26?	M	Ash deposit contemporary to FE880, below slopewash 676. Note: Stratigraphic relations to other units unclear, but likely between rock-cut scoops.	No	2008
952	FE880			19	Occupation Deposit		I	A	26	M	Ash deposit contemporary to FE880, below slopewash 676. Note: Stratigraphic relations to other units unclear, but likely between rock-cut scoops.	No	2008
953	FE880			939, 940, 941	Fill		I	A	26	M	Fill of stake-scapes 939-941.	No	2008
954	BU895	895		628-a	17	Fill		A	26	M	Initially interpreted as a surface, but probably just a hardened lens with inwash pottery within slopewash 628-a of Pre-BU838, but quite high, and spatially higher than potential floor 869, hence the association with BU895.	No	2008
955	FE1073- Upper?			1	General		I?	A	20	?	Dark stoney fill in E facing baulk of trench 20, considered a part of midden 1038. Note: The unit was not distinguished from midden 1038 in the 2009 season and no cultural material is reported from it, hence it is considered a part of the latter.	No	2008
956				16	Miscellaneous		I?	A	20	?	Cloddy brown/yellow layer south of mortar SL1808 in stone tumble 931 of BU1015. Note: This was an arbitrary unit, abandoned in the 2008 season.	No	2008
957	TR28	28		21	Cut		I-I/II?	D	28	S	Circular shallow cut in bedrock to the E of larger cut 971, below general 967.	No	2009

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
959					16	Miscellaneous	I	A	23	C	Stone tumble behind BU897, over possible surface 898.	Yes	2009
960	BU1015	1015			19	Occupation Deposit	I	A	14	S	Occupation deposit under stone setting 798, similar to occupation deposit 1076, on floors 1032/1097, below occupation deposit 1031.	No	2009
961	BU920	920		920	17	Fill	I/II	A	26	S	Topmost fill of BU920 with heterogenous soil matrix, mixed with fill 965, over fills 909 and 989, below slopewash 910 and topsoil 0.	No	2009
962	TR28	28			10	Pit	I-I/II?	D	28	S	Oblong pit cut in bedrock, W of pit 971, below general 967.	No	2009
963	TR28	28			10	Pit	I-I/II?	D	28	S	Roughly circular shallow pit cut in bedrock, SW of pit 971, below general 967.	No	2009
964	TR28	28			10	Pit	I-I/II?	D	28	S	Round pit at the base of wide, shallow basin 991, below general 967.	No	2009
965	BU920	920		920	17	Fill	I/II	A	26	S	Tumble from wall 908, mixed with fill 961, over fills 909 and 989, below slopewash 910 and topsoil 0.	No	2009
966		920			20	Slopewash	I	A	26	C	Slopewash at the S of BU920, including likely occupation deposits. Note: Stratigraphic associations unclear.	No	2009
967	TR28	28			1	General	I-I/II?	D	28	C?	General grey crumb, below topsoil 0, over all features reported as cut into bedrock in trench 28, and filling all that were empty.	No	2009
968	TR28	28		963	17	Fill	I-I/II?	D	28	M?	Fill of pit 963 consisting of basal soil below a top layer of seemingly placed stones, below general 967.	No	2009
969	TR28	28		964	17	Fill	I-I/II?	D	28	C	Fill of conical pit 964, below general 967, over basin 991.	No	2009
971	TR28	28			10	Pit	I-I/II?	D	28	S	Oval pit cut into bedrock, below general 967.	No	2009
972	TR28	28		971	17	Fill	I-I/II?	D	28	C?	Stoney fill of pit 971, below general 967.	No	2009
973	TR28	28			10	Pit	I-I/II?	D	28	S	Small conical pit cut into bedrock, below and filled by general 967.	No	2009
974	TR28	28		962	17	Fill	I-I/II?	D	28	C?	Fill of pit 962, below general 967.	No	2009
975	TR28	28		957	17	Fill	I-I/II?	D	28	M	Fill of pit 957, below general 967.	No	2009
976					16	Miscellaneous	?	A	2	Na	Natural bedrock, likely under slopewash 471 of BU13.	No	2009
977	FE808	808		808	16	Miscellaneous	I	A	2	M	Stone tumble including natural stones in pit 808.	No	2009
978	BU984			984	16	Miscellaneous	II	D	27	C	General over wall 983 and fill 979, partly below slopewash deposits 840 and 843, partly below sterile deposit 904.	No	2009
979	BU984	984		984	17	Fill	II	D	27	M	Fill of BU984, including some wall collapse and mostly a dump deposit, over floor 982, below general 978.	No	2009
980	BU995	995		995	17	Fill	I	D	29	S	Occupation fill above floor 1025 and its features, below stony rubble 981.	No	2009
981	BU995	995		995	17	Fill	I or II?	D	29	M	Stone rubble fill of BU995, above occupation fill 980, below topsoil 0, partially below slopewash 1019.	No	2009
982	BU984	984			2	Surface (Unpaved)	II	D	27	S	Coarse, brownish, compact earth, directly on the underlying bedrock, associated with stone basin SL2044, below occupation fills 978 and 979.	No	2009
983	BU984	984			11	Wall	II	D	27	S	N arc of wall surviving to a maximum of 4 courses with flat tabulars at the base, over fill 1035, abutting wall 914 of BU915, floor 982 and fill 979, below general 978 and sterile deposit 904.	No	2009
984	BU984	984			5	Building	II	D	27	S	Northern arc of the most westerly curvilinear structure, abutting BU915 and likely contemporary with it.	No	2009
985	BU984	984		SL20	17	Fill	II	D	27	M	Fill of stone basin SL2044, below occupation fills 978 and 979.	No	2009

