Interpretation and discussion																													
Single All of possible terminus within curvilinear. Feature might have been truncated at some point, All seems disturbed and uneven (perhaps by bioturbation) which creates a vague edge. No finds quite sterile.

Interpretation and discussion																													
Relationship between cuts 207 and 210 is unclear, thus this fill 212 appears to be a fill of both 207 and 210. In section the fill looks the same, thus 212 covers both cuts. Refer to 207 for more info.

Interpretation and discussion					
Cut of postpad/posthole just NB of curvilinear = just W of postpad/posthole [197]. Very shallow = ephemeral edge. Looks the same as [197] (being shallow & unclear). The pattern in plan suggests a structure - but all of it so far has been heavily truncated.

Interpretation and discussion					
CUT OR small linear, likely truncated by [224] which appears to be relatively contemporary (same pottery fabric in both both fills.)					
Relationship disrupted by dislodged stone from machining, as well as the fills being homogenous.

Interpretation and discussion					
Cut of end of curvilinear w. one fill (227). No finds. A change in the natural can be seen in section & plan at the edge of the fill (see sketch of profile). Feature is very shallow & truncated like the rest of the features in this area. Possible once part of the potential structure curvilinear. Also probably truncated by furrow at some point as feature curvilinear suddenly stops there.

Interpretation and discussion Single fill of end of curvilinear [226]. Fill quite sterile = no finds. A change in natural can be seen in plan = section of feature. Fill types of looking almost like a terminus but has probably just been heavily truncated at some point. Fill very similar to the other features in the "roundhouse structure" area.		<table border="1" style="width: 100%;"> <tr> <td>Plans</td> <td>Sheet No 13</td> <td>Drawing No 69</td> </tr> <tr> <td>Sections</td> <td></td> <td></td> </tr> <tr> <td>Samples</td> <td colspan="2">—</td> </tr> <tr> <td>Registered finds</td> <td colspan="2">—</td> </tr> <tr> <td>Digital photo nos.</td> <td colspan="2">203-205</td> </tr> <tr> <td>B+W film nos.</td> <td colspan="2">—</td> </tr> <tr> <td>Slide film nos.</td> <td colspan="2">—</td> </tr> <tr> <td>GPS nos.</td> <td colspan="2">—</td> </tr> </table>	Plans	Sheet No 13	Drawing No 69	Sections			Samples	—		Registered finds	—		Digital photo nos.	203-205		B+W film nos.	—		Slide film nos.	—		GPS nos.	—

Interpretation and discussion					
Cut of northern edge of curvilinear, containing one fill (242) = 1x pottery. Feature very shallow (as seen also in [184] = [193]), and tapers off at the very tip of curvilinear. Feature probably very truncated at some point just like all the other least features in this area (see [250] for a more detailed sketch).

Interpretation and discussion					
Single fill of tip in curvilinear [250]. Same type of soil/All as in [184] & [193] probably. Feature very truncated and shallow as the rest of the curvilinear. 1x pottery found in the center of feature. Some charcoal inclusions but otherwise quite sterile.

Interpretation and discussion REDEPOSITED NATURAL.					
ORIGINALLY THOUGHT FUL WAS PART OF A DEWIT OR SEPARATE GULLY FEATURE LATER THAN ORIGIN. HOWEVER IT SEEMS LIKE THAT THE FUL IS JUST REDEPOSITED NATURAL, PURPOSELY USED TO MAKE THE GULLY STRONGER OR TO PERMANENT SEAL IT OFF. IT OFF. SUGGESTS obvious use.

Interpretation and discussion																																					
Cut of posthole/postpad containing 1 fill (251). Very shallow but nicely circular in plan similar to the other postholes/postpads in the same area [197] [206]. Looks to be positioned along the curvilinear of the possible "roundhouse" structure - however also probably truncated at some point being so shallow. Has more of a bowl shape than the other two postholes [197] [206] which were more flat based.

Interpretation and discussion					
Single All of shallow posthole/postpad [250]. Fill was very similar to the other postholes/postpads in the area in terms of colour, texture etc. Quite sterile, no Aids. Very shallow like the other features in the "roundhouse structure" area. Truncated or machined. No Aids or organic material found in All.

