ADDITIONAL INFORMATION

(any further details that may be important for understanding the context, including items marked * overleaf)

Skeleton of neonatal baby in crouched position. legs are not articulated but recovered during initial cleaning of the surface. Skull is heavily damaged.

skeleton is lying crouched on its right side
no grave goods recovered

Sample certainly contains some of the very small bones. Keep an eye out.

Refer to context

SKETCHES

(consider: location plan, detailed plan showing relationships, section showing fills/deposits as appropriate)