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
986	TR30	30		20	Slopewash		I?	D	30	C	Slopewash below topsoil 0 with non-tabular rubble, equivalent to slopewash 1056, adjacent to slopewash deposits 1080-1081, over slopewash 987.	Yes	2009
987	TR30	30		20	Slopewash		I	D	30	M?	Slopewash and re-deposited natural in possible cuts in natural, below slopewash 986.	Yes	2009
988	BU984	984		SL20 44	Miscellaneous		II	D	27	S	Fill around basin SL2044, below occupation fills 978 and 979.	No	2009
989	BU920	920		920	17	Fill	I/II	A	26	S	Initial wall 908 tumble in the NW of BU920, on fill 990 and mixed with and partly below fill 909, indicating the first of several abandonment processes, below fills 961 and 965.	No	2009
990	BU920	920		920	17	Fill	I/II	A	26	S	Use and abandonment fill beneath fills 909 and 989, over floor 1011 and resurfacings 1000 and their associated features.	No	2009
991	TR28	28		10	Pit		I-I/II?	D	28	S	Potential large basin-like cut into bedrock, below general 967, cut by pit 964.	No	2009
992	TR28	28		9	Posthole		I-I/II?	D	28	S	Possible posthole cut into bedrock, disturbed by roots, below general 967.	No	2009
993	FE808?	808?		808	17	Fill	I	A	2	C	Fill in disturbed eastern part of pit 808 and beyond where it may merge with FE1038-Lower, adjacent to fill 907.	Yes	2009
994	BU897	897		897	19	Occupation Deposit	I	A	23/26	S	Occupation deposit over floors 797, 1111 and 1127 and their associated features, over occupation deposit 1107, equivalent to occupation fills 1054 and 1116, partly cut by wall 627 of BU796; less likely the floor makeup for floors 1032/1097 of BU1015, as it lies below and is slighted by them.	No	2009
995	BU995	995		5	Building		I	D	29	S	Northern arc of a curvilinear structure in trench 29.	No	2009
996	BU920	920		16	Miscellaneous		I/II	A	26	S	Mud mortar/packing for wall 908, over foundation trench 919 and its fill 1084.	No	2009
997	BU920	920		18	Potspread		I/II	A	26	S	Potspread on the edge of hearth 999 on floor 1011, below fill 990.	No	2009
998	FE9			20	Slopewash		?	A	26	C	Slopewash beneath slopewash 529, E of wall 9.	No	2009
999	BU920	920		7	Hearth		I/II	A	26	S	Sub-circular, burnt red plaster hearth with a trace of firebowl, off-centre, at the edge of erosion, on floor 1011, below fill 990.	No	2009
1000	BU920	920		19	Occupation Deposit		I/II	A	26	S	Re-surfacings and wash beneath occupation deposit 990 and over floor 1011, associated with potspreads 1005-1006.	No	2009
1001	Pre- BU920			20	Slopewash		I	A	26	M	Slopewash with hard flat surfaces/laminations projecting from sloped bedrock, cut by foundation trench 919 of BU920, contemporary with slopewash 927 and 928.	No	2009
1002	FE1073- Lower	1073		1073	2	Surface (Unpaved)	I	A	2	M	Yellowish brown compact soil on bedrock surrounding and in pit 1073, below fills 1024 and 1059.	No	2009
1003	BU920	920		1039	17	Fill	I/II	A	26	S	Fill of pit 1039, mixed with cache 1049, below fill 990 and resurfacings 1000.	No	2009
1004	BU995	995		1027	17	Fill	I	D	29	M	Fill of foundation trench 1027, equivalent to fill 1021, below wall 921.	No	2009
1005	BU920	920		18	Potspread		I/II	A	26	S	Potspread on top surface of resurfacings 1000 with red ochre, below fill 990.	No	2009
1006	BU920	920		18	Potspread		I/II	A	26	S	Potspread on top surface of resurfacings 1000 with red ochre, below fill 990.	No	2009
1007	BU995	995		1026	17	Fill	I	D	29	S	Fill of erosion line/cut 1026, below occupation fill 980.	No	2009

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1008	BU920	920		999	17	Fill	I/II	A	26	S	Pot boilers and ashy fill of hearth 999, abutting fill 990, abutting fill 909, below slopewash 910.	No	2009
1009	BU920	920		1018	16	Miscellaneous	I/II	A	26	S	Stone tool cache in pit 1018, mixed with fill 1010, below fill 990.	No	2009
1010	BU920	920		1018	17	Fill	I/II	A	26	S	Fill around stone tool cache 1009 in pit 1018, below fill 990.	No	2009
1011	BU920	920			12	Plaster/Paving	I/II	A	26	S	Plastery, pitted floor of BU920, laid over occupation fill 1061 and ledge 1113 of BU1169, below resurfacings 1000 and occupation deposit 990, associated with several features (see units 997, 999, 1012-1012, 1018, 1037, 1039, 1046, 1048-1049, 1069, 1089 for details).	No	2009
1012	BU920	920			16	Miscellaneous	I/II	A	26	S	Reddish burnt plaster portions of floor 1011, below fill 990.	No	2009
1013	BU920	920			21	Cut	I/II	A	26	S	Cut of pit in floor 1011, below fill 990.	No	2009
1014	BU1015	1015			11	Wall	I	A	26/23/2 0	S	NW arc of a wall surviving for a maximum of 5 courses, built in segments, at the N side the wall seems to form a small niche, while at the SW terminal is bonds with the underlying wall 896 of BU897, hence partly reuses it. The wall abuts floor 1032 and occupation deposits 1031/1098 at the interior, abuts fills 1017, 1050 and 1108 at the exterior, and is overlain by slopewash 628-a of Pre-BU838, while its E terminal is cut by foundation trench 1089 and wall 1088 of BU796.	No	2009
1015	BU1015	1015			5	Building	I	A	20/23/2 6	S	Western half of a curvilinear structure inserted into the derelict shell of BU897 at the Lower Terrace, over BU897/BU897 or BU1015, below or cut by BU796, BU895 and Pre-BU838.	No	2009
1016	BU897	897 and 1015			11	Wall	I	A	20	S	Disturbed NW wall made of small stones and forming a linear revetment against slopewash deposits 806, 670 of FE767, and 1043 of FE1043, perhaps later reused as a porch/alcove in BU1015, abuts at almost right angles wall 896, the fill of its SE side lost in erosion and covered mostly by slopewash 628-a of Pre-BU838 (see also entrance 1103).	No	2009
1017	BU897 or BU1015	897 or 1015			20	Slopewash	I	A	23/26	M	Slopewash between walls 896 and 1014 of BU897 and BU1015 respectively, impossible to assign to either one, over slopewash fill 1050, partly over occupation deposit 994 of BU897, partly below slopewash 628-a of Pre-BU838.	No	2009
1018	BU920	920			21	Cut	I/II	A	26	S	Cut of pit in floor 1011, beside hearth 999, below fill 990.	No	2009
1019					20	Slopewash	I-I/II?	D	29	C	Slopewash at the NE area of trench 29, outside and over wall 921 and partially over stone rubble fill 981 of BU995, below topsoil 0.	No	2009
1020	FE1073- Lower	1073		1034	17	Fill	I	A	4	S	Stony fill of fireplace 1034, mixed with fill 1140, below fills 1024 and 1059.	No	2009
1021	BU995	995		1027	17	Fill	I	D	29	M	Fill of foundation trench 1027, equivalent to fill 1004, below wall 921.	No	2009
1022	FE1073- Lower	1073		1073	17	Fill	I	A	2	M	Fill in pit 1073, on bedrock, below surface 1002. Also, the unit lies at the interface of pit 1073 and 808, hence it is also partly below fill 709 of FE808, and may be contemporary with fill 907 of FE808.	No	2009
1023	BU920	920		1013	17	Fill	I/II	A	26	S	Fill of pit 1013, adjacent to entrance 1048, below fill 990.	No	2009

