FILL OF POST-HOLE [736459]

(consider: location plan, detailed plan showing relationships, section showing fills/deposits as appropriate)

This image shows a full page of blank graph paper. The grid consists of small, evenly spaced squares formed by thin black lines. There are approximately 20 columns and 20 rows of squares across the page. A thicker vertical line runs down the left side, creating a margin. The paper has some minor scanning artifacts, such as small dark specks and faint smudges, particularly near the top and bottom edges.

CUT OF POST HOLE [736502]. THIS FEATURE IS RELATIVELY IRREGULAR IN SHAPE, THIS BEING SEEN DURING EXCAVATION. ALTHOUGH THIS COULD BE THE RESULT OF A NATURAL PROCESS, IT MAY ALSO ~~SHOW~~ ^{SHOW} BE THE DISTURBANCE TO BE THE RESULT OF MOVEMENT DURING THE REMOVAL OF THE POST. IT IS MORE LIKELY THAT THIS IS IN FACT A POST HOLE, AS IT IS ALIGNED ON THE SOUTHERN WALL OF BUILDING [736502].

(any further details that may be important for understanding the context, including items marked * overleaf)

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is a vertical margin line on the left side, creating a narrow left margin. The paper appears slightly aged or off-white. There are some faint smudges and marks on the surface, particularly near the top left corner.

(any further details that may be important for understanding the context, including items marked * overleaf)

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is a vertical margin line on the left side, creating a narrow left margin. The paper appears slightly aged or off-white. There are some small dark spots and faint smudges, particularly near the top edge, suggesting it might be a scan of a physical document. No text or other markings are present on the page.

7.12.17

ADDITIONAL INFORMATION

(any further details that may be important for understanding the context, including items marked * overleaf)

Slot comprising of linear [736577], two post-holes [736583] and [736581] and unknown feature [736579] - which is possibly packing of either post-hole or simply a disturbance of fill [736578] when post-hole [736581] cut into it.

