KEY	
	Moderately strong linear anomaly - possible service or field drain
	Strong discrete positive response with associated negative response - likely ferrous object
	Magnetic debris - probably caused by scatter of ferrous objects

Client
WITHAM ARCHAEOLOGY

KEY

	High resistance area anomaly - possible stone/masonry remains of archaeological origin
	Moderately high resistance response - possible stone remains or compacted ground associated with adjacent high resistance responses
	Low resistance area anomaly - cut or wet feature of possible archaeological origin
	Weak high resistance anomaly - uncertain origin

Client
