## Abstract

This report presents the results of an archaeological watching brief undertaken by AOC Archaeology Group during ground breaking works for a new temporary office suite at the Cawburn Works, Broxburn.

The work consisted of the excavation of 27 small foundation pits (0.8 m by 0.8 m) to natural subsoil or foundation level.

The majority of pits demonstrated that the underlying soil profile comprised modern madeground overlying natural subsoil, although in a few pits modern concrete slab was encountered. Neither significant archaeological features nor artefacts were identified.

## **1** INTRODUCTION

#### 1.1 Background

- 1.1.1 AOC Archaeology Group was commissioned by Forth Valley Engineering to undertake an archaeological watching brief during the excavation of foundation pits for a temporary office suite at their Cawburn Works, Broxburn (Figure 1).
- 1.1.2 The proposed development (Planning Application No. 0614/FUL/11) lies within the administrative area of West Lothian Council, which is advised on archaeological matters by the West of Scotland Archaeology Service (WoSAS). WoSAS recommended a watching brief during the ground works in accordance. This work is in accord with *Scottish Planning Policy* (Scottish Government 2010) and *PAN 2/2011 Planning & Archaeology* (Scottish Government 2011) to safeguard the archaeological resource from any adverse physical impacts from the associated construction activities.
- 1.1.3 A *Written Scheme of Investigation* (AOC 2011) was agreed with WoSAS in advance of the work being undertaken.

#### 1.2 Location

1.2.1 The development site is centred at NGR: NT 07620 70592 (Figure 1) at the western end of the Cawburn works within an area of tarmaced car parking. It is bounded to the north by the main Edinburgh to Glasgow railway line and to the north-east of the village of Drumshoreland.

#### 1.3 Archaeological background

1.3.1 The development site lies within the former Cawburn Chemical Works, a Victorian industrial complex. There are no other known sites within the development. However the location of the temporary building is approximately 15 m north-east of the mapped location of a former earthwork (*NMRS*: NT07SE8). The earliest references to the earthwork (WoSASPIN 18190) come from the late 18<sup>th</sup> century where they are described as remains of "ancient entrenchments of Roman construction" though by the 20<sup>th</sup> century the remains were described as a circular earthwork without entrance some 110 ft in diameter with a bank some 20 ft wide. Whilst the age and function of the earthwork may have survived within the development area.

#### 2. OBJECTIVES

- 2.1 The objectives of the archaeological watching brief were:
  - *i*) to safeguard the archaeological resource that may be disturbed by the proposed development works;
  - *ii)* to liaise with WoSAS and the client in the event of significant archaeological features and/or small finds being unearthed as to the most appropriate response in safeguarding these features either by preservation *in situ*, if at all feasible or by archaeological recording.

## 3 METHODOLOGY

3.1 A total of 27 small foundation pits were excavated (Figure 2). The pits were excavated using a still saw to cut the overlying tarmac and subsequently a small tracked mini digger fitted with a toothless ditching bucket. All excavation was monitored by an archaeologist. Removal of soil was carried out in shallow spits until the required depth was reached.

## 4 **RESULTS**

- 4.1 The watching brief was undertaken between the 14<sup>th</sup> and 17<sup>th</sup> November 2011. The weather conditions were good and good archaeological visibility was present throughout the works.
- 4.2 The various data gathered from the watching brief is presented as a series of appendices;
  - i) Appendix 1 contains the foundation pit descriptions
  - ii) Appendix 2 contains the photographic register
  - iii) Appendix 3 reproduces the Discovery and Excavation in Scotland
- 4.3 The foundation pits measured a standard 0.8 m by 0.8 m and the majority were excavated through tarmac and modern madeground comprising; a layer of type one hardcore, which overlay a layer of red blaze which in turn overlaid a compact brown silt with frequent inclusions of cinders, coal and building debris. Occasional fragments of 19<sup>th</sup>/20<sup>th</sup> century ceramics were noted within this deposit but not retained. The madeground overlay natural subsoil which comprised mid brown stony clay. The madeground varied between 0.27 m and 0.8 m in depth (Appendix 1).
- 4.4 A concrete slab foundation was identified in Foundation Pits B1, E1, E2, F1, G2, G3, H2 and I1, and represents the remnants an earlier building.

#### 5 CONCLUSION

5.1 Neither significant archaeological features nor artefacts were identified during the watching brief.

#### 6 **RECOMMENDATIONS**

6.1 No further archaeological works are considered necessary. This recommendation will require confirmation by WoSAS on behalf of West Lothian Council.

## **APPENDIX 1:** Foundation Pit Descriptions

#### Foundation Pit A1

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.77 m
Depth of Excavation	0.77 m
Significant Features	None
Other Features	None
Subsoil	Mid brown stoney clay
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit A2

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.63 m
Depth of Excavation	0.63 m
Significant Features	None
Other Features	None
Subsoil	Mid brown stoney clay
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit A3

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.8 m
Depth of Excavation	0.8 m
Significant Features	None
Other Features	None
Subsoil	Mid brown stoney clay
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit B1

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.27 m
Depth of Excavation	0.27 m
Significant Features	None
Other Features	Concrete slab
Subsoil	Not encountered
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit B2

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.61 m
Depth of Excavation	0.61 m
Significant Features	None
Other Features	None
Subsoil	Not encountered
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit B3

Dimensions0.8 m by 0.8 mDepth of Made Ground0.35 m

Depth of Excavation	0.8 m
Significant Features	None
Other Features	None
Subsoil	Mid brown stoney clay
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit C1

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.71 m
Depth of Excavation	0.71 m
Significant Features	None
Other Features	None
Subsoil	Mid brown stoney clay
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### **Foundation Pit C2**

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.72 m
Depth of Excavation	0.72 m
Significant Features	None
Other Features	None
Subsoil	Not encountered
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit C3

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.78 m
Depth of Excavation	0.78 m
Significant Features	None
Other Features	None
Subsoil	Not encountered
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit D1

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.68 m
Depth of Excavation	0.68 m
Significant Features	None
Other Features	None
Subsoil	Mid brown stoney clay
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)

#### Foundation Pit D2

Dimensions	0.8 m by 0.8 m
Depth of Made Ground	0.72 m
Depth of Excavation	0.72 m
Significant Features	None
Other Features	None
Subsoil	Not encountered
Finds	Occasional fragments of 19 <sup>th</sup> /20 <sup>th</sup> century white ceramic (not recovered)