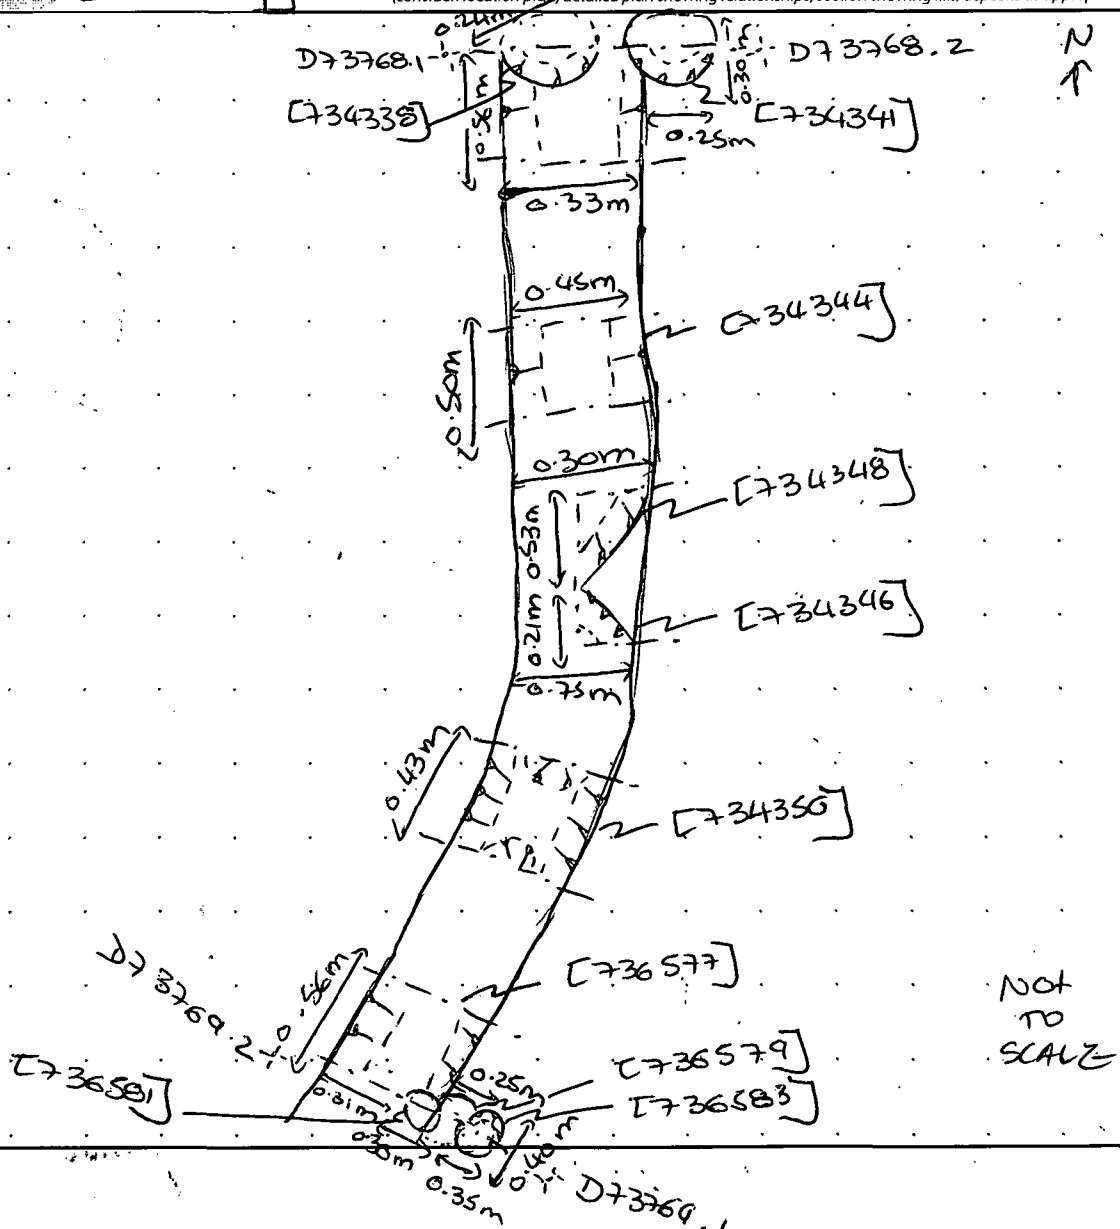

In shape it seems that packing more likely to be associated with post-hole [736581], but because it is not certain and to also facilitate interpretation and matrix it was decided to give this separate numbers.

see [734336] SEE (736578) + 77

2.12.17

ADDITIONAL INFORMATION:

(any further details that may be important for understanding the context, including items marked * overleaf)

Very gravelly fill (736580) of unknown feature [736579].

Possibly piling of both or either post-holes [736583] and [736581]; ~~location~~ location and shape difficult to ascertain to which post-hole it belongs to.

It is also possible this area has simply been disturbed when post-holes dug - mixing pit (736578) of linear [736577] with natural.

See [734336]

7.12.17

ADDITIONAL INFORMATION

(any further details that may be important for understanding the context, including items marked * overleaf)

DITCH [736591] and [736595] with several post-holes [736586], [736588], [736593] and possible stake-hole (see sketch below) cutting into it.

This agrees with previously dug slots along this feature - see [734336]. This feature is a possible *palisade* of a defensive nature.

- MOST LIKELY A FENCE - RA. 3.01.18

As all Rills are similar (see [736587]) it is possible that features are contemporary, not being able to distinguish a relationship - except for post-hole [736593] which is earlier.

