KEY

PROBABLE ARCHAEOLOGY

- ▭ Positive anomaly / weak positive anomaly - probable cut feature of archaeological origin
- ▭ Negative anomaly / weak negative anomaly - probable bank or earthwork of archaeological origin
- ▭ Moderate strength discrete anomaly - probable thermoremanent feature
- ▭ Widely spaced curving parallel linear anomalies - probably related to ridge-and-furrow

POSSIBLE ARCHAEOLOGY

- ▭ Positive anomaly / weak positive anomaly - possible cut feature of archaeological origin
- ▭ Negative anomaly / weak negative anomaly - possible bank or earthwork of archaeological origin

OTHER ANOMALIES

- ▭ Closely spaced parallel linear anomalies - probably related to agricultural activity such as ploughing
- ▭ Linear anomaly - probably related to pipe, cable or other modern service
- ▭ Linear anomaly - related to field boundary visible on historic mapping
- ▭ Magnetic disturbance associated with nearby metal object such as service or field boundary
- ▭ Strong magnetic debris - possible disturbed or made ground
- ▭ Scattered magnetic debris
- ▭ Area of amorphous magnetic variation - probable natural (e.g. geological or pedological) origin
- + Magnetic spike - probable ferrous object
