

Plate 5 (right): Close-up view of the sample section in house plot 4, showing the topsoil, subsoil and natural; looking west.

Plate 6 (left): Section A-B of the sample section in house plot 4, in which any surviving furrows should have been visible, but only undulations in the natural gravel were observed; looking north-north-west.

Plate 7 (right): General shot of house plot 7 on completion of the topsoil strip, looking south-west.

Plate 8 (left): Excavation of the foundation trenches in house plot 7, looking north-west.
