ADDITIONAL INFORMATION

(any further details that may be important for understanding the context, including items marked * overleaf)

Fill (132325) of Pit [132328], This is the upper fill of that pit, which has another two fills. This fill is quite dark and has a considerable amount of charcoals and pottery and some bones and medium stones; all of them are burned. Probably this fill ~~was a~~ is a dumped layer from ~~cooking~~ waste once the pit was in disuse or maybe this pit was dug in order to tipping waste there. Because of the pottery we thought this fill could be from Iron Age.
