

Appendix 2: Levels and Context descriptions

Levels are recorded as metres above Ordnance Datum (OD), calculated from a levels survey produced by Mouchel Business Services ('Drainage and Externals', Project No. XT/058/0001, Drawing No. C.16. 24/6/11).

Evaluation Trench: Ground level 13.90m OD (ENE) – 14.03m OD (WSW).

Context No.	Type	Description
101	Topsoil	Mid-dark brown silt-loam with frequent charcoal flecks and small limestone fragments. < 0.25m thick.
102	Sub-soil	Mid orange-brown clayey silt with frequent small limestone fragments and occasional pebbles, cobbles and animal bone fragments. < 0.35m thick.
103	Natural substrate	Predominantly limestone brash with lenses of light-mid orange brown clayey silt and sandy silt. = Limit of excavation.
