

Parsonage Farm, Parsonage Green, School Lane, Broomfield, Essex.

Enlarged Extract from the Ordnance Survey Second Edition 25" to a mile. 1896.

This enlarged extract shows that the south range of the farmyard has the cartlodge shown to the width of the cowhouse as suggested by the visible structure now built to a wider span. The brick building between the shelter sheds in the western yards still exists and a building now removed was connected to it at the south. All other buildings appear to be to sizes as now.
