

## Annual Bibliography 1994

Collated by

DAVID HIGGINS and PETER DAVEY

*This year the bibliography has been extended to include entries for The Netherlands and South Africa which were kindly provided by M H Bartels. This enhances the value of the bibliography for researchers and we would welcome contributions from other countries for next year. The new sections have been placed after the British Isles, the entries for which are in the following order. General works are placed at the beginning followed by country groups for England, Ireland, The Isle of Man, Scotland and Wales. The general works are arranged by author while the other sections are arranged alphabetically by county and then by town or parish. The Greater London entries are grouped alphabetically by Borough.*
