ADDITIONAL INFORMATION

(any further details that may be important for understanding the context, including items marked * overleaf)

cut made to set a circular post-hole [105993] which is near another one [105991]. It has steep slopes and a flat base. It is filled by the context (105994) there is no trace of a post-pipe so the post had been probably ~~removed~~ removed to be reused.

The fill contained animal bones which were scattered throughout the upper and middle part of the fill.

These post-holes [105991] and [105993] are located approximately 50 m to 70 m NE of the enclosure [105066] which encompasses the SW corner of TEA-10A.

Refer to context

Plan → [105991]
Section → [105994]

(consider: location plan, detailed plan showing relationships, section showing fills/deposits as appropriate)
