

Thanks should be expressed to the Directors of the
Corp. for public spirit in preserving as much as
possible of the Castle & for their permission to
watch the work & rescue the relics which have
been recovered - only a tithe of what might have
been got if the work could have been continuously
watched - I ought also in this respect to
acknowledge the helpfulness ^{of the Architect & also} Mr. Turner, the
Contractor & Mr. Gilbert the Clerk of Wks. for
their ~~helpfulness~~ courtesy & assistance.

Thanks are also due to the ex-Lt. Mayors
Ald. Humbstone & Ald. J. S. Graves, also to
Sir W. Hall & to Mr. Rylett of the Archts
Dept. & Mr. Senior of Imp't. Dept. who have
made such excellent photographic records.

With regard to work now in hand thanks are
especially due to Mr. Davis, City Architect &
Mr. in charge of work on the
site.

Finally, may I make an earnest appeal to our
City Fathers & especially the Market Comd. to
preserve & make accessible the ruins uncovered on
the East side & any others which may be uncovered.
