KEY	
	Negative linear anomaly - possible earthwork of archaeological origin
	Positive linear anomaly with associated negative response - possible field boundary
	Linear anomaly - probable agricultural mark
	Positive linear anomaly - cut feature of possible archaeological origin
	Discrete positive response - possible pit
	Strong linear anomaly - probably relating to a modern service
	Negative linear anomaly within area of positive response - uncertain origin
	Moderately strong bipolar anomaly - uncertain origin
	Magnetic debris - probably caused by scatter of ferrous objects
	Magnetic disturbance - probably caused by modern magnetic interference