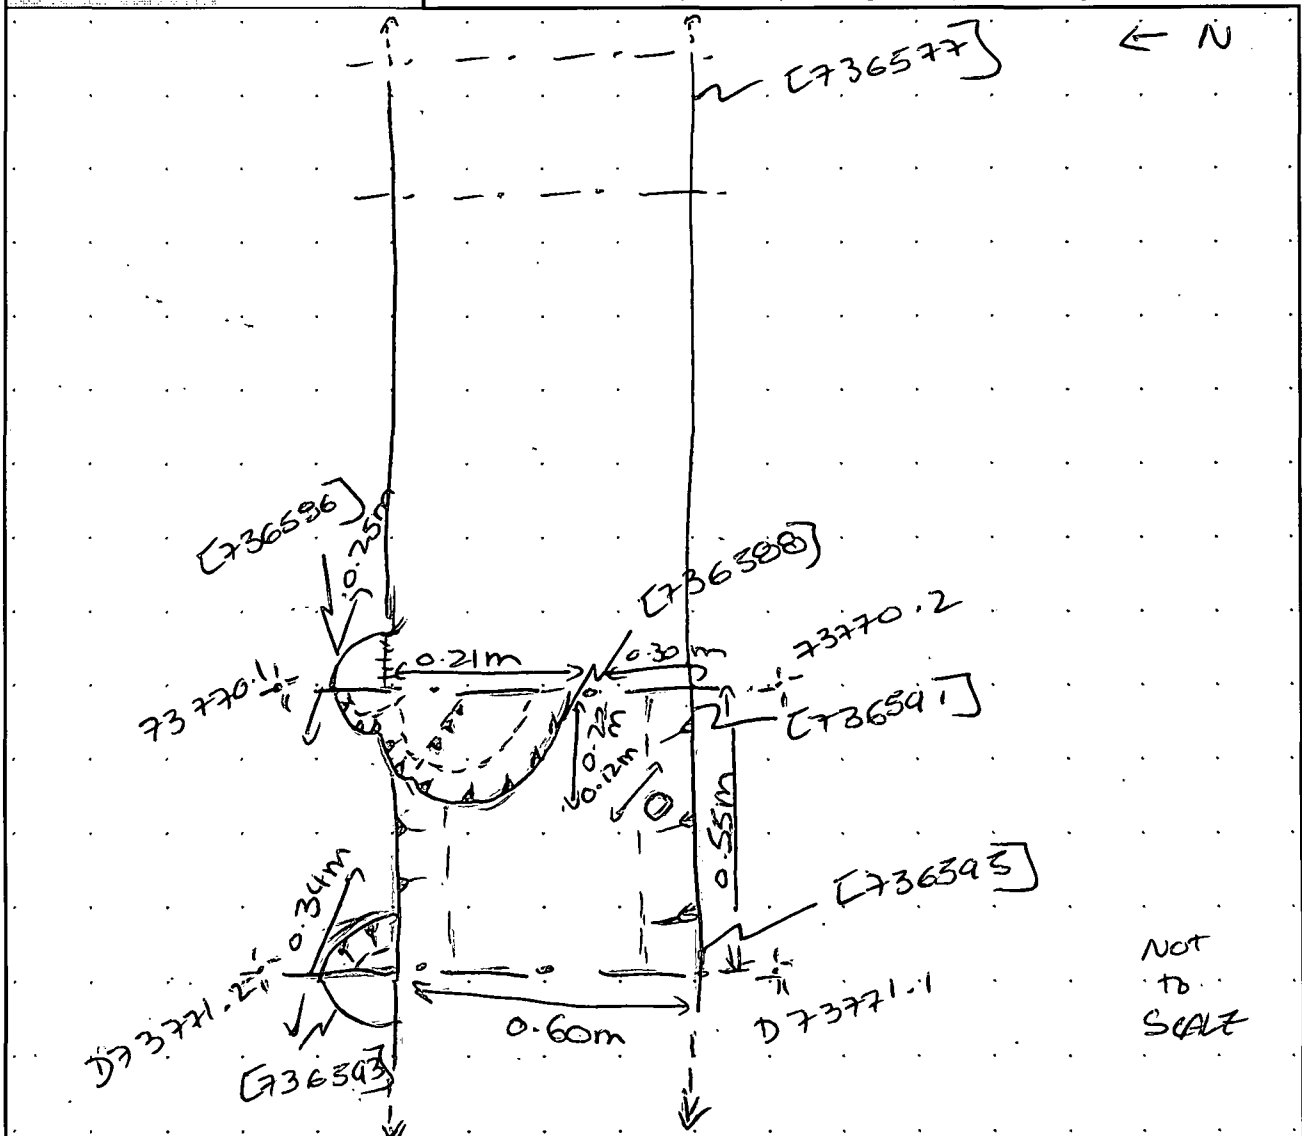

NOTE: It is possible that there is an additional post-hole between [736586] and [736588] due both to its shape in plan and section.

- SEE (736528) FOR DETAILS -
[736577]

CUT OF PIT. [736682]
THE EDGES ARE CLEAR

(consider: location plan, detailed plan showing relationships, section showing fills/deposits as appropriate)

This image shows a full page of blank graph paper. The grid consists of small squares formed by thin black lines. There are approximately 20 columns and 20 rows of squares. The paper has a slightly off-white or cream color. There are some minor dark spots and faint smudges scattered across the surface, particularly near the top left and bottom center, which appear to be scanning artifacts or dust. A vertical line runs down the right side of the page, possibly indicating where it was bound or folded.

CONTEXT RECORD FORM

Continuation Sheet

Sheet 3 of 3

Project code: A 14

TEA 7C

Context No: [736690]

THE BUILDING [736690] HAS ONLY TWO SIDES.

THE SHORT SIDE IS FACING NORTH AND THE

LONG SIDE IS FACING WEST.

THE SOUTH AND EAST SIDES ARE PART OF AN

AREA THAT HAS NOT BEEN INVESTIGATED

ARCHAEOLOGICALLY YET

INSIDE THE BUILDING THERE ARE A SERIES OF

POST HOLES THAT COULD ^{be} ~~be~~ ~~have~~ THE ROOF

SUPPORT FUNCTION OR THEY COULD INDICATE

A SUBDIVISION OF THE INTERIOR SPACES OF

THE BUILDING.