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1024	FE1073- Lower			1073	17	Fill	I	A	20	M	Main fill of pit 1073, below midden 1038 of FE1073-Upper, equated with fill 1059 and adjacent to fill 1058; over potspread 1124, oven 1030, burnt patch 1141, fireplaces 1034 and 1132, pits 1118-1119 and likely 1139, and any fills associated with the abovementioned features.	No	2009
1025	BU995	995			3	Floor (Paved)	I	D	29	S	Thin paving patches of compacted floor mostly in the N part of the interior, directly over bedrock, cut by erosion line 1026 and fireplace 1052, overlain by occupation deposit 980.	No	2009
1026	BU995	995			21	Cut	I	D	29	S	Erosion line or cut at surviving S edge of floor 1025.	No	2009
1027	BU995	995			27	Foundation Trench/Cut	I	D	29	S	Foundation trench cut into bedrock for wall 921.	No	2009
1028	TR28	28			9	Posthole	I-I/II?	D	28	S	Probable posthole cut into bedrock, sloped sides, concave base, below general 967.	No	2009
1029	TR28	28		1028	17	Fill	I-I/II?	D	28	C?	Mid-brown sandy silt fill of probable posthole 1028, some roots,, below general 967.	No	2009
1030	FE1073- Lower	1073			7/16	Hearth/Miscellaneous	I	A	20	S	Oven cut into natural at the base of pit 1073, below fills 1024 and 1059.	No	2009
1031	BU1015	1015		1015	19	Occupation Deposit	I	A	20/23/2 6	S	Occupation deposit on floors 1032/1097 covering their features, below slopewash 628-a of Pre-BU838, cut by foundation trench 1089 and wall 1088 of BU796 to the E.	No	2009
1032	BU1015	1015			2	Surface (Unpaved)	I	A	20/23/2 6	S	Grey-brown floor, best preserved on the W half of building 1015's interior, over plaster surface 1097, which is likely part of the floor, over occupation deposits 994, 1054, 1116 and floor 1111 of BU897, below occupation deposit 1031, associated with features 798, 960, 1033, 1076-1077, 1110, 1117 (see units for details), cut by foundation trench 1089 and wall 1088 of BU796 to the E.	No	2009
1033	BU1015	1015			12	Plaster/Paving	I	A	20	S	Plaster on stone setting 798, below occupation deposit 1031.	No	2009
1034	FE1073- Lower	1073			26	Fireplace	I	A	4	S	Fireplace in pit 1073, cutting surface 1002, below fills 1024 and 1059.	No	2009
1035	BU984	984			27	Foundation Trench/Cut	II	D	27	S	Foundation trench cut into tabular limestone seam behind BU984 for wall 983.	No	2009
1036	BU984	984		1035	17	Fill	II	D	27	M	Fill of foundation trench 1035, below wall 983.	No	2009
1037	BU920	920			18	Potspread	I/II	A	26	S	Potspread on floor 1011, below fill 990.	No	2009
1038	FE1073- Upper	1073			17/20 /2/28	Fill/Slopewash/Surface (Unpaved)/Stakescape	I-I/II	A	20	C	Extensive midden fill of pit 1073, over fills 1024/1059 of FE1073-Lower with multiple connections to various units (see 896, 938, 955, 993, 1024, 1043, 1058-1060, 1074-1075, 1086, 1092-1093, 1095-1096, 1100-1102, 1111, 1118, 1120, 1124, 1130, 1134, 1141-1143, 1153, 1163, 1165 for details). As a feature it overlies FE1073-Lower, is contemporary with FE1102, BU1149, FE1043, and underlies BU800 and BU897.	Yes	2009
1039	BU920	920			21	Cut	I/II	A	26	S	Pit cut into floor 1011, below fill 990.	No	2009
1040	BU796	796			7	Hearth	I	A	26	S	Central, eroded hearth with traces of white/yellow plaster, mostly reddened, on floor 1079 and re-used in floor 618/1041, under slopewash 628-a of Pre-BU838 and partly under slopewash 545 over FE9, which also lies under several layers of slopewash (521, 513) beneath slopewash 927 of Pre-BU920.	No	2009

