

THE LAY SUBSIDY ASSESSMENTS FOR THE  
COUNTY OF SURREY IN 1593 OR 1594.

TRANSCRIBED FROM THE ORIGINALS IN THE PUBLIC  
RECORD OFFICE.

BY

ALFRED RIDLEY BAX, F.S.A.

---

THE Series of Lay Subsidy and Hearth Tax Rolls preserved in the Public Record Office is well known to the merest tyro in record searching, but it is a question whether their great value is properly estimated from a genealogical point of view.

In the former we have the names and surnames of the householders in a county, the amount at which the lands or goods are assessed, and the sum claimed for the King; occasionally, too, their official position or trade occupation is mentioned and the name of the estate: in the latter we get the names of all the chief heads of households in the towns and villages and the number of the hearths, from which we may form an approximate idea of the size of the dwelling. Thus these records form a directory of the inhabitants in the year of the reign for which the returns are made.

Let us assume that the inquirer has reason to believe that his progenitors (or the family for which he is searching) came from a particular county, and that for aught he knows to the contrary they may have resided there for centuries; what better course can he adopt in beginning his inquiry than by making a careful search through the subsidy rolls of that county? He will probably discover four or five families of the same name in various parts of the county, and by carefully working

out their descendants he will most likely be able to connect one of them with the individual whose ancestors he is seeking.

The following assessments for the borough of Southwark and the several hundreds of Surrey were made in virtue of the Act 35 Elizabeth, cap. 13, and have been selected for publication here because they are unusually complete for the county, and are generally in an excellent state of preservation. By this Act the unprecedented course was taken of granting the Crown three entire subsidies, the reason for so liberal a grant being alleged to be "the puissant and mighty forces for some few years past brought against the realm." At the same time the grant was not to be drawn into a precedent, the Commons adding, "and therefore because these our doings shall remain in perpetual record to the view of all posterities hereafter, we most humbly beseech your most excellent Majesty that with your gracious favour we may testify and express that our intention is that this which we have now done upon so extraordinary and urgent a necessity to so good and gracious a Princess be not drawn into a precedent for the times to come." Nevertheless, when the period over which the collection of the subsidies was spread had expired, a further grant of three whole subsidies was again made, and in later reigns even more were granted under one Act of Parliament.

Each subsidy consisted of 2*s.* 8*d.* in the pound from subjects having £3 and more in personality, and of 4*s.* in the pound on lands of 20*s.* per annum and upwards. Aliens in each case had to pay double these rates.

The payment of the three subsidies granted by the Act of 35 Elizabeth was to be spread over four years, the first two subsidies being paid each at one payment in the first two years, whilst the third subsidy was divided into two payments, that on personality at 1*s.* 8*d.* and 1*s.*, and that on land at 2*s.* 8*d.* and 1*s.* 4*d.*, to be paid respectively in the third and fourth years.

The assessment for the first subsidy was to be made on or before 1st October 1593, and the money was to

be paid into the Exchequer before the following 12th February. Corresponding days of the month, each at a year's interval, were fixed for the assessment and payment of the second subsidy and the two payments of the third.

With one exception, the assessments which follow were all made for the first subsidy, and form therefore a return of the better-to-do inhabitants of the county in the year 1593. The exception is the hundred of Brixton, for which the assessment for the second subsidy (1594) has been printed, owing to the fact that the assessment for the first subsidy escaped notice until the one transcribed was in type. On comparing the two assessments, it was thought that the changes in the population of this hundred which had taken place between the two years were not sufficiently important to warrant the appearance of the volume being delayed at the last moment by the cancelling of the sheets containing the return printed by inadvertence.

The assessments which are included in the present volume are those for the borough of Southwark, and the hundreds of Brixton, Emleybridge, Copthorne, and Effingham. The lists of foreigners or strangers in Southwark and Brixton hundred which are contained in these subsidy rolls, have already been printed by the Messrs. R. E. G. and E. F. Kirk in the *Returns of Aliens dwelling in the City and Suburbs of London* (Huguenot Society's Publications, Vol. X), and their readings have been followed in most cases where there was any difficulty as to the orthography of the names. The assessments for the remaining hundreds of the county will follow in a future volume.

A few words of explanation will probably be necessary to those to whom these subsidy rolls are as yet as an unknown land. Of the two columns of sums, that to the left represents the total value either in goods or lands on which the assessment was made, whilst the right-hand column shows the amount towards the subsidy which the assessed was required to pay. The assessments were no doubt purely arbitrary, and must

not be taken as affording any real indication of the wealth of those concerned. What, however, they do perhaps show is the relative positions of the inhabitants of each parish in regard to wealth, whether in actual fact or in the common opinion of the neighbourhood.

The rolls, when drawn up by the Commissioners appointed to make the various assessments, were then handed over to those whom these Commissioners had assigned to collect the sums shown in the right-hand column. Naturally, when the collectors set about their task, they found difficulties. People had left the parish since the assessment was made or were already taxed in some other parish. In the latter case a note was written in the left-hand margin of the roll against the name, which is usually underlined, to some such effect as “*exor* hic eo *qd r in*,” that is, “he is discharged (*exoneratur*) here because he answers (*respondeat*) in” such and such a parish. When the person had left the parish, or had no property in it on which distressment could be levied, the collectors made a separate certificate or affidavit, and against the names of all such persons in the subsidy roll was written “af” or “affidt.” These certificates, containing the names of those who for some reason or another did not pay, are frequently found amongst the subsidy rolls in the Public Record Office. The precise significance of the note “*on*” (*oneratur*, he is charged), against some of the entries, is a little more difficult to decide. Perhaps those against whose names it appears had not paid on the first application of the collectors, and some doubt may have existed as to their liability, a doubt which was afterwards decided in their disfavour.<sup>1</sup>

<sup>1</sup> Owing to illness, Mr. Bax was unable to complete the revision of the following pages in the press, or to write more than the three opening paragraphs of the above introduction. The greater part of these explanatory remarks has therefore been supplied by the Editor, who is also responsible for the final correction in the press of Mr. Bax's paper.
