

Parsonage Farm, Parsonage Green, School Lane, Broomfield, Essex.

Enlarged extract from the Ordnance Survey First Edition 25" to a mile. 1876. Shows Parsonage Farm fully developed more or less as survives today. The pond to the north-west of the barn appears to more carefully formed with a possible access shown at the south-west corner. As it is shown against the barn and the adjoining shelter shed that could have resulted in the undermining effect on the buildings requiring the rebuilt brickwork seen today.