Appendix C. Units Log

1047		32		20	Slopewash		I?	A/B	32	C	Slopewash under topsoil 0, equivalent to general 1051, likely over general 1055.	No	2009
1048	BU920	920		6	Entrance		I/II	A	26	S	Plastered entrance surface at the W jamb of wall 908, the E missing in erosion, abutting floor 1011 and resurfacings 1000, below occupation deposit 990.	No	2009
1049	BU920	920		1039	16	Miscellaneous	I/II	A	26	S	Cache of ground and chipped stone in pit 1039, mixed with fill 1009, below fill 990 and resurfacings 1000.	No	2009
1050	BU897 or BU1015	897 or 1015		20	Slopewash		I	A	23/26	M	Slopewash between walls 896 and 1014 of BU897 and BU1015 respectively, impossible to assign to either one, over slopewash fill 1108 and below slopewash 1017.	No	2009
1051		32		1	General		I-II	A/B	32	C	General under topsoil 0, equivalent to slopewash 1047, but with much more pottery, over general 1055 and cut by pit 1063.	Yes	2009
1052	BU995	995		26	Fireplace		I	D	29	S	Circular, shallow fireplace cut into bedrock through floor 1025, surrounded and filled by red-discolouration 1053, below occupation fill 980.	No	2009
1053	BU995	995		1052	17	Fill	I	D	29	S	Fill of and around fireplace 1052, below occupation fill 980.	No	2009
1054	BU897	897?		897	19	Occupation Deposit	I	A	26	?	Occupation deposit over floors 797, 1111 and 1127 and their associated features, over occupation deposit 1107, equivalent to occupation fills 994 and 1116.	No	2009
1055	TR32	32		1	General		I or II	A/B	32	C	General layer, below general 1051, over general 1062, cut by pit 1063.	No	2009
1056	TR30	30		20	Slopewash		I	D	30	C	Slopewash with non-tabular rubble, equivalent to slopewash 986, likely adjacent to slopewash deposits 1080-1081.	Yes	2009
1057	Pre-BU838			20	Slopewash		I?	A	26	M	Probable slopewash below 628-a, but over BU897 deposits.	No	2009
1058	FE1073-Lower			1073	16	Miscellaneous	I	A	20	M	Ash fill of pit 1073, under midden 1038 of FE1073-Upper and wall 1016 of BU897, adjacent to fills 1024 and 1059.	No	2009
1059	FE1073-Lower			1073	17	Fill	I	A	20	M	Compact yellow fill under midden 1038 of FE1073-Upper, equated with and sharing the stratigraphic relations of fill 1024, adjacent to fill 1058.	No	2009
1060				20	Slopewash		I, V	A	20	C	Yellow slopewash deposit E of big rock below wall 1016 of BU897, partly over midden 1038 of FE1073-Upper.	Yes	2009

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1061	BU1169	1169		19	Occupation Deposit	I	A	26	C		Fill of loose and much broken material, covering depression 1146, ledge 1113, floor 1170 and its associated features, below Pre-BU920 units.	Yes	2009
1062	TR32	32		1	General	I	A/B	32	C		General deposit below 1055, over general 1065, similarly cut by pit 1063.	Yes	2009
1063	TR32	32		10	Pit	I	A/B	32	S		Pit cut from general 1051 down to general 1062, below topsoil 0, over general 1065, most of the pit lying in the baulk.	No	2009
1064	TR32	32		1063	17	Fill	I	A/B	32	M	Fill of pit 1063, adjacent to generals 1051, 1055 and 1062, below topsoil 0, over general 1065.	No	2009
1065	TR32	32		1	General	I	A/B	32	M		General below general 1062, pit 1063 and fill 1064, over deposit 1071.	No	2009
1066	FE880			1067	19	Occupation Deposit	I	A	26	S	Ash in ash hollow 1067.	No	2009
1067	FE880			21	Cut	I	A	26	S		Ash hollow cut into bedrock, part of alignment of rock-cut scoops group of FE880.	No	2009
1068	Pre-BU920			19	Occupation Deposit	I	A	26	M		External occupation deposit beside BU920, beneath slopewash 928 and over slopewash 1072.	No	2009
1069	BU920	920		9	Posthole	I/II	A	26	S		Posthole cut in wall 908 forming a niche at the E side of entrance 1048, on floor 1011, below fill 990.	No	2009
1070	BU920	920		1069	17	Fill	I/II	A	26	S	Fine, soft grey fill of posthole 1069 with small limestone chocks at base, below fill 990.	No	2009
1071	TR32	32		16	Miscellaneous	I or II	A/B	32	M		Deposit on the underlying bedrock, filling an unnumbered posthole cut into the bedrock, below general 1065.	No	2009
1072	Pre-BU920			20	Slopewash	I	A	26	M		Slopewash under slopewash 1068, partly lying on floor 1041 of BU796, and probably later cut by BU920, over slopewash 1078.	No	2009
1073	FE1073-Lower	1073		10	Pit	I	A	2/4/20	M		Extensive pit below BU897, BU1015, BU800, FE1073-Upper, partially over FE1180 and adjacent to FE1163 and BU1149.	No	2009
1074	FE1073-Lower	1073		1075	17	Fill	I	A	20	S	Fill of firepit 1075, within fills 1024 and 1059 in pit 1073, below midden 1038 of FE1073-Upper.	No	2009
1075	FE1073-Lower	1073		26	Fireplace	I	A	20	S		Firepit cut into fills 1024 and 1059 in pit 1073, below midden 1038 of FE1073-Upper.	No	2009
1076	BU1015	1015		19	Occupation Deposit	I	A	23	S		Ash area beside hearth 1077, similar to occupation deposit 960, below occupation deposit 1031.	No	2010
1077	BU1015	1015		7	Hearth	I	A	23	S		Partly preserved hearth to E of and partly below setting 798, on floor 1032, below occupation deposit 1031.	No	2010
1078	Pre-BU920			20	Slopewash	I	A	26	M		Slopewash behind BU920 and BU796 that pre-dates BU920, below slopewash 1072, over occupation deposit 1061 of BU1169, and partly over slopewash 1150 tentatively associated with FE1180, but could well form part of Pre-BU920 deposits.	No	2010
1079	BU796	796		2	Surface (Unpaved)	I	A	26	S		Compact, brown-grey floor throughout building 796, over deposit 1087 of Pre-BU796, below occupation deposits 622/1090, associated with hearth 1040.	No	2010
1080	TR30	30		20	Slopewash	I	D	30	C		Slopewash below topsoil 0 at N end of trench 30, showing shallow depth uphill, adjacent to slopewash deposits 1081 and 986/1056, over slopewash 1085.	No	2010
1081	TR30	30		20	Slopewash	I or II	D	30	C		Slopewash below topsoil 0 at the S end of trench 30, adjacent to slopewash deposits 1080 and 986/1056, over slopewash 1094.	Yes	2010

