KEY

PROBABLE ARCHAEOLOGY

- Strong magnetic anomaly related to base of WW2 radio transmitter mast
- Magnetic debris related to military radio transmitter installations
- Sub-circular magnetic anomaly related to base of post war 'bomber-net' radio transmitter mast
- Linear anomaly probably connected to cabling related to transmitter masts
- Widely spaced curving parallel linear anomalies - probably related to ridge-and-furrow
- Linear anomaly related to former field boundary visible on historic mapping (dating from 1880)

POSSIBLE ARCHAEOLOGY

- Positive anomaly / weak positive anomaly - possible cut feature of archaeological origin
- Negative anomaly / weak negative anomaly - possible bank or earthwork of archaeological origin

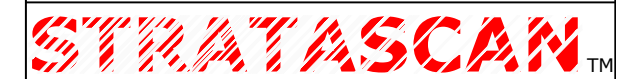

OTHER ANOMALIES

- Closely spaced parallel linear anomalies - probably related to agricultural activity such as ploughing
- Linear anomaly - probably related to pipe, cable or other modern service
- Linear anomaly - possibly related to land drain
- Magnetic disturbance associated with base of former radio masts
- Strong magnetic debris - possible disturbed or made ground
- Scattered magnetic debris
- Magnetic spike - probable ferrous object
