

ANNUAL BIBLIOGRAPHY 1999

Collated by

DAVID HIGGINS, PETER DAVEY, PHILIPPA TOMLINSON AND SUSIE WHITE

The bibliography covers the British Isles and is divided into five sections: England, Ireland, Isle of Man, Scotland and Wales. There were no returns for general works or for the Channel Islands in 1999. The regional sections start with general works, listed in alphabetical order by author, followed by topographical entries, which are arranged alphabetically by county and then by town or parish. The Greater London entries are grouped alphabetically by Borough. Information about the content of each entry is provided using the codes which are listed in full at the end of the bibliography. The 1999 bibliography has been generated from computerised entries held in the MPRG National Bibliography database. The database has been compiled using the old county structure and so this bibliography does not take account of recent boundary changes. The practice of numbering the individual entries in the bibliography will be discontinued from this year to enable more compact publication. For brevity, the full title of project summaries from Post-medieval Archaeol 32 (1998) have also been omitted. All site-specific entries from pages 145 to 206 of this volume are from M Ponsford and R Jackson (eds.) 'Post-medieval Britain and Ireland in 1997'.

MEDIEVAL POTTERY GROUP BIBLIOGRAPHY: ABBREVIATIONS

The following codes have been used to collect information about each reference entered into the bibliography. The codes are shown here sub-divided into their respective sections. Each two letter code is unique so that the string of codes following each reference in the published bibliography can be related to one of these sections.

2. Type of report

EX Excavation
CO Collection
FI Fieldwalking
SY Synthesis
CF Casual Find
OT Other

3. Ceramic categories present

DO Domestic
KF Kiln Furniture
OE Other
IL Industrial
WA Wasters
RF Roof Furniture
IM Imports
FT Floor Tiles
CP Clay Pipes
FU Funerary Urn

4. Ceramic descriptions: quantification & fabric