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1082	BU796	796		16	Miscellaneous		I	A	26	S	Small area of burning on floor 1079, below occupation deposits 622/1090.	No	2010
1083	Pre-BU796			16	Miscellaneous		I	A	26	M	Deposit behind and below wall 627 of BU796 that probably antedates BU796, partially cutting occupation fill 1031 of BU1015 and fill 994 of BU897, considered as contemporary with occupation deposit 1087.	No	2010
1084	BU920	920		919	Fill		I/II	A	20/26	S	Primary fill of foundation trench 919, below wall 908 and fill 1128 with potspread 1129.	No	2010
1085	TR30	30		20	Slopewash		I or II	D	30	C	Slopewash in N extension of trench 30, below slopewash 1080.	Yes	2010
1086	FE1073-Lower			26	Fireplace		I	A	20	S	Fireplace along the lip of the natural covered by fills 1024 and 1059 in pit 1073, below midden 1038 of FE1073-Upper.	No	2010
1087	Pre-BU796			19	Occupation Deposit		I	A	26	M	Deposit under floor 1079 of BU796, over and cutting fills 1130/1135 of BU1149, over slopewash 557 of FE1166	No	2010
1088	BU796	796		1089	Fill		I	A	26	S	Fill of foundation trench 1089, below wall 627.	No	2010
1089	BU796	796		27	Foundation Trench/Cut		I	A	26	S	Foundation trench for wall 627, cuts through deposit 1087 of Pre-BU796, fill 1031 and floor 1032 of BU1015, fill 994 and floor 1111 of BU897, and partly fill 1130/1135 of BU1149.	No	2010
1090	BU796	796		19	Occupation Deposit		I	A	26	S	Patch of midden type deposit on floor 1079, below floor 818/1041.	No	2010
1091	BU897	897		1092	Plaster/Paving		I	A	26	S	Plaster lining of foundation trench 1092, below fill 1093.	No	2010
1092	BU897	897		27	Foundation Trench/Cut		I	A	26	S	Foundation trench of wall 896, cuts into slopewash 1043 of FE1043 and partly into midden 1038 of FE1073-Upper.	No	2010
1093	BU897	897		1092	Fill		I	A	26	S	Fill of foundation trench 1092, over plaster lining 1091, abutting slopewash 1043 of FE1043, midden 1038 of FE1073-Upper, slopewash 806; partly abutting slopewash 670 and partly below slopewash 767 both of FE767, below surface 870 of BU895.	No	2010
1094	TR30	30		20	Slopewash		I or II	D	30	M	Slopewash below slopewash 1081, featuring lime encrusted sherds. Note: Unit was uncovered only in a limited sounding.	No	2010
1095	FE1073-Lower	1073		26	Fireplace		I	A	20	S	Fireplace (oval stone setting), to the SW and slightly higher than wall 830 of FE830, within fills 1024 and 1059 in pit 1073, below midden 1038 of FE1073-Upper.	No	2010
1096	FE1073-Lower	1073		1095	Fill		I	A	20	S	Fill of fireplace 1095, within and below ashy deposit 938, within fills 1024 and 1059 in pit 1073, below midden 1038 of FE1073-Upper.	No	2010
1097	BU1015	1015		12	Plaster/Paving		I	A	23	S	Plaster surface patches on floor 1032, likely part of the floor, below setting 798 and occupation deposit 1031, over occupation deposit 1098, associated with features 798, 960 (see units for details).	No	2010
1098	BU1015	1015		19	Occupation Deposit		I	A	23	S	Occupation deposit below plaster surface 1097, over and abutting occupation deposits 9994 and 1054, as well as floor 1111 of BU897.	No	2010
1099	FE830			1	General		I	A	20	M	General below and SW of wall 830, below fill 905 and bordering slopewash deposits 806/670 that underlie BU767.	No	2010
1100	FE1043			1	General		I	A	20	M	General patch outside of the W jamb of entrance 1103 and below wall 1016 of BU897/BU1015, hence pre-dates BU897, possibly on midden 1038 of FE1073-Upper and likely contemporary with slopewash 1043 based on similar stratigraphic relations.	No	2010

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1101	FE1101			21	Cut		I	A	20/14	M	Cut into bedrock and partially into pit 1073 of FE1073-Lower to prepare the area either for overlying BU1178 and or a structure associated with wall 1173. It is adjacent to FE1163 and below FE1102. Also, material from midden 1038 of FE1073-Upper washed over its fill 1102 of FE1102, hence it probably pre-dates BU897.	No	2010
1102	FE1102			1101/ 17 1163	Fill		I	A	20	M	Fill of cut 1101 of FE1101 and partly fill of cut 1163 of FE1163; below, adjacent to and over BU1178, adjacent and over wall 1173, partly below midden 1038 of FE1073-Upper, while its lower part is equivalent to fill 1175 of FE1101.	No	2010
1103	BU897	897 and 1015		6	Entrance		I	A	20	S	Narrow entrance between thickened jambs of wall 896 and the potentially reused W terminal of wall 1131 of BU1149, which is reused later by BU1015. It continues floor 1107, below occupation deposits 994, 1054 and 1116. Note: The unit also includes the surviving surface extending from floor 1127 to wall 1016, most of which was lost in erosion and later covered by slopewash 628-a of Pre-BU838, slopewash 628-b and tumble 931/932 with fill 918 of BU1015.	No	2010
1104	BU897	897		7	Hearth		I	A		S	Slighted, plaster hearth, secondarily spread beyond the circular primary, central hearth on floor 1111, below occupation deposits 994, 1054, 1116.	No	2010
1105	BU897	897		16	Miscellaneous		I	A	26	S	Ash associated with hearth 1104, below occupation deposits 994, 1054, 1116.	No	2010
1106	BU897	897		1106 97/17	Posthole?/Fill		I	A	23	S	Posthole filled with ash beside hearth 1104 on floor 1111, below occupation deposits 994, 1054, 1116.	No	2010
1107	BU897	897		19	Occupation Deposit		I	A	20/23/2 6/14	S	Mixed occupation deposit immediately below presumed floors 797/1111 and over plaster feature 1127, and over the top of fills 1130/1135 of BU1149, below occupation deposits 994, 1054, 1116, cut by pit 1159.	No	2010
1108	BU897 or BU1015	897 or 1015		16	Miscellaneous		I	A	23/26	M	Mixed deposit between walls 896 and 1014 of BU897 and BU1015 respectively, impossible to assign to either one, below slopewash 1050 and partly over occupation deposit 1054 of BU897.	No	2010
1109	BU1169	1169		13	Stone Setting		I	A	26	S	Cache on ledge 1113, below occupation deposit 1061. However, the unit is directly and c.30cm below cache 1049 of BU920 and may belong to the fill of pit 1039 cut from BU920.	No	2010
1110	BU1015	1015		16	Miscellaneous		I	A	23	S	Stone buttress against the interior face of wall 1014, over floor 1032, abuts and covered by occupation deposit 1031.	No	2010
1111	BU897	897		3	Floor (Paved)		I	A	26/14	S	Northern remnant of compact grey floor below the stone base of wall 896 in an unnumbered hollow cut into slopewash 1043 of FE1043 and midden 1038 of FE1073-Upper, over packing 1144 and fills 1130/1135 of BU1149, partly over or mixed with occupation deposit 1107, similar to or equivalent to floors 797 and 1127, below occupation deposits 994, 1054 and 1116, associated with feature 1103-1104, 1106 and 1115.	No	2010
1112	BU897	897		16	Miscellaneous		I	A	23	S	Flint cache on floor 797, below occupation deposits 994, 1054, 1116.	No	2010

