Kilmichael parish

Crarae electricity substation

Walk-over survey

John Lewis – Scotia Archaeology

NR 9717 9805 A walk-over survey was undertaken on 3 July 2014 at the site of the proposed new Crarae Electricity Sub-station near Minard. The survey area, centred on NR 9717 9805 and measuring some 300m N/S by 200m E/W, was located immediately S of an area surveyed in 2012, the original intended location of the sub-station (then named A'Cruach) where a pre-Improvement enclosure was investigated (DES 2012, 47). Nothing of archaeological significance was encountered during the 2014 survey.
