Diagram illustrating the Matrix structure:

```
graph TD; A[ ] --- B[395]; A --- C[ ]; B --- D[394]; D --- E[ ]; D --- F[397]; D --- G[ ]
```

The diagram shows a hierarchical structure with three levels. The top level consists of three boxes: an empty box on the left, a box containing the number 395 in the center, and an empty box on the right. The middle box (395) is connected by a vertical line to a box containing the number 394 in the middle of the second level. This middle box (394) is then connected by a horizontal line to three boxes in the third level: an empty box on the left, a box containing the number 397 in the center, and an empty box on the right.
