KEY

- PROBABLE ARCHAEOLOGY**
- Positive anomaly / weak positive anomaly - probable cut feature of archaeological origin
 - Negative anomaly / weak negative anomaly - probable bank or earthwork of archaeological origin
 - Linear anomaly related to former field boundary present on historic mapping between 1888 and 1995
 - Widely spaced curving parallel linear anomalies - probably related to ridge-and-furrow
- POSSIBLE ARCHAEOLOGY**
- Positive anomaly / weak positive anomaly - possible cut feature of archaeological origin
 - Negative anomaly / weak negative anomaly - possible bank or earthwork of archaeological origin
 - Linear anomaly probably related to former field boundary - not present on available historic mapping
- OTHER ANOMALIES**
- Closely spaced parallel linear anomalies - probably related to agricultural activity such as ploughing
 - Linear anomaly - probably related to pipe, cable or other modern service
 - Linear anomaly - possibly related to land drain
 - Magnetic disturbance associated with nearby metal object such as service or field boundary
 - Strong magnetic debris - possible disturbed or made ground
 - Scattered magnetic debris
 - Area of amorphous magnetic variation - probable natural (e.g. geological or pedological) origin
 - Magnetic spike - probable ferrous object
