INTERPRETATION

Thought to be possible Roman road, however aside from a few water-rolled cobble stones, no other evidence. ~~is~~ orientated directly underneath current road, visible in all trenches 281-5. Possible older road or trackway. No evidence for dating however.

INTERPRETATION

Fill of possible road + trackway. Looking for Roman road. Heavily disturbed, possible trackway or road, no evidence of Roman, no dating found. Only thing to suggest possible Roman are the presence of ~~water~~ water-rolled cobble stones, although very few so no indication of road surface. Truncated by modern service
