SUMMARY OF THE FINDS FROM ARCHIVE ONLY FIELDS RECOVERED DURING THE A1L2B SCHEME

Julie Shoemark

INTRODUCTION

This document presents a summary of the artefacts recovered from fields designated as “archive only” recovered during the A1 Scheme. It should be read in conjunction with the A1 finds database, available as part of this archive.

FIELD 127

A single body sherd from a Roman pottery vessel was recovered from context **6023**. This context was part of a negative watching brief.

FIELD 134

A single fragment of CBM of uncertain form and a sherd from a Roman vessel were both recovered from context **6100**.

FIELD 136

No finds were recovered during the course of a negative watching brief.

FIELD 138

No finds were recovered during the course of a negative watching brief.

FIELD 140

No finds were recovered during the course of a negative watching brief.

FIELD 146

No finds were recovered.

FIELD 147

A copper alloy object (RF12832) comprising a tapered strip with a single perforation at the end was recovered from context **7063**.

FIELD 148

No finds were recovered during the course of a negative watching brief.

FIELD 150

Six sherds of Roman pottery weighing 38g in total and a single burnt flint flake (see Foulds 2018a) were recovered during a negative watching brief. All were unstratified.

FIELD 151

No finds were recovered during the course of a negative watching brief.

FIELD 152

No finds were recovered during the course of a negative watching brief.

FIELD 170

In context **7120** there were two fragments of Roman amphora weighing 36g in total. There were also 38 fragments of Roman pottery weighing 241g in total, eight fragments of CBM of unknown form weighing 57g in total and a pig femur (see Wright 2018).

In context **7121** there was worked stone, possibly a whetstone (RF12835) of uncertain date, a Mesolithic flint blade and an Early Neolithic leaf shaped arrowhead (see Foulds 2018b). There was also an iron object of possible Roman date, a sherd of Roman pottery and a fragment of CBM of unknown date.

In context **7130** three sherds of Roman pottery weighing 16g in total, three sherds of vessel glass of unknown date and weighing 15g in total and a fragment of bone were recovered.

FIELD 171

Context **7053** produced a single sherd of medieval pottery. Context 7058 contained a sherd of post-medieval pottery weighing 144g and an unidentified iron artefact of possible Roman date.

FIELD 192

A fragment of samian ware weighing 4g, a sherd of Roman pottery weighing 65g and a fragment of Roman glass bangle were recovered from unstratified contexts.

A fragment of CBM of uncertain date and weighing 191g was recovered from context **6508**.

A single sherd of Roman pottery weighing 15g was recovered from context **6512**.

One sherd of Roman pottery weighing 2g came from context **6520**.

One sherd of post-medieval pottery and a fragment of animal bone weighing 162g were recovered from context **6527**.

Context **6533** contained a sherd of samian ware weighing 10g and two sherds of Roman pottery weighing 40g in total.

A single sherd of samian ware weighing 15g was recovered from context **6535**.

FIELD 205

No finds were recovered during the course of a negative watching brief.

FIELD 206

No finds were recovered during the course of a negative watching brief.

FIELD 216

No finds were recovered.

FIELD 221

No finds were recovered during the course of a negative watching brief.

FIELD 222

No finds were recovered during the course of a negative watching brief.

FIELD 224

No finds were recovered during the course of a negative watching brief.

FIELD 225

Charred plant remains were recovered from context **27515**.

FIELD 226

A fragment of slag weighing 18g and a piece of burnt flint were both recovered from context **7084**.

FIELD 227

No finds were recovered during the course of a negative watching brief.
