Benmore Burn Hydro-electric Scheme

Walk-over survey

John Lewis – Scotia Archaeology

NN 41770 25029 to NN 41345 25784 Following a desk study, a walk-over survey was undertaken on 28 August 2013 along the route of a proposed new hydro-electric scheme feeding off the Benmore Burn near Crianlarich. The only feature of archaeological significance encountered during the survey consisted of the scant remains of what may have been a shieling hut on the east bank of the burn at NN 41734 25157.
