Larichfraskhan Hydro

Walk-over survey

John Lewis – Scotia Archaeology

NN 81430 32770 to NN 81500 33110 A walk-over survey was carried out on 2 September 2014 along the route of a proposed new hydro-electric scheme on the Larichfraskan Burn, Glen Almond. A survey was undertaken along the burn in 2012 (DES 2012, 156) but since then the penstock has been reduced in length. The only feature of note encountered was a putative shieling hut found in 2012 at NN 81470 32966.
