

## Appendix 1: Colour Plates

**Plate 1:** Trench 1, looking north-west. Note ditch [105] running east-west across the trench.

**Plate 2:** Trench 1, representative section, looking west. Visible within this section is the natural (104) sealed by (103) the dark layer of buried soil which is then sealed by the obvious grey-gravel layer of made ground deposit (102). This is then sealed by the top soil (101) and the vegetation layer.