ALONG THE WESTERN WALL THERE IS AN

ALIGNMENT OF POST HOLES THAT SUGGEST AN

EXTENSION OF THE BUILDING.

↳ fencing ?

72.12.17

CUT OF PIT.

THIS IS THE RE-CUT OF [734585], WHICH SEEMS TO HAVE BEEN MADE LATER ON AND ON THE BASE OF IT [736702] WAS PLACED A WOODEN PLANK ⁽⁷³⁴⁰⁸⁵⁾ THE ORIGINAL DITCH MUST HAVE BEEN USED TO ~~DRAW~~ DRAW THE PEATY SILT TO BE USED FOR FUEL, ON TOP OF WHICH, (734085) THE PLANK, LIES.

BENEATH THIS CUT AND UNDER THE WOOD THE FILLS (734586) AND (736703) ARE WET DUE TO THE WATER. ABOVE THE FILLS ARE MORE DRY, THE WOOD COULD BE USED TO KEEP THE PIT ~~SEPARATE~~ DIVIDED.

TRUNCATES [734585]

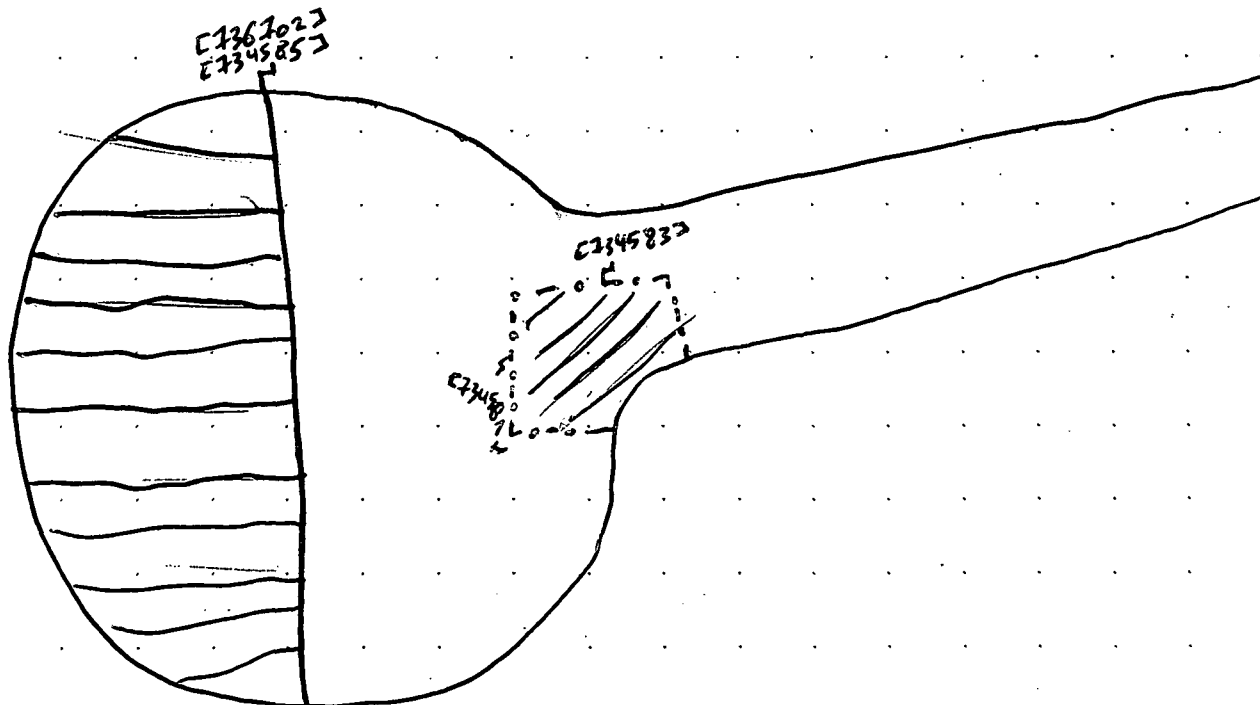

SEE THE ATTACHED PLAN
