

ABSTRACT OF ORIGINAL RETURNS
OF THE
COMMISSIONERS FOR MUSTERS AND THE
LOAN IN SURREY.

BY
THEODORE CRAIB.

THE following 'Dokett,' as it is called, appears to be an abstract of the Original Returns of the Commissioners for Musters and the Loan in Surrey, who were appointed in the summer of 1522.

At present it is impossible to trace a copy of the commission, but in the *Calendar of Letters and Papers, Henry VIII* (Vol. III, Part II, No. 2484) there are printed Instructions to the Commissioners for Musters in the county of Warwick. Declarations upon oath by the parties themselves were to be accepted, unless the Commissioners had reason to think the declaration was false; in which case they were to examine the neighbours, so as to ascertain the substance of the persons by common repute. This method not only applied to temporal personages, but to the spiritual dignitaries and benefices, brotherhoods, etc. The document printed below, which is undated, gives the Returns both of the spirituality and the temporality for each Hundred, including the Borough of Southwark, with the exception of that of Godley. It also includes the number of able men available in each Hundred, together with the Harness it was possible to provide.

Once again I am indebted to the kindness of Mrs. More-Molyneux McCowen for permission to print this

document from the Loseley collection, and also to Mr. R. H. Brodie, of the Public Record Office, for his valuable assistance in identifying and dating it.

A Dokett made owth of the Commyssioners boke in the Countie of Surr. of certen Intrucionis comprehended in a Speycall Commyssion to the same Commyssioners dyrected as heraf[ter] more pl[. . . .] [and *struck out*] is declared at lerge.

That is to sey
