

Whitley House, Four Ash Hill, Baythorne End, Birdbrook. Essex.

Two heavy reused beams in central bay set over collar level. Suggested use is for a hoist.

End support system for beams. Vertical post from tiebeam with bracing from top to tiebeam and tie piece between the beams.

Detail of top construction with main beams mortised and tenoned into vertical posts and braces keyed under apparently only nailed.

Detail of one reused beam showing mortises for window mullions and channel for sliding shutter with stud mortises to either side.

Beams at south west end to upper loading door supported back to first tiebeam

Detail of pulley mounting set towards opening and on top of beams.