FOR LOCATION OF THE PIT

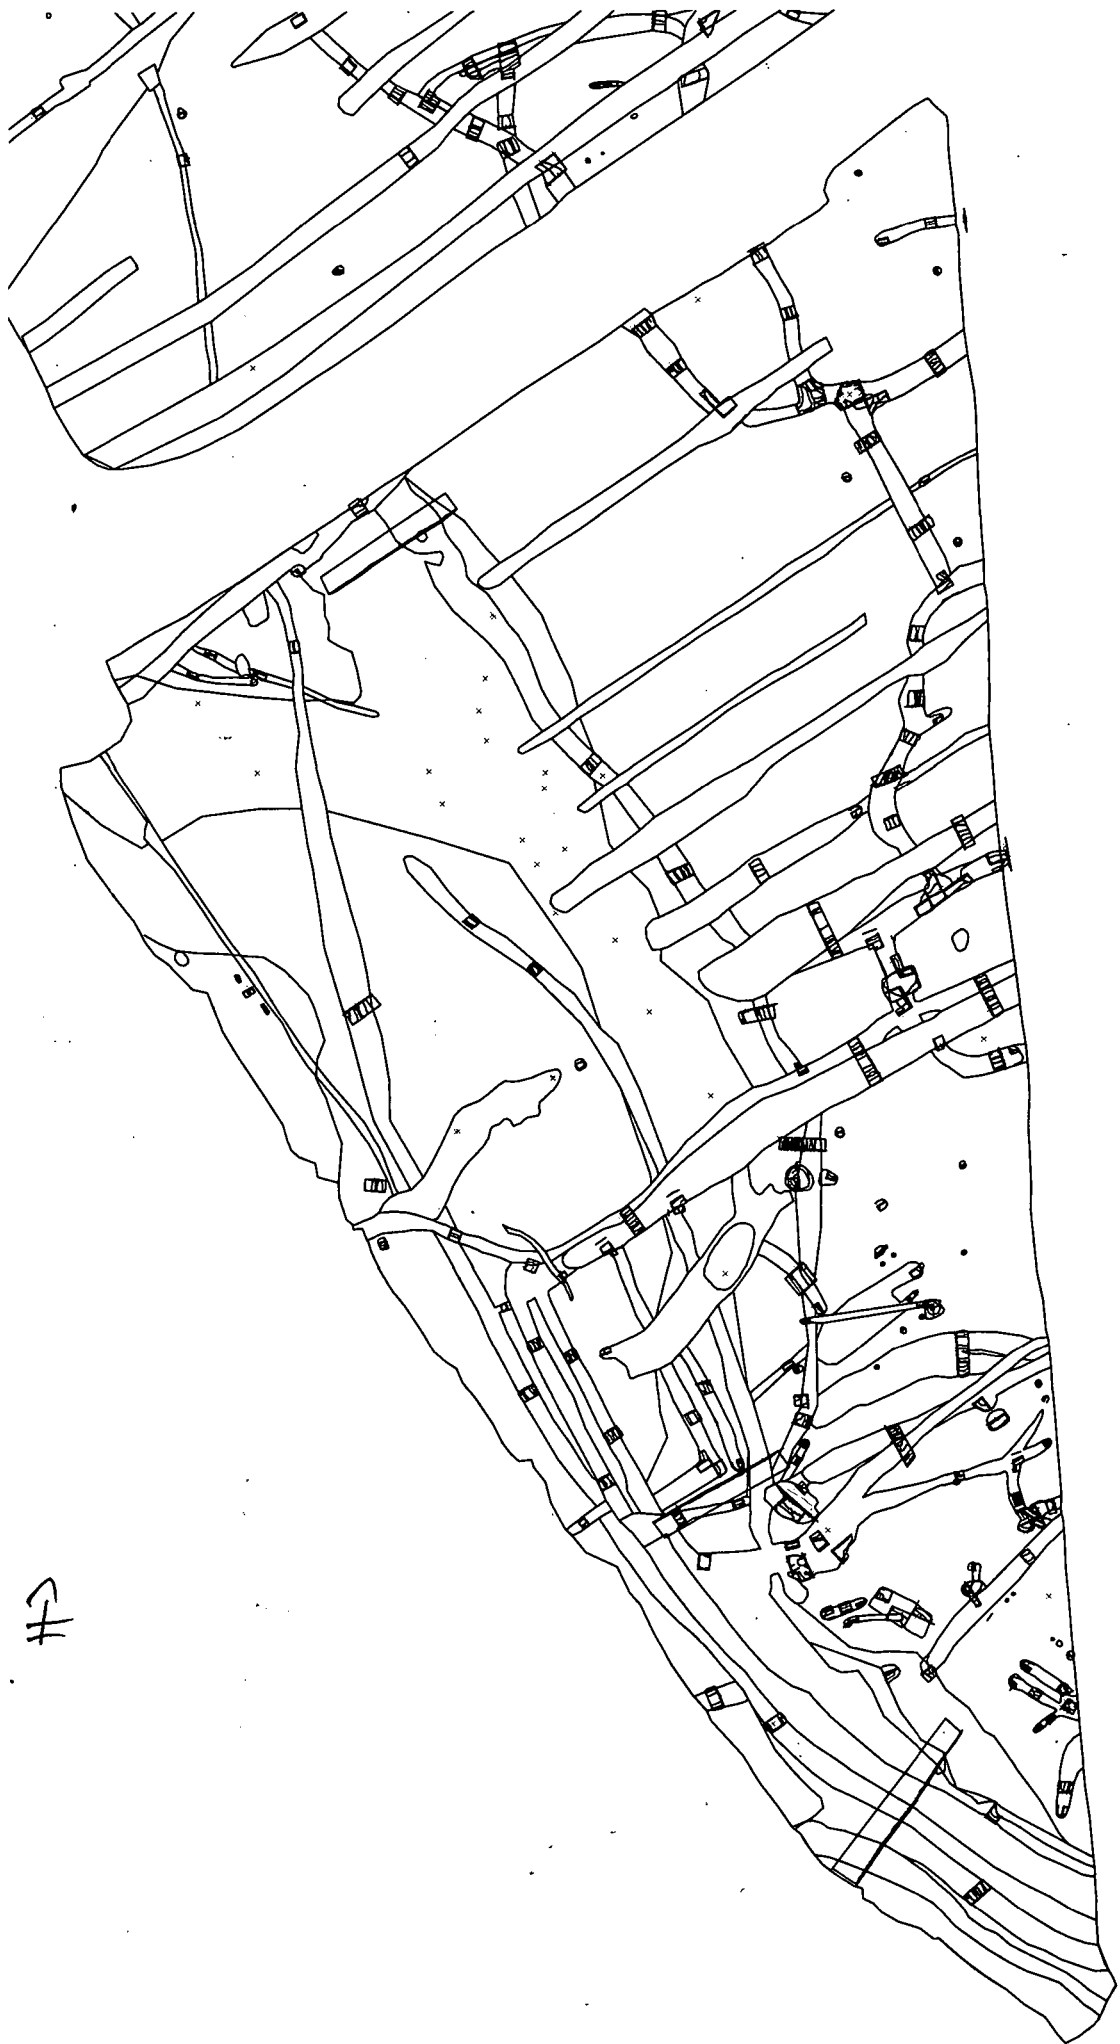

A.RUBU 15.12.12

Refer to context ^{(736703) for}

CUT OF TERMINUS.

THE TERMINUS OF A LONG BUT NARROW AND SHALLOW DEEP. IT GOES SOUTH AND THEN TURNS EAST.

THE SLOT WAS MADE IN SUCH A WAY TO INVESTIGATE THE RELATIONSHIP BETWEEN THE DITCH AND A POSSIBLE POSTHOLE/BEAKEHOLE.

