KEY

PROBABLE ARCHAEOLOGY

- Positive anomaly / weak positive anomaly - probable cut feature of archaeological origin
  - Negative anomaly / weak negative anomaly - probable bank or earthwork of archaeological origin
  - Widely spaced curving parallel linear anomalies - probably related to ridge-and-furrow
- POSSIBLE ARCHAEOLOGY
- Positive anomaly / weak positive anomaly - possible cut feature of archaeological origin
  - Negative anomaly / weak negative anomaly - possible bank or earthwork of archaeological origin
  - Linear anomaly relating to historic field boundary. Visible on historic mapping dating from 1885.
  - Magnetic spike - probable ferrous object

OTHER ANOMALIES

- Closely spaced parallel linear anomalies - probably related to agricultural activity such as ploughing
- Linear anomaly - probably related to pipe, cable or other modern service
- Area of unknown magnetic response
- Magnetic disturbance associated with nearby metal object such as service or field boundary
- Strong magnetic debris - possible disturbed or made ground
- Scattered magnetic debris
- Area of amorphous magnetic variation - probable natural (e.g. geological or pedological) origin
