Project 3305
Report 1663
WSM 40537

Eckington Village (with the site marked)

The site (barns marked)

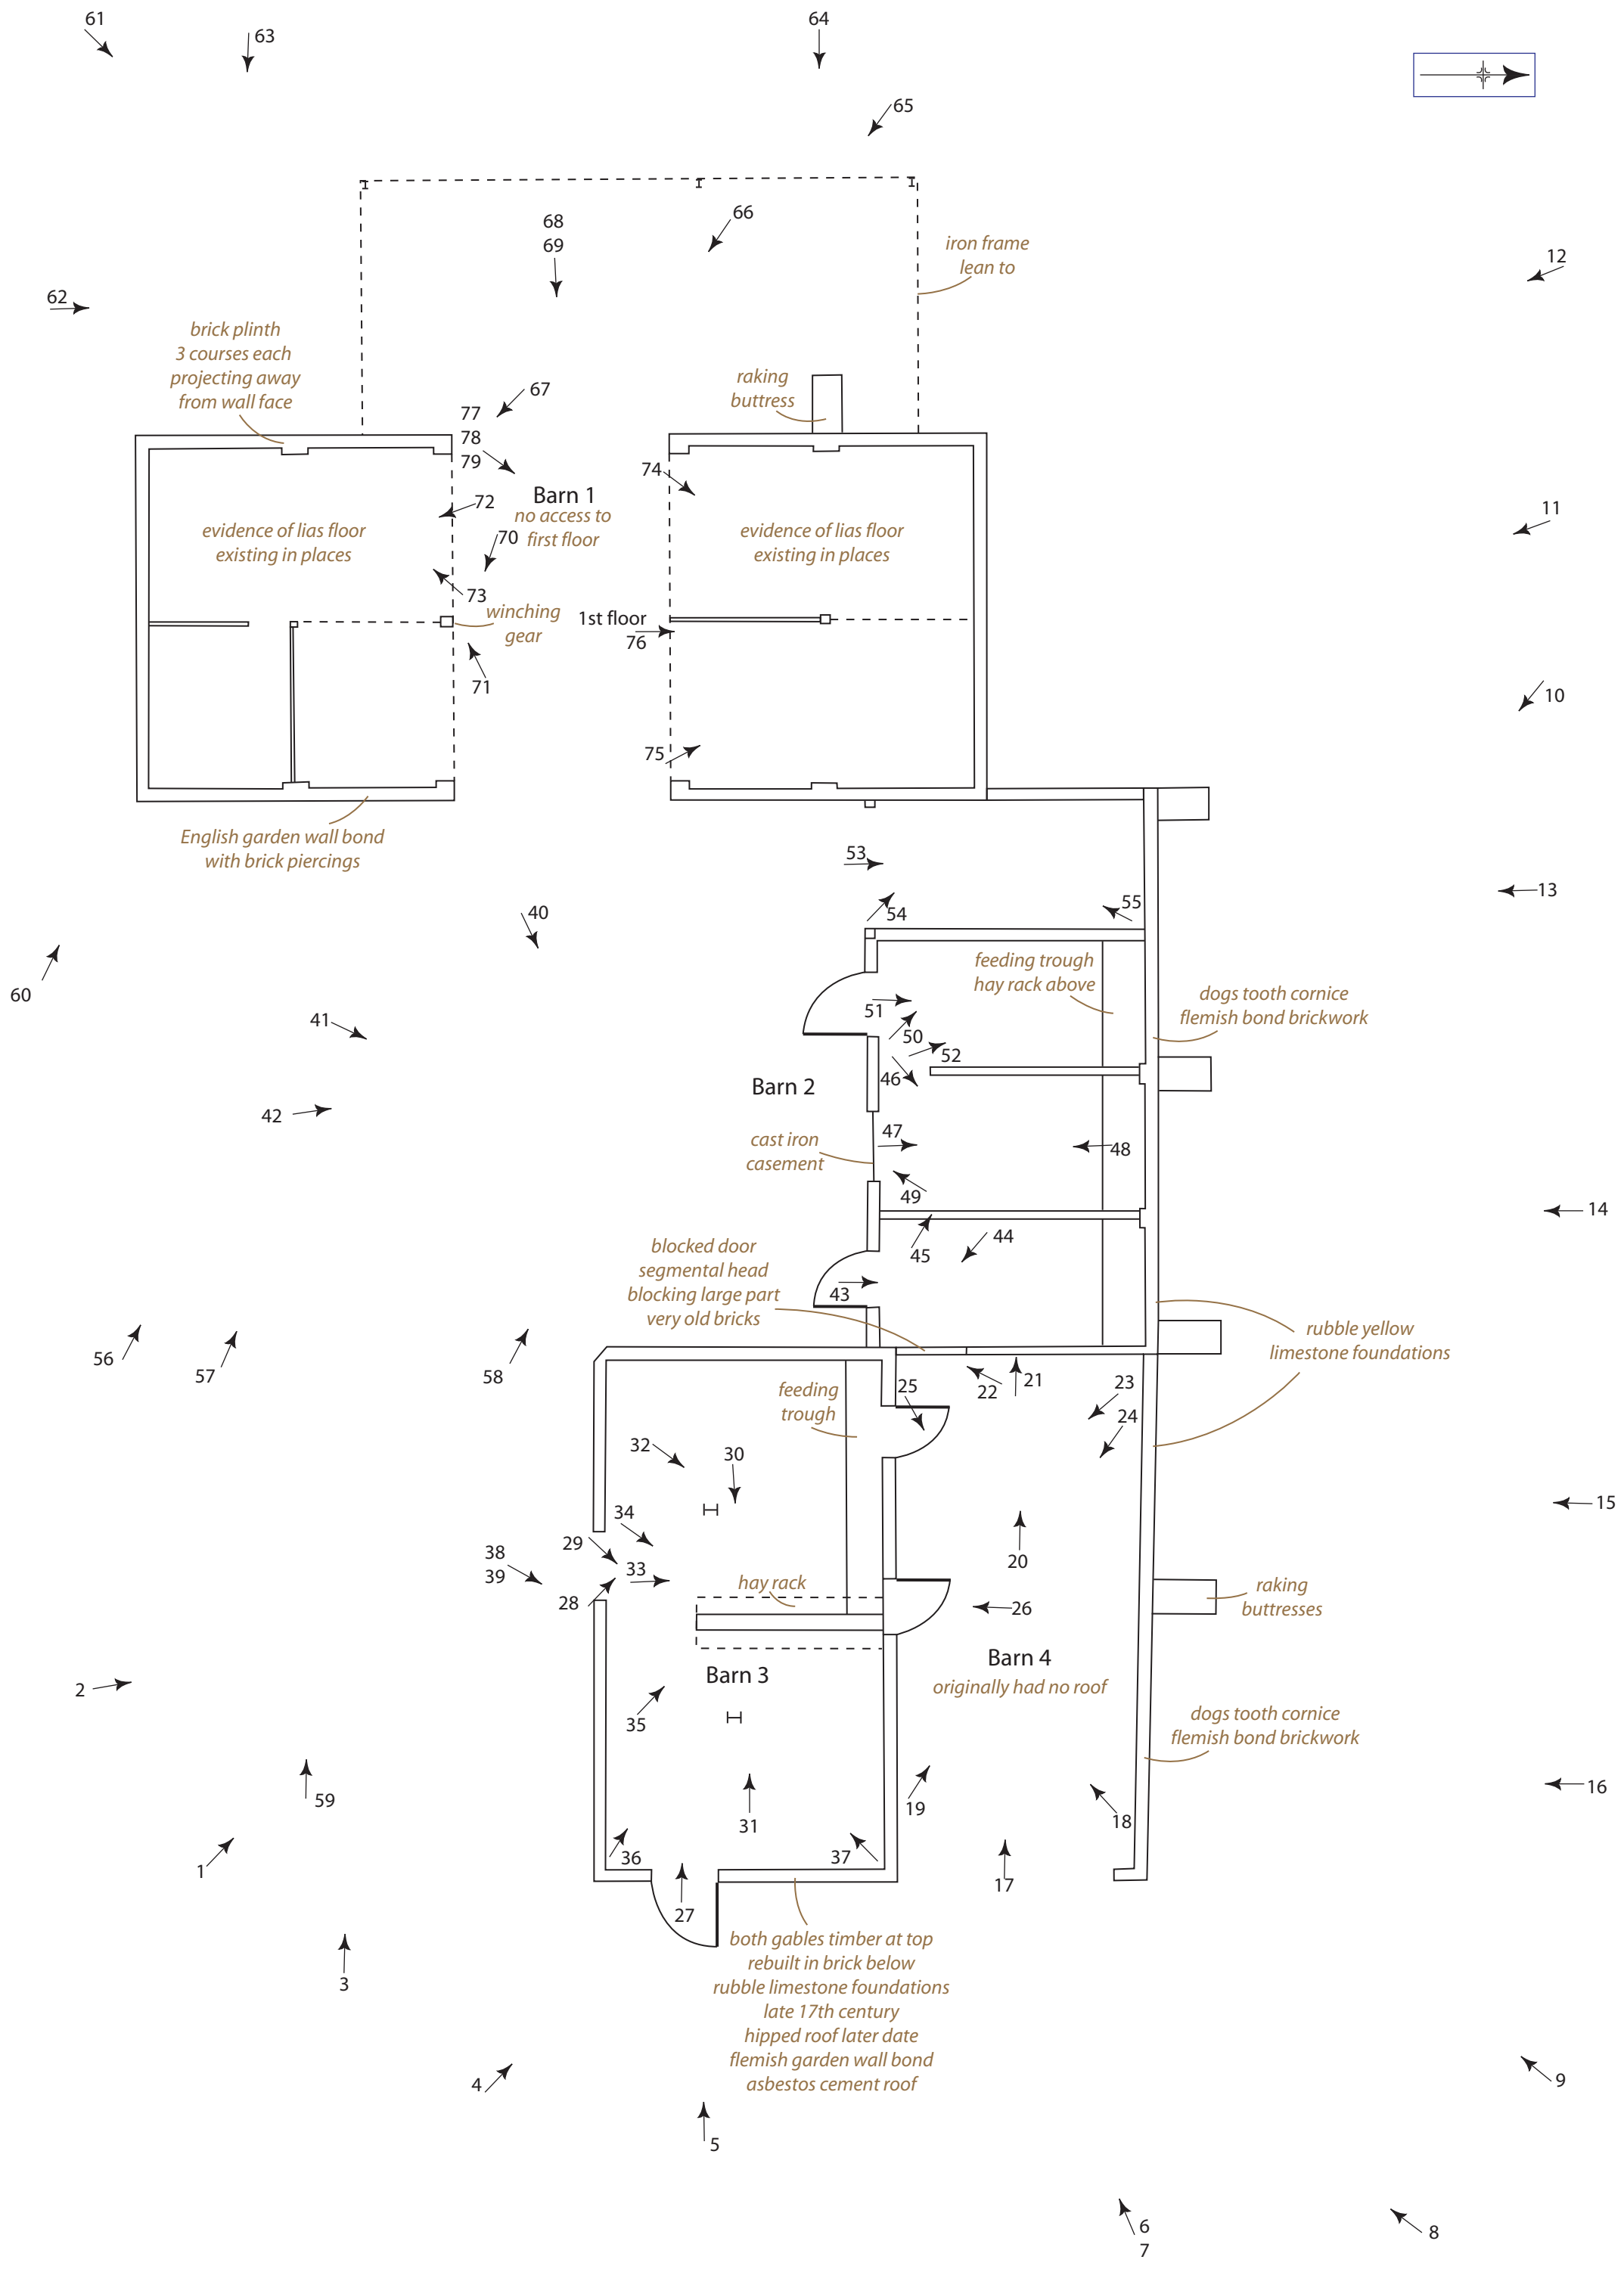

Location

The barns recorded are located to the immediate west of Lower End House at Manor Farm, Eckington (NGR SO91783 41419). The barns are now derelict but were originally part of Lower End Farm. Lower End House is a grade II listed building dated to the 16th or 17th century. It has recently undergone a very fine and sympathetic restoration programme to be converted into accommodation for the Eckington Manor Cookery School. This has been created from an unused dutch barn next to the house and barns recorded here.

The barns consist of four structures all joined to each other. Barn 1 is a large, brick, threshing barn. Barn 2 is a stable. Barn 3 appears to have been last used as a byre and is part timber framed. Barn 4 is now used as roofed storage but was originally an open space to the east of barn 2.

Information

The photographic recording of the barns took place on 20th November 2008. All photographs were taken with a Sony a350 digital SLR camera with scales in each elevation. All photographs taken have been reproduced along with a ground plan showing their location and notes about the buildings.