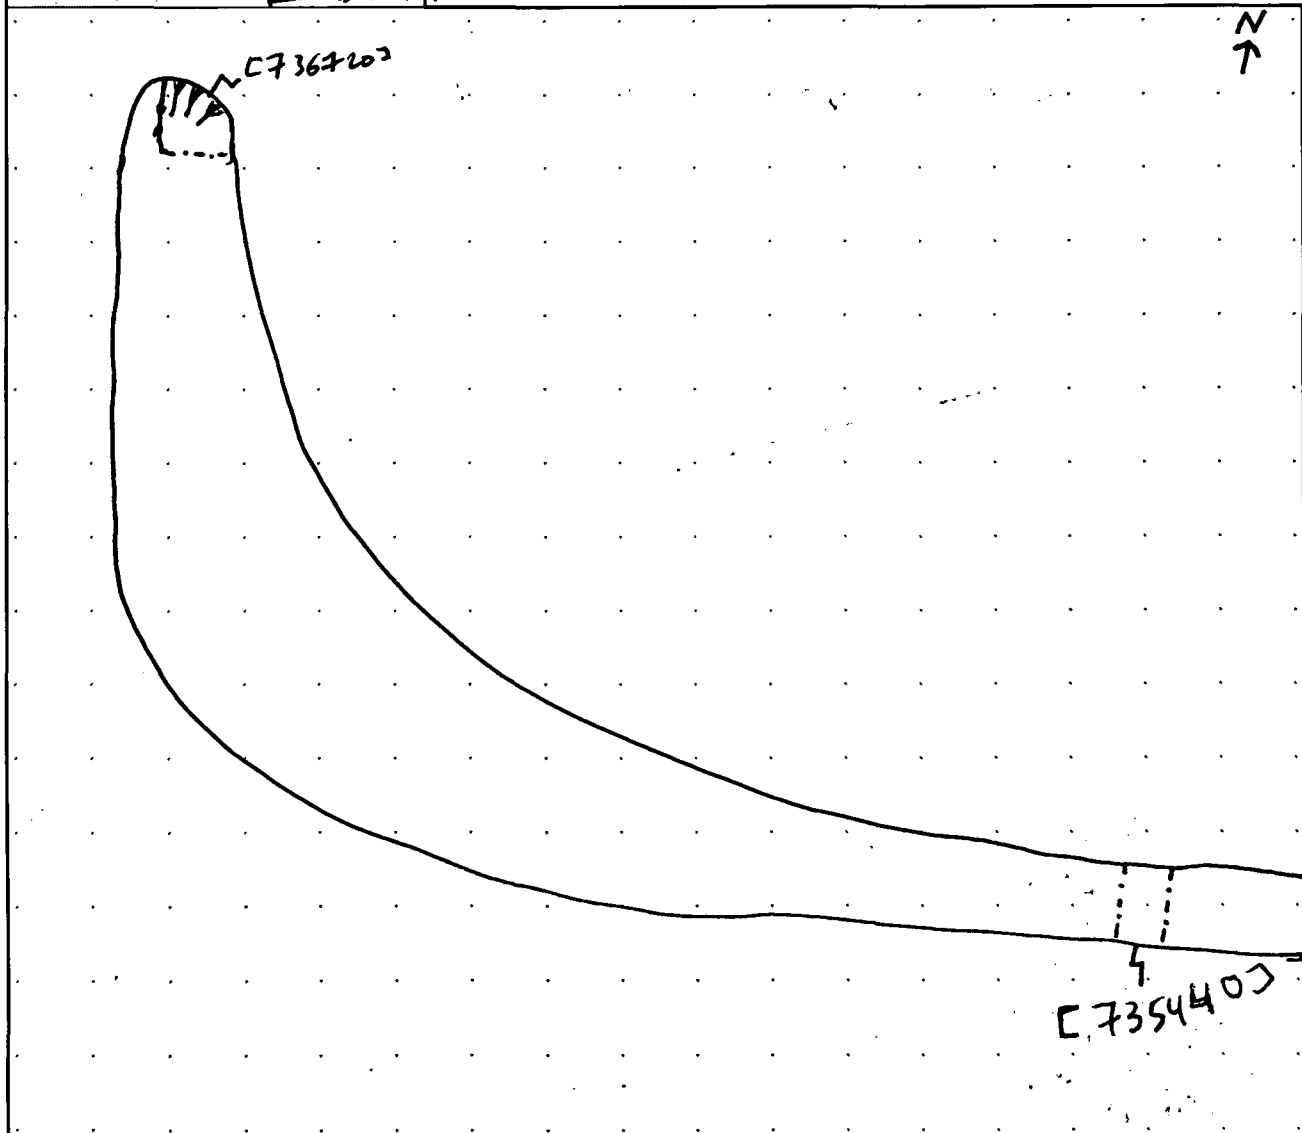

IT TURNED OUT THAT THERE WASN'T ANY OF THEM, JUST THE TERMINUS.

Refer to context

FILL OF TERMINUS [736720].

BASED ON THE LOW DEPTH AND THE COMPOSITION
OF THE FILL I CAME TO THE CONCLUSION THAT
IT'S A NATURAL INFILLING.

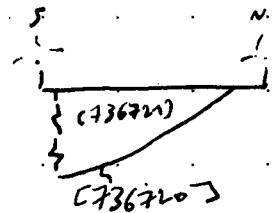

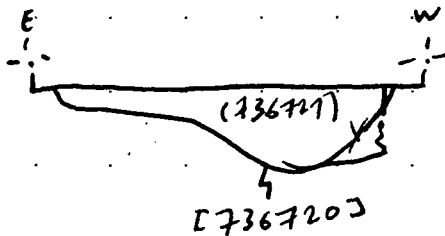

NO FUNDS.

CUT OF PIT. A RESIDENTIAL PIT.

IT IS LOCATED CLOSE TO A DITCH [736720] AMONG OTHER DITCHES AND POSTHOLES.

