

## PARISH REGISTERS FOR LONDON AND MIDDLESEX

Compiled by CHARLES W. F. GOSS, F.S.A.

THE following is a list of Parish Registers which have been printed, as well as the Manuscript and Typescript complete copies or extracts which have been made from them.

The dates given are those of the earliest and latest entries in each Register and, where it has been possible, the years covered by the Baptism, Marriage and Burial sections respectively have been stated. In addition, references have been given to printed books and journals containing extracts from the Registers.

Printed and published registers may be found in any of the more important libraries, but in the case of Transcripts, whether Manuscript or Typescript, the location is given in almost every instance.

As there are many transcripts in public and private hands, this list must necessarily be far from complete. Members and others are asked kindly to point out to the compiler such omissions or errors as they may detect. All corrections or additions will be published in the *Transactions* from time to time.
