*Walk-over survey*

*John Lewis – Scotia Archaeology*

NO 05744 48177 to NO 06448 45878 A desk study followed by a walk-over survey on 1 April 2013 were carried out along the course of a proposed new hydro-electric scheme along the banks of the Buckny Burn to the N of Butterstone. The desk study found no sites of significance along the route although the field survey identified what might be the sparse remains of rig and furrow centred on NO 06164 47167.
