

SUPPLEMENT

CONTENTS

- S3 Downside Mill, Cobham**
TONY HOWE, RICHARD SAVAGE and PAMELA SAVAGE
- S3 Stratigraphic report and director's commentary, by Tony Howe
Trench 1
Northern mill race
Fig 6a Plan of excavated features in trench 1
Southern mill race
Fig 13 Southern mill race, east-facing section
Fig 14 Southern mill race, south-facing section
Fig 15 The remains of the southern wall and floor of the southern mill race in trench 1
Central mill island
Trench 2
Fig 16 Trench 2 plan
Fig 17 Trench 2, north-facing section
Discussion and general observations
Conclusions
- S13 The finds, by Richard Savage and Pamela Savage
Pottery
Figs 18 & 19 Cylindrical vessel of unglazed stoneware containing a mixture of mined graphite and a manganese ore together with a graphite bar
Clay tobacco pipes, glass, ceramic building material, flint, leather, bones, shells, wood and timber, metalwork
- S17 The assessment of metalworking debris, by Dr David Starley, December 2008
- S29 Consultant's opinion, by Dr David Cranstone, May 2009
- S33 Excavation of a Prehistoric and Romano-British site at Betchworth, 1995–6:**
Archive report
DAVID WILLIAMS
- S34 Summary
S34 Introduction
S34 Geology and historical topography
S34 Previous discoveries
S39 Excavation methodology
Site 1
Site 2
- S40 The excavation
Phases A–D: prehistoric features in Sites 1 and 2
Phase E: Romano-British features in Site 2
Phase F: medieval and later features
- S59 Finds reports
S125 Environmental reports
S138 Subsequent work
S139 Concluding discussion

- S144 Appendices
1 Radiocarbon results
2 Report on a skeleton found in 1853 in the area of Station Road
3 Neolithic material from 'Box Hill Sand Pit' in Guildford Museum and The British Museum
4 Lists of contexts