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1113	BU1169	1169		2	Surface (Unpaved)	I	A	26	S		Artificially flattened ledge of soft whitish-yellow natural forming the N perimeter of depression 1146, hosting cache 1109 and below occupation deposit 1061. Note: Part of the bench disappear under wall 908 of BU920 that was never excavated, stratigraphic relations at those areas are not known.	No	2010
1114	BU897	897		1115	17	Fill	I	A	26	S	Fill of stake-holes 1115, below occupation deposits 994, 1054, 1116.	No	2010
1115	BU897	897		28	Stakescape	I	A	26	S		Stakeholes in floor 1111, below occupation deposits 994, 1054, 1116.	No	2010
1116	BU897	897		897	19	Occupation Deposit	I	A	14	M	Deposit covering the S part inside wall 896, probably includes mixed wash of occupation material, over floors 797, 1111 and 1127 and their associated features, over occupation deposit 1107, equivalent to occupation fills 994 and 1054, partly cut by wall 627 of BU796.	No	2010
1117	BU1015	1015		13	Stone Setting	I	A	20	S		Stone setting with an upright rubber fragment (SL2388), possibly used to wedge door shut, close to hearth 1077, on floor 1032, below occupation deposit 1031.	No	2010
1118	FE1073- Lower	1073		10	Pit	I	A	20	S		Pit at the base of pit 1038, beside firepit 1132, below fills 1024 and 1059.	No	2010
1119	FE1073- Lower	1073		10	Pit	I	A	20	S		Pit cut into natural at the base of pit 1073, below fills 1024 and 1059.	No	2010
1120	FE1073- Upper	1073		9	Posthole	I	A	20	S		Posthole cut into the base of midden 1038 and the underlying bedrock.	No	2010
1121	BU1169	1169		18	Potspread	I	A	26	S		Potspread near the centre of floor 1170, below occupation deposit 1061.	No	2010
1122	BU897	897		827	17	Fill	I	A	14	S	Lower fill of pit 827, below fill 828.	No	2011
1123	FE9	9		27	Foundation Trench/Cut	I?, V	A	14	M		Investigation of possible foundation cut for wall 9 in trench 14, cutting and over fill 1177 of BU1178.	Yes	2011
1124	FE1073- Lower			18	Potspread	I	A	20	S		Potspread at the base of pit 1038, upslope from firepit 1132, below fills 1024 and 1059.	No	2011
1125	BU897	897		10	Pit	I	A	14	S		Pit 1125 cut into floor 1111, below occupation deposits 994, 1054, 1116.	No	2011
1126	BU897	897		1125	17	Fill	I	A	14	S	Fill of pit 1125, below occupation deposits 994, 1054, 1116.	No	2011
1127	BU897	897		12	Plaster/Paving	I	A	14	S		Plaster floor feature, considered equivalent to floors 797 and 1111, below occupation deposits 994, 1054, 1116, exposed during the removal of occupation deposit 1107, cut by pit 1159.	No	2011
1128		920		919	17	Fill	I	A	26	M	Potential upper fill of foundation cut 919 for BU920, abuts wall 908, over fill 1084, below slopewash 910, contains potspread 1129. Note: The unit was not included in BU920, as it represents accumulations of material in the empty space behind wall 908 and foundation cut 919 that do not date the context.	No	2011
1129				1128	18	Potspread	I?	A	26	S	Potspread on top of and in between fill 1128. Note: The unit was not included in BU920, as it represents accumulations of material in the empty space behind wall 908 and foundation cut 919 that do not date the context.	No	2011

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1130	BU1149	1149		1149	17	Fill	I	A	14/26	C	Fill above floor 1137 and its features, abutting and covering wall 1131, similar to fill 1135, seems to abut the part of midden 1038 that lies within wall 896 of BU897 to the E, below several units of BU897 (see units 797, 1107, 1111, 1144 for details), partly below deposit 1087 of Pre-BU796, and partly under slopewash 557 of FE116, thus under deposits W of BU920.	Yes	2011
1131	BU1149	1149			11	Wall	I	A	14	S	Eroded wall remnant, single stone wide, except at the W terminal, where it appears as a 50cm wide entrance jamb below entrance 1103 of BU897/BU1015 (likely the surviving BU1149 wall was reused to support the E jamb of this entrance). Also, the wall abuts bench 1156 and lies mostly next to and below fills 1130/1135.	No	2011
1132	FE1073- Lower	1073			26	Fireplace	I	A	20	S	Firepit cut into natural in pit 1073, below fills 1024 and 1059.	No	2011
1133	BU1169	1169			10	Pit	I	A	26	S	Fire pit near the centre of floor 1170, below occupation deposit 1061.	No	2011
1134	FE1163			1163	17	Fill	I	A	20/2	M	Fill of cut 1163 at the southernmost rock ledge in trenches 20/2, below midden 1038 of FE1073-Upper, equates with fill 1164, likely over slopewash 1167. The unit seems to have partially spilled over into pit 1073 of FE1073-Lower, hence the contemporaneity with fills 1024 and 1059 of FE1073-Lower.	No	2011
1135	BU1149	1149		1149	17	Fill	I	A	26	C	Arbitrary deposit similar to fill 1130 sharing the same stratigraphic relations.	Yes	2011
1136	BU1149	1149			7	Hearth	I	A	14/26	S	Yellowish-white plaster hearth with reddened firebowl, surrounding a depression on floor 1137, below fills 1130/1135.	No	2011
1137	BU1149	1149			2	Surface (Unpaved)	I	A	14/26	S	Yellowish/red, plaster, thin, floor throughout the building, over fills 1172/1185, below fills 1130/1135, associated with numerous features (see units 1136, 1171, 1183, 1193-1195 for details).	No	2011
1138	BU1149	1149			16	Miscellaneous	I	A	14	S	Curvilinear plaster lens at the outer S edge of objects on floor 1137, probably the face of disturbed wall 1131 sliding down to the floor, below fills 1130/1135.	No	2011
1139	FE1073- Lower			10		Pit	I	A	4	?	Pit cut either into the base of pit 1073 or the surrounding bedrock, close to fireplace 1034, below fills 1024 and 1059. Note: Information on this unit are uncertain and it is unknown which unit filled the pit.	No	2011
1140	FE1073- Lower	1073		1034	17	Fill	I	A	4	S	Soil fill of fireplace 1034, surrounding the stones of fill 1020, below fills 1024 and 1059.	No	2011
1141	FE1073- Lower			16		Miscellaneous	I	A	20	S	Spread of burnt material at the base of pit 1038 on natural, maybe a burnt pot or basket, below fills 1024 and 1059.	No	2011
1142	FE1073- Upper	1073		1038	17	Fill	I	A	4	M	Soil lens within midden 1038	No	2011
1143	FE1073- Upper	1073		1038	17	Fill	I	A	4	M	Soil lens within midden 1038	No	2011
1144	BU897			1149	17	Fill	I	A	26	M	Rubble fill, potentially floor makeup, below floor 1111 and above fills 1130/1135 of BU1149.	No	2011
1145	BU1169	1169			10	Pit	I	A	26	S	Fire pit with pot boilers beside firepit 1133 on floor 1170, below occupation deposit 1061.	No	2011
1146	BU1169	1169			21	Cut	I	A	26	S	Curvilinear cut in the bedrock forming an over-20cm deep occupation depression for BU1169.	No	2011