Interpretation and discussion							
THIS FEATURE IS A STRAIT LINEAR EXTENDING SEVERAL METERS NORTH & SOUTH. MUCH OF IT IS EPHEMERAL AND SHALLOW SUGGESTING TRUNCATION FROM ABOVE. IT IS CUT BY [259] WHICH IS A BROADER, DEEPER, SHORTER LINEAR RUNNING PARALLEL. [261] LIKELY TERMINATES BETWEEN THE NORTH FACING SECTION OF [259] AND THE SOUTH FACING SECTION OF [230] BUT THE FILLS ARE SO SIMILAR THAT THIS DOESN'T SHOW ON THE SURFACE.

Interpretation and discussion Cut of possible posthole containing 1 fill (275). Very shallow & circular in section. Ephemeral edges and difficult to see edge. Probable alluvial activity that caused the fill to muddy/bleed out (giving it a kidney-shape in plan pre-ex). Post-ex a more circular shape becomes more prominent w. fill & natural bleeding into each other. Quite isolated & not visibly near any other postholes.

Interpretation and discussion					
cut of possible posthole Single fill of possible posthole [274]. No finds. Fill was very uneven & had an ephemeral edge from probable alluvial activity causing the fill & natural to muddle/bleed out into each other. Besides some small specks of occa. charcoal, fill was quite sterile

Interpretation and discussion Cut of possible fire pit containing 1 fill (284). No finds. Shape in plan seemed almost hourglass-shaped = very irregular in section w. lots of divots = sudden sharp slopes. Lots of redeposited natural paths/bands through fill as seen in section - possible used as backfill if fire pit?

Interpretation and discussion Single fill of possible firepit [283] . No finds. Fill had a fair amount of concentrated charcoal = burnt clay patches/inclusions. A band = some random patches of redeposited natural seen through fill. Very irregular shape = ephemeral edges. The redeposited natural was perhaps a type of backfill if a firepit.			<table border="1"> <tr> <td>Plans</td> <td>Sheet No 13</td> <td>Drawing No 90</td> </tr> <tr> <td>Sections</td> <td></td> <td></td> </tr> <tr> <td>Samples</td> <td colspan="2">No. 23 (1 liter)</td> </tr> <tr> <td>Registered finds</td> <td colspan="2">-</td> </tr> <tr> <td>Digital photo nos.</td> <td colspan="2">271-274</td> </tr> <tr> <td>B+W film nos.</td> <td colspan="2">-</td> </tr> <tr> <td>Slide film nos.</td> <td colspan="2">-</td> </tr> <tr> <td>GPS nos.</td> <td colspan="2">-</td> </tr> </table>			Plans	Sheet No 13	Drawing No 90	Sections			Samples	No. 23 (1 liter)		Registered finds	-		Digital photo nos.	271-274		B+W film nos.	-		Slide film nos.	-		GPS nos.	-

Interpretation and discussion

Cut of linear terminus containing 1 fill (298). Linear continuing into the LOE ca 20 m towards W. Somewhat flat based & bowl shaped profile. Slightly ephemeral edge as fill bleeds into natural & some patches of redeposited natural spread out in fill. Perhaps due to alluvial activity. More zoomed in plan sketch on sheet (298).

Description 1. C25122 2. Dark grey silty clay w. dark blue/black hue. Soft. 3. Occa. specks of charcoal = small stones (>2cm). Texture quite sandy/gravelly due to fine sandy gravel inclusions. 4. Semi-dear. Ephemeral edge as fill = natural is somewhat muddled together. 5. Length = ca 0.75m Width = ca 0.4m (0.17m excavated) Depth = ca 0.1m 6. Hand excavation (trowel), terminus sectioned 7. Warm & dry 8 -			1. Location 2. Shape in plan 3. Orientation 4. Profile 5. Dimensions (m) 6. Clarity of edge 7. Weather and ground conditions 8. Other Group ☐ 1. Includes 2. Description

Interpretation and discussion Cut of linear ditch seen further north in relationship slot as curving [267], widening here and still cutting [301], previously seen in relationship slot as [263]. Presence of Romano-British pottery in single fill (300) is suggestive of date. EDIT 11/6/21 → later slot reveals that [299] is in fact [263] and [267] merging with [301] a separate, earlier ditch			Excavated and date WJ 30/4/21 Recorded and date WJ 12/5/21 Site check Post-ex check
