

ARCHAEOLOGICAL EVALUATION REPORT

SCCAS REPORT No. 2014/024	Parish: Wyverstone
<p>19 South View</p> <p>WYV 022</p>	Planning Application No.: 1652/13
	OASIS No. Suffolkc1-171197
	HER Event No.: WYV 022
Address: 19 South View, Westhorpe Road Wyverstone IP14 4SP	Grid Reference: TM0424 6779
	Number of Site visits: 1
	Date of visits: 18/02/2014
<p>An archaeological evaluation was undertaken on land at 19 South View, Wyverstone in order to abide by a condition placed on the proposed development (MSDC planning application number 1652/13) for two new dwellings. A single trench, 15m long and 1.6m wide, was excavated across the proposed footings on the 18th February 2014.</p>	
<p>Location Map:</p> 	<p>Trench plan:</p> 

Results:

The trench was excavated to a depth of c.0.5m below ground level and the observed stratigraphy was 0.28m of dark greyish brown silty clay top/garden soil over 0.1m of a mid brownish grey silty clay subsoil. This overlay a mid/pale creamy brown/grey flecked natural clay with frequent chalk flecks and lumps.

Three glacial stripes were noted, on a general north-west/south-east alignment, and a single modern field drain cut was seen, cut through the subsoil, on a north-northwest/south-southeast angle.

Plate 1. Trench 1 facing north (2m scale)

Finds: None