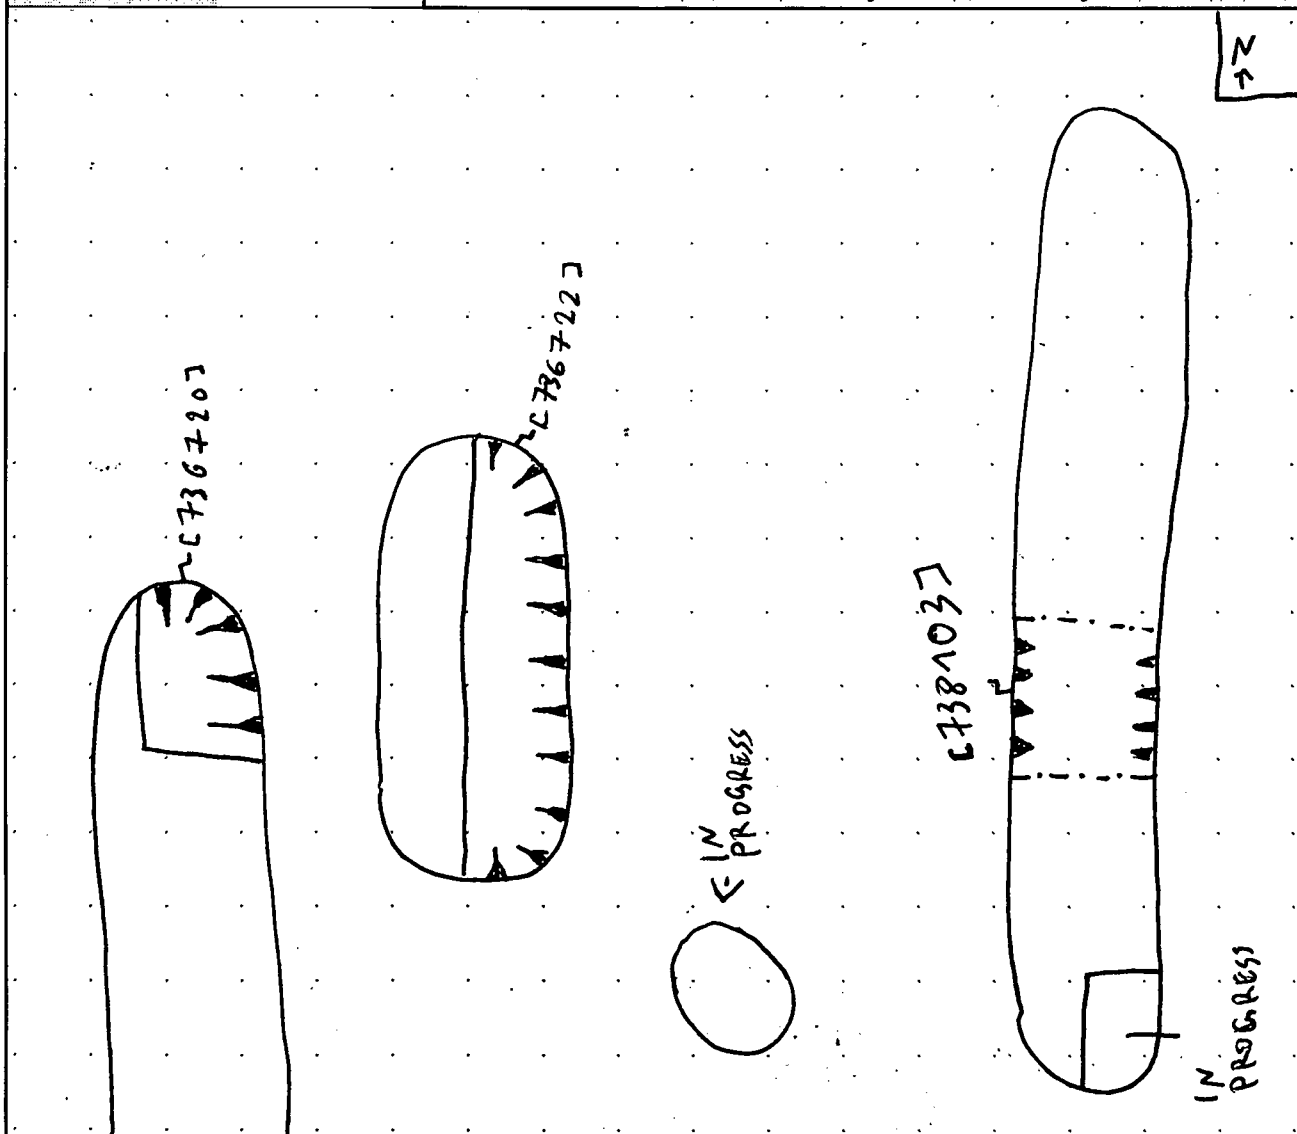

ON ITS SOUTHERN SIDE IT HAS A HOLE THAT LOOKS LIKE A STAKEHOLE AND THE MIDDLE AND NORTHERN SIDE LOOK LIKE POSTHOLES. BUT THERE AREN'T ANY DEFINITIVE CUTS ON THE SECTION TO SAY THAT IT IS SOMETHING OTHER THAN A PIT.

PIECES OF CBM WERE FOUND IN IT, AS WELL AS A BONE WHICH IS IN THE SECTION

Refer to context [736723] for section
