Cut of a shallow, circular pit.

It had one fill (323678) which contained several fragments of neolithic pottery - probably Peterborough ware and a fragment of worked flint.

The pit is located in the area with a large number of postholes - probably remains of a building. There is also a smaller circular pit nearby to the NW that had a similar burnt fill.

Refer to context 323678 for section

SKETCHES

(consider location plan, detailed plan showing relationships, section showing fills/deposits as appropriate)