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1147	BU1169	1169		1133	17	Fill	I	A	26	S	Fill of fire pit 1133, below occupation deposit 1061.	No	2011
1148	BU1169	1169		1145	17	Fill	I	A	26	S	Fill of fire pit 1145, below occupation deposit 1061.	No	2011
1149	BU1149	1149			5	Building	I	A	14/26	S	Circular structure at the Lower Terrace, over FE1180, abutting FE1073-Lower and FE1166, broadly contemporary with BU1169, below BU897, FE1043, Pre-BU796, and BU920.	No	2011
1150	FE1180?			1176	20	Slopewash	I	A	26	M	Slopewash below BU1149, possibly cut by wall 9, to the N and E of occupation hollow 1180 and likely contemporary with it, but association is tentative, as it also partly overlies deposits of BU1169.	No	2011
1151	FE1073- Lower	1073		1118	17	Fill	I	A	20	S	Fill of pit 1118, below fills 1024 and 1059.	No	2011
1152	FE1073- Lower	1073		1119	17	Fill	I	A	20	S	Fill of pit 1119, below fills 1024 and 1059.	No	2011
1153	FE1073- Upper	1073		1120	17	Fill	I	A	20	S	Mixed loose fill of posthole 1120, below midden 1038.	No	2011
1154	FE9				10	Pit	I?	A	26	C	Disturbed pit, cut into bedrock, possibly for wall 9 at the surviving E end of the wall.	No	2011
1155	FE9			1154	17	Fill	I?	A	26	C	Fill of pit 1154, below wall 9.	No	2011
1156	BU1149	1149			2	Surface (Unpaved)	I	A	26	S	Artificially flattened ledge of soft whitish-yellow natural forming the perimeter of floor 1137, abuts wall 1131, below fills 1130/1135.	No	2011
1157	BU1169	1169			9	Posthole	I	A	26	S	Posthole at the edge of 1113, beside pivot SL2900, cutting through floor 1170, below and likely filled by occupation deposit 1061.	No	2011
1158	FE9				20	Slopewash	I?	A	26	C	Slopewash at the W edge of BU920/BU1169, abutting wall 9.	No	2011
1159	BU897	897			10	Pit	I	A	14	S	Pit cut from the top of occupation deposit 1107, cutting through plaster feature 1127 into fills 1130/1135 of BU1149, below occupation deposits 994, 1054, 1116.	No	2011
1160	BU897	897		1159	17	Fill	I	A	14	M	Fill of pit 1159, below occupation deposit 1107, over and abutting fills 1130/1135 of BU1149.	No	2011
1161	FE1101				21	Cut	I	A	2	S	Minor cut into bedrock, below fill 1102 of FE1102, likely at the base of cut 1101.	No	2011
1162	FE1101			1161	17	Fill	I	A	2	M	Fill of cut 1161, below fill 1102 of FE1102.	No	2011
1163	FE1163	1163			21	Cut	I	A	2	S	Natural cut between the south boundary of FE1073-Lower and the western border of FE1101, below midden 1038 of FE1073-Upper and fill 1102 of FE1102, the latter partly filling cut 1163.	No	2011
1164	FE1163	1163		1163	17	Fill	I	A	2	M	Fill of natural cut 1163, below fill 1102 of FE1102, likely over slopewash 1167, equates with fill 1134.	No	2011
1165	FE1073- Upper?			1038	17	Fill	I	A	20	S	Lower part of midden 1038 below wall 896 of BU897, equivalent to fill 1130 inside the aforementioned wall, over fills 1024/1059 of FE1073-Lower.	No	2011
1166	FE1166				2	Surface (Unpaved)	I	A	26	M	Extensive compacted white-grey, external unpaved surface between and likely contemporary with BU1149 and BU1169, below Pre-BU796, over fill 1185 tentatively associated with BU1149, abutting wall 9 of FE9.	No	2011
1167	FE1163	1163		1163	20	Slopewash	I	A	2	M	Slopewash filling cut 1163, likely below fills 1134 and 1164.	No	2011
1168	FE9				20	Slopewash	I?	A	14	M?	Slopewash S of BU1149, partly over wall 1173 of FE1101, cut by wall 9, maybe collapse material from wall 1131 of BU1149.	No	2011

Charalambos Paraskeva

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1169	BU1169	1169			5	Building	I	A	26	S	North arc of a circular structure in the Lower Terrace, adjacent to FE1166 and below FE9 and Pre-BU920/BU920.	No	2011
1170	BU1169	1169			3	Floor (Paved)	I	A	26	S	Whitish paving over bedrock inside depression 1146, associated with various features (see units 1133, 1145, 1157 and 1121 for details), below occupation deposit 1061.	No	2011
1171	BU1149	1149			10	Pit	I	A	14	S	Pit cut into floor 1137, likely a pot holder, below fills 1130/1135.	No	2011
1172	BU1149 ?	1149?		1149	17	Fill	I	A	14	S	Levelling fill below the S part of floor 1137, similar to fill 1185, over fills 1182 and 1196-1198 of FE1180, below surface 1166 and slopewash 557 of FE1166, thus also below layers W of BU920, abutting wall 9 of FE9.	No	2011
1173	FE1101				11	Wall	I	A	14	M	NW arc, single line of stones, inclined S, partly supported by the lip of bedrock in cut 1101, partly within and below fill 1102 of FE1102, partly below slopewash 1168, and partly adjacent to and over fill 1175.	No	2011
1174	BU1178	1178			11	Wall	I	A	14	C	Wall surviving at a max of 2 courses in single stone line, slighted by wall 9 of FE9, over fills 1175 and 1186 of FE1101, below, adjacent and over fill 1102 of FE1102.	Yes	2011
1175	FE1101			1101	17	Fill	I	A	14	M	Fill of cut 1101, over general 1186, under and between wall 1173 and BU1178, equivalent to the lower part of fill 1102 in FE1102.	No	2011
1176	FE1180?				10	Pit	I	A	14	M	Bedrock pit between BU1169 and BU1149, likely cut from and filled by slopewash 1150, likely contemporary with occupation hollow 1180.	No	2011
1177	BU1178	1178		1178	17/3	Fill/Floor (Paved)	I	A	14	S	Fill and floor of building 1178, over fills 1175 and 1186 of FE1101, below, adjacent and over fill 1102 of FE1102.	No	2011
1178	BU1178	1178			5	Building	I	A	14	S	NW arc of curvilinear structure, south of BU897, over FE1101, over, adjacent and below FE1102.	No	2011
1179	FE1180	1180			26	Fireplace	I	A	14/26	S	Fireplace on bedrock below floor 1137 and hearth 1136 of BU1149. It is found under the W side of hearth 1136, hence it is considered a separate entity.	No	2011
1180	FE1180	1180			21	Cut	I	A	14	S	Occupation hollow cut into bedrock, below BU1149 and partly below FE1073- Lower.	No	2011
1181	FE1180	1180			26	Fireplace	I	A	14	S	Fireplace within occupation hollow 1180.	No	2011
1182	FE1180	1180		1180	17	Fill	I	A	14	S	Fill of occupation hollow 1180, below levelling fill 1172 and floor 1137 of BU1149.	No	2011
1183	BU1149	1149			9	Posthole	I	A	14/26	S	Posthole cut beside hearth 1136 on floor 1137, below and likely filled by fills 1130/1135.	No	2011
1184	FE1180	1180			26	Fireplace	I	A	14	S	Fireplace below floor 1137 and hearth 1136 of BU1149, possibly associated with occupation hollow 1180. A layer of grey soil between it and hearth 1136 indicates that it is a separate entity.	No	2011
1185	BU1149			1149	17	Fill	I	A	26	S	Fill similar to fill 1172 in a limited area below wall 1131 and floor 1137 of BU1149, under surface 1166 and slopewash 557 of FE1166, thus also below layers W of BU920.	No	2011
1186	FE1101			1101	1	General	I	A	14	C	General accumulation on the rock ledge under BU1178 and fill 1175, at the base of cut 1101.	Yes	2011
1187	FE1101				16	Miscellaneous	I	A	14	S	Cache beside wall 1173, over fill 1175.	No	2011

Appendix C. Units Log

Unit	PUG	PB/F	PT	PO	Class	Class Description	Period	Operation	Trench	Status	Description	LATE	First Excavated
1188	BU838	838		11	Wall		I	A	20/26	S	NW arc of wall with basal course only, likely re-using material from wall 868 of BU895, over fill 943, partly abutting/over and partly below slopewash deposits 767 and 781 of FE767, and mostly below slopewash 623.	No	2011
1189	TR28	28	1189	10/8?	Pit/Tomb?		I-I/II?	D	28	C	Corner of tomb-like pit to the N of and immediately adjacent to pit 842, most of it eroded by the Dhiarizos river, visible from topsoil 0. Note: The tomb was discovered on 14/11/2013, without further information and no unit sheet completed.	No	2011
1193	BU1149	1149		16/12	Miscellaneous/Plaster/Paving		I	A	26	?	Plastered low ridge SW from hearth 1136 to plaster lens 1138, on floor 1137, below fills 1130/1135.	No	?
1194	BU1149	1149		16/12	Miscellaneous/Plaster/Paving		I	A	14/26	?	Plastered low ridge SE from hearth 1136 to plaster lens 1138, on floor 1137, below fills 1130/1135.	No	?
1195	BU1149	1149		16	Miscellaneous		I	A	26	?	Two/three stone blocks on floor 1137, perhaps functioning as a kerb/threshold for the disappeared due to disturbance entrance of BU1149, below fills 1130/1135.	No	?
1196	FE1180	1180		1196	10/17	Pit/Fill	I	A	14	?	Stone-filled pit in occupation hollow 1180, below levelling fill 1172 of BU1149. Note: The unit conflates a pit and fill feature.	No	?
1197	FE1180	1180		1197	10/17	Pit/Fill	I	A	14	?	Soil-filled pit in occupation hollow 1180, below levelling fill 1172 of BU1149. Note: The unit conflates a pit and fill feature.	No	?
1198	FE1180	1180		1198	10/17	Pit/Fill	I	A	14	?	Soil-filled pit in occupation hollow 1180, below levelling fill 1172 of BU1149. Note: The unit conflates a pit and fill feature.	No	?
1199	FE629			25	Rock-cut Sccop		I	A	11/12	S	Rock-cut scoop to the N of FE629, likely contemporary with it.	No	?
1200				11	Wall		?	D		S	Arc of a wall located on the W slope of the West Ridge. Note: The wall was discovered during survey with Dave Sewell 22/04/2014.	No	2014
1201				11	Wall		?	B		S	Arc of wall located on the N slopes of East Ridge. Note: The wall was discovered during survey with Dave Sewell 22/04/2014.	No	2014
1202				11	Wall		?	D		S	Arc of wall located on the W slope of West Ridge. Note: The wall was discovered during survey with Dave Sewell 22/04/2014.	No	2014
?	FE629	629		2	Surface (Unpaved)		I	A	12	S	Unpaved surface in the S part of FE629 and thinly over the NE shelf, under surface 461. Note: The unit was not assigned a number.	No	?
